Family Language Learning Christine Jernigan, 2015 Family Language Learning is a practical guide designed to support, advise and encourage any parents who are hoping to raise their children bilingually. It is unique in that it focuses on parents who are not native speakers of a foreign language. It gives parents the tools they need to cultivate and nurture their own language skills while giving their children an opportunity to learn another language. The book combines cutting-edge research on language exposure with honest and often humorous stories from personal interviews with families speaking a foreign language at home. By dispelling long-held myths about how language is learned, it provides hope to parents who want to give their children bilingual childhoods, but feel they don't know where to start with learning a foreign language.

The Magic Wand ,1911

Art Is Fundamental Eileen S. Prince, 2008 This comprehensive art curriculum can easily be integrated into any teacher's existing instruction and provides thrilling and rewarding projects for elementary art students, including printmaking techniques, tessellations, watercolors, calligraphic lines, organic form sculptures, and value collages. Detailed lessons--developed and tested in classrooms over many years--build on one another in a logical progression and explore the elements of texture, color, shape, line, form, and value, and principles such as balance (formal, informal and radial,) unity, contrast, movement, distortion, emphasis, pattern and rhythm. Each lesson also represents an interdisciplinary approach that improves general vocabulary and supports science, math, social studies, and language arts. Though written for elementary school teachers, it can be easily condensed and adapted for middle or even high school students. A beautiful eight-page color insert demonstrates just how sophisticated young children's art can be when kids are given the opportunity to develop their skills.
