All About Vietnam: Projects & Activities for Kids Phuoc Thi Minh Tran, 2022-03-01

Children will get an inside look at Vietnam's vibrant culture, while learning through fun, hands-on games, songs, and activities! This multicultural children's book is perfect for story time at home or in a classroom, and is one children will come back to time and again. Young readers are introduced to many different aspects of Vietnamese culture, including: A brief look at the nation's history, from its mythological beginnings to its famous kings and heroes Tours of picturesque Halong Bay, the teeming streets of Hanoi and Saigon, the sand dunes of Mui Ne, the Dragon Bridge in Da Nang, the imperial palace in Hue, and many more colorful places! Try your hand at making authentic Vietnamese dishes including a Banh Mi sandwich, Fresh Spring Rolls and Moon Cakes to accompany the Mid-Autumn Festival celebration Relive popular folktales and legends like The Legend of the Areca Nut and the Betel Leaves and The Legend of Trong Com Learn the beloved folk song The Rice Drum and the lively dance that accompanies it Experience the sights and sounds of the Tet New Year's celebration as well as other colorful festivals like the Feast of the Wandering Souls, the Mooncake Festival, the Kitchen God Festival, and the Hoi An Lantern Festival Learn to speak a few words of Vietnamese, including greetings and the proper way to say goodbye Make a beaded dragonfly; learn about Vietnamese manners and superstitions; celebrate birthdays, weddings, and important events; and taste the local fruits and delicious street food dishes! Award-winning author Phuoc Thi Minh Tran is a Vietnamese librarian and storyteller who opens windows onto a culture she knows intimately in this lavishly-illustrated book. The charming full-color illustrations and

photographs bring Vietnam's history and culture vividly to life.

The Integration of the Humanities and Arts with Sciences, Engineering, and Medicine in Higher Education National Academies of Sciences, Engineering, and Medicine, Policy and Global Affairs, Board on Higher Education and Workforce, Committee on Integrating Higher Education in the Arts, Humanities, Sciences, Engineering, and Medicine, 2018-07-21 In the United States, broad study in an array of different disciplines—arts, humanities, science, mathematics, engineering—as well as an in-depth study within a special area of interest, have been defining characteristics of a higher education. But over time, in-depth study in a major discipline has come to dominate the curricula at many institutions. This evolution of the curriculum has been driven, in part, by increasing specialization in the academic disciplines. There is little doubt that disciplinary specialization has helped produce many of the achievements of the past century. Researchers in all academic disciplines have been able to delve more deeply into their areas of expertise, grappling with ever more specialized and fundamental problems. Yet today, many leaders, scholars, parents, and students are asking whether higher education has moved too far from its integrative tradition towards an approach heavily rooted in disciplinary silos. These silos represent what many see as an artificial separation of academic disciplines. This study reflects a growing concern that the approach to higher education that favors disciplinary specialization is poorly calibrated to the challenges and opportunities of our time. *The Integration of the Humanities and Arts with Sciences, Engineering, and Medicine in Higher Education* examines the evidence behind the assertion that educational programs that mutually integrate learning experiences in the

humanities and arts with science, technology, engineering, mathematics, and medicine (STEMM) lead to improved educational and career outcomes for undergraduate and graduate students. It explores evidence regarding the value of integrating more STEMM curricula and labs into the academic programs of students majoring in the humanities and arts and evidence regarding the value of integrating curricula and experiences in the arts and humanities into college and university STEMM education programs.

Draw with Rob at Christmas Rob Biddulph, 2020-10-15 The viral phenomenon #DrawWithRob is now a brand-new activity book for you to draw with Rob at home! As seen everywhere on YouTube, Facebook, TikTok, TV, and more, from the creative genius and bestselling author Rob Biddulph!

Secrets of Origami Robert Harbin, 1997-01-01 Diagrams and instructions for constructing over 120 models: party hat, flapping bird, matador, Japanese lady, many more. For all levels.

