Natural Capitalism Paul Hawken,Amory Lovins,L. Hunter Lovins,2007-10-15 There are no more reespected voices in the environmental movement than these authors, true counselors on the direction of twenty-first-century business. With hundreds of thousands of books sold worldwide, they have set the agenda for rational, ecologically sound industrial development. In this inspiring book they define a superior & sustainable form of capitalism based on a system that radically raises the productivity of nature's dwindling resources. Natural Capitalism shows how cutting-edge businesses are increasing their earnings, boosting growth, reducing costs, enhancing competitiveness, & restoring the earth by harnessing a new design mentality. The authors offer dozens of examples of businesses that are making fourfold or even tenfold gains in efficiency, from self-heating & self-cooling buildings to 200-miles-per-gallon cars, while ensuring that workers aren't downsized out of their jobs. This practical blueprint shows how making resources more productive will create the next industrial revolution

**The Book of Colors** Raymond Barfield,2015-04-20 How can a 19-year-old, mixed-race girl who grew up in a crack house and is now pregnant be so innocent? Yslea is full of contradictions, though, seeming both young and old, innocent and wise. Her spirit is surprising, given all the pain she has endured, and that's the counterpoint this story offers—while she sees pain and suffering all around her, Yslea overcomes in her own quiet way. What Yslea struggles with is expressing her thoughts. And she wonders if she will have something of substance to say to her baby. It's the baby growing inside her that begins to wake her up, that causes her to start thinking about things in a different

way. Yslea drifts into the lives of four people who occupy three dilapidated row houses along the train tracks outside of Memphis: The way their three little row houses sort of leaned in toward each other and the way the paint peeled and some of the windows were covered with cardboard, the row might as easily have been empty.
