Matt Hranek

If I Built a Car Chris Van Dusen, 2005-05-05 If I built a car, it'd be totally new! Here are a few of the things that I'd do. . . . Young Jack is giving an eye-opening tour of the car he'd like to build. There's a snack bar, a pool, and even a robot named Robert to act as chauffeur. With Jack's soaring imagination in the driver's seat, we're deep-sea diving one minute and flying high above traffic the next in this whimsical, tantalizing take on the car of the future.

Illustrations packed with witty detail, bright colors, and chrome recall the fabulous fifties and an era of classic American automobiles. Infectious rhythm and clever invention make this wonderful read-aloud a launch pad for imaginative fun.

How to Build a Car Adrian Newey, 2017-11 'Adrian has a unique gift for understanding drivers and racing cars. He is ultra competitive but never forgets to have fun. An immensely likeable man.' Damon Hill The world's foremost designer in Formula One, Adrian Newey OBE is arguably one of Britain's greatest engineers and this is his fascinating, powerful memoir. *How to Build a Car* explores the story of Adrian's unrivalled 35-year career in Formula One through the prism of the cars he has designed, the drivers he has worked alongside and the races in which he's been involved. A true engineering genius, even in adolescence Adrian's thoughts naturally emerged in shape and form - he began sketching his own car designs at the age of 12 and took a welding course in his school summer holidays. From his early career in IndyCar racing and on to his

unparalleled success in Formula One, we learn in comprehensive, engaging and highly entertaining detail how a car actually works. Adrian has designed for the likes of Mario Andretti, Nigel Mansell, Alain Prost, Damon Hill, David Coulthard, Mika Hakkinen, Mark Webber and Sebastian Vettel, always with a shark-like purity of purpose: to make the car go faster. And while his career has been marked by unbelievable triumphs, there have also been deep tragedies; most notably Ayrton Senna's death during his time at Williams in 1994. Beautifully illustrated with never-before-seen drawings, *How to Build a Car* encapsulates, through Adrian's remarkable life story, precisely what makes Formula One so thrilling - its potential for the total synchronicity of man and machine, the perfect combination of style, efficiency and speed.

Great Cars of All Time Irving Robbin, 2015-12-29 " ... For enthusiasts of every age, here is a gallery of great cars from the beginning to the

present day. Each of these machines has its own claim to fame—some for fabulous styling, some for technical developments that changed the course of automotive history, some for racing prowess, and some for sheer “personality.” For each chapter there is a beautiful full-page color portrait of the car in its proper setting. The text is no mere description of the machines. With authority, enthusiasm and wit the author traces the history of each make, illuminating the characters of both cars and men with spine-tingling racing adventures and inside anecdotes. While the story of each make is complete in itself and may be read alone, the book as a whole provides a panorama of automotive history. The story of cars is, of course, also the story of men—some of the most colorful figures of the modern world—drivers such as Nuvolari, Oldfield, Fangio; engineers such as Bugatti, Ford, and Porsche. But cars are the real heroes of this book; in these words and pictures they emerge, not as mere collections of nuts and bolts and sheet metal, but as creatures with a kind of life of their own. A life that embodies the urge to freedom and adventure, the pride and love of beauty of both their creators and their users.” (New York – 1960)