The Tale of Genji John T. Carpenter, Melissa McCormick, Monika Bincsik, Kyoko Kinoshita, Sano Midori, 2019-03-04 With its vivid descriptions of courtly society, gardens, and architecture in early eleventh-century Japan, *The Tale of Genji*—recognized as the world’s first novel—has captivated audiences around the globe and inspired artistic traditions for one thousand years. Its female author, Murasaki Shikibu, was a diarist, a renowned poet, and, as a tutor to the young empress, the ultimate palace insider; her monumental work of fiction offers entry into an elaborate, mysterious world of court romance, political intrigue, elite customs, and religious life. This handsomely designed and illustrated book explores the outstanding art associated with *Genji* through in-depth

essays and discussions of more than one hundred works. The Tale of Genji has influenced all forms of Japanese artistic expression, from intimately scaled albums to boldly designed hanging scrolls and screen paintings, lacquer boxes, incense burners, games, palanquins for transporting young brides to their new homes, and even contemporary manga. The authors, both art historians and Genji scholars, discuss the tale's transmission and reception over the centuries; illuminate its place within the history of Japanese literature and calligraphy; highlight its key episodes and characters; and explore its wide-ranging influence on Japanese culture, design, and aesthetics into the modern era. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 14.0px Verdana}

Consilience E. O. Wilson, 2014-11-26 A dazzling journey across the sciences and humanities in search of deep laws to unite them. --The Wall Street Journal One of our greatest living scientists--and the winner of two Pulitzer Prizes for *On Human Nature* and *The Ants*--gives us a work of visionary importance that may be the crowning achievement of his career. In *Consilience* (a word that originally meant jumping together), Edward O. Wilson renews the Enlightenment's search for a unified theory of knowledge in disciplines that range from physics to biology, the social sciences and the humanities. Using the natural sciences as his model, Wilson forges dramatic links between fields. He explores the chemistry of the mind and the genetic bases of culture. He postulates the biological principles underlying works of art from cave-drawings to *Lolita*. Presenting the latest findings in prose of wonderful clarity and oratorical eloquence, and synthesizing it into a dazzling whole, *Consilience* is science in the path-clearing traditions of Newton, Einstein, and Richard Feynman.

Origami Tessellations Eric Gjerde,2008-12-18 Eric Gjerde demonstrates 25 of his favorite tessellations and turns them into projects for newcomers as well as experienced origamists. With step-by-step instructions, illustrated crease patterns, and how-to photos, you'll learn to create these wonderful designs yourself. Eric's first book covers the fundamentals of origami tessellations, provides history, and describes simple beginning techniques with detailed illustrations and photographs. An extensive gallery showcases tessellations folded by the world's leading origami fine artists---inspiring you to experiment, innovate, and eventually create your own unique designs.

Origami Activities Michael G. LaFosse,2003-10-15 Provides instructions for fifteen paper-folding projects, including a koi fish, lotus flower, and crane.

My First Book of Vietnamese Words Phuoc Thi Minh Tran,2017-08-29 **Winner Creative Child Magazine 2018 Book of the Year Award** **2017 Freeman Book Award Honorable Mention for Children's Literature** My First Book of Vietnamese Words is a beautifully illustrated book that introduces Vietnamese language and culture to young children through everyday words. This Vietnamese children's book teaches in a playful way—combining the familiar ABC rhyming structure with vivid illustrations to encourage young children's natural language learning abilities. Words kids use every day in English are joined by words unique to Vietnamese culture to give kids a glimpse of Vietnamese life and to show how, despite cultural differences, children all over the world have a lot in common. Linguistic and cultural notes are added to enhance the kids' adventure in a land that's modern yet filled with beautiful traditions.

