Story Hour Jeri Kladder,2003-07-10 Story time at the public library is the first exposure to books outside the home for many preschool children. For the librarian, it is an exciting opportunity to instill in youngsters a love of reading and books. But coming up with new ideas that hold the children's attention can be trying. Until now. Here are 55 tried-and-true story hour programs with a thematic approach. All are highly flexible and adaptable across the full preschool age range. Most of the ideas are arranged under one of eight specific themes that include four to eight one-hour programs: barnyard animals, the Caldecott Medal, colors, families, a storytelling feast, the five senses, reptiles and amphibians, and around the world. There are also 18 individual holiday and seasonal programs. All story hours provide ideas for name tags, suggested audiovisual materials, recommended story, poetry and song selections, additional titles and a full description of the activity.

Paper Magic Jeffery E. Doherty,2013 A magical journey. Marina's legs might not work but she has clever hands. The park calls to Marina. It tugs at a place deep in her chest but the thought of meeting the children who play there sends her into a breathless panic. On the last day of the holidays, before starting at a new school, Nana arrives with a magical gift to change Marina's life.

Bartholomew and the Oobleck Dr. Seuss,2013-11-05 Join Bartholomew Cubbins in Dr. Seuss's Caldecott Honor-winning picture book about a king's magical mishap! Bored with rain, sunshine, fog, and snow, King Derwin of Didd summons his royal magicians to create something new and exciting to fall from the sky. What he gets is a storm of sticky green goo called Oobleck—which soon wreaks havoc all over his kingdom! But with the assistance of the wise page boy Bartholomew, the king (along with young readers) learns that the simplest words can sometimes solve the stickiest problems.

History in the Early Years Hilary Cooper,2013-12-16 History in the Early Years is an innovative and accessible guide to helping young children explore the past through their environment, family history and story. This fully revised edition includes guidance on introducing children to the past at the Foundation Stage in school and pre-school settings. Throughout it shows how the requirements of the early years curriculum can be met in innovative ways, and is fully illustrated by case study examples of children's learning and also supported by recent research. The book will support both new and experienced early years practitioners in developing young children's sense of identity through history. It encourages practitioners to ensure that history is a significant dimension of early years education and will be essential reading for all teachers in the early and primary years.

The New Teaching Elementary Science Selma Wassermann,J. W. George Ivany,1996-01-01 This book is designed for teachers-to-be and practicing teachers who want to teach science with confidence and for those who are fearful of trying. It presents an inquiry-oriented method (instead of a smorgasbord of approaches) that capitalizes on children's natural curiosity by emphasizing scientific exploration. The book removes the fear of teaching science by encouraging teachers to be scientific inquirers themselves, learning side-by-side with their students. The text features a theoretical model of inquiry-based teaching, Play-Debrief-Replay, that incorporates elements of investigative play with critical thinking skills. In the longest chapter, 60 fully developed, field-tested investigative science activities are included to promote experiential learning and concept development. Anxieties about teaching science are addressed head-on and dealt with sensitively and thoughtfully.

Mental Leaps Keith J. Holyoak,Paul Thagard,1996-01-31 Analogy—recalling familiar past situations to deal with novel ones—is a mental tool that everyone uses. Analogy can provide invaluable creative insights, but it can also lead to dangerous errors. In Mental Leaps two leading cognitive scientists show how analogy works and how it can be used most effectively. Keith Holyoak and Paul Thagard provide a unified, comprehensive account of the diverse operations and applications of analogy, including problem solving, decision making, explanation, and communication. Holyoak and Thagard present their own theory of analogy, considering its implications for cognitive science in general, and survey examples from many other domains. These include animal cognition, developmental and social psychology, political science, philosophy, history of science, anthropology, and literature. Understanding how we draw analogies is important for people interested in the evolution of thinking in animals and in children; for those whose focus is on either creative thinking or errors of everyday reasoning; for those concerned with how decisions are made in law, business, and politics; and for those striving to improve education. Mental Leaps covers all of this ground, emphasizing the principles that govern the use of analogy and keeping technical matters to a minimum. A Bradford Book

Maskelyne's Book of Magic Jasper Maskelyne,2013-04-10 A charming glimpse of stage magic in the early twentieth century, this engaging manual's time-honored tricks range from sleight of hand with coins, cards, and rope to thought-reading and juggling. Written by a famous magician, its tried-and-true feats and performance tips are illustrated by sixty figures and thirteen vintage photographs. A British stage magician of the 1930s and '40s, Jasper Maskelyne was a third-generation performer in a well-known family of illusionists. During World War II, Maskelyne assembled a squad known as the "Magic Gang" to misdirect Axis bombers and camouflage the activities of the Allied forces with illusions of tanks, battleships, and armies. This new edition of his captivating classic features an introduction by magic historian and author Edwin A. Dawes that recounts Maskelyne's larger-than-life career and exploits.