Folding Paper Meher McArthur,Robert J. Lang,2013-08-06 This beautiful origami art

book is a collection of the best contemporary pieces from some of the worlds most renowned papercraft artists. Thanks to pioneering masters such as Dr. Robert J. Lang, origami has transcended its humble roots as a traditional Japanese papercraft to take its place among the global fine arts. In *Folding Paper: The Infinite Possibilities of Origami*, Dr. Lang and Asian art curator Meher McArthur chronicle origami's remarkable evolution and showcases the widespread applications of paper folding solutions in the fields of contemporary mathematics, engineering, design, and the international peace movement. Based around a groundbreaking museum show by the same name, *Folding Paper* features the work of more than forty leading origami artists from around the world. It traces the development of paper folding in both the East and the West, recognizing the global influences on this international art form. Now in the early twenty-first century, origami is a sophisticated fine art form consisting of many different styles, from representational to geometric, abstract, and even conceptual. It has become a symbol of peace, an inspiration for engineers, and a conduit for scientific advancement. Featured origami artists include: Brian Chan Erik Joisel Erik and Martin Demaine Tomoko Fuse Daniel Kwan Michael LaFosse Jeannine Moseley Akira Yoshizawa Combining Dr. Lang's and McArthur's illuminating narrative history with lavish color photographs of more than sixty breathtaking works—from Joel Cooper's haunting Cyrus mask to Linda Tomoko Mihara's delicate Crane Cube to Eric Joisel's lifelike Pangolin model—*Folding Paper* is an enthralling introduction to the contemporary art of paper folding.

The Storm of Creativity Kyna Leski, 2015-11-13 The stages of the creative process—from “unlearning” to beginning again—seen through examples from the practice

of artists, architects, poets, and others. Although each instance of creativity is singular and specific, Kyna Leski tells us, the creative process is universal. Artists, architects, poets, inventors, scientists, and others all navigate the same stages of the process in order to discover something that does not yet exist. All of us must work our way through the empty page, the blank screen, writer's block, confusion, chaos, and doubt. In this book, Leski draws from her observations and experiences as a teacher, student, maker, writer, and architect to describe the workings of the creative process. Leski sees the creative process as being like a storm; it slowly begins to gather and take form until it overtakes us—if we are willing to let it. It is dynamic, continually in motion; it starts, stops, rages and abates, ebbs and flows. In illustrations that accompany each chapter, she maps the arc of the creative process by tracing the path of water droplets traveling the stages of a storm. Leski describes unlearning, ridding ourselves of preconceptions; only when we realize what we don't know can we pose the problem that we need to solve. We gather evidence—with notebook jottings, research, the collection of objects—propelling the process. We perceive and conceive; we look ahead without knowing where we are going; we make connections. We pause, retreat, and stop, only to start again. To illustrate these stages of the process, Leski draws on examples of creative practice that range from Paul Klee to Steve Jobs, from the discovery of continental drift to the design of Antoni Gaudí's Sagrada Familia. Creativity, Leski tells us, is a path with no beginning or end; it is ongoing. This revelatory view of the creative process will be an essential guide for anyone engaged in creative discovery. The Creative Process Unlearning Problem Making Gathering and Tracking Propelling Perceiving and Conceiving Seeing Ahead Connecting

Family Life: A Novel Akhil Sharma, 2014-04-07 Winner of the 2016 International Dublin Literary Award Gorgeously tender at its core...beautiful, heartstopping...Family Life really blazes. —Sonali Deraniyagala, New York Times Book Review Hailed as a supreme storyteller (Philadelphia Inquirer) for his cunning, dismaying and beautifully conceived fiction (New York Times), Akhil Sharma is possessed of a narrative voice as hypnotic as those found in the pages of Dostoyevsky (The Nation). In his highly anticipated second novel, Family Life, he delivers a story of astonishing intensity and emotional precision. We meet the Mishra family in Delhi in 1978, where eight-year-old Ajay and his older brother Birju play cricket in the streets, waiting for the day when their plane tickets will arrive and they and their mother can fly across the world and join their father in America. America to the Mishras is, indeed, everything they could have imagined and more: when automatic glass doors open before them, they feel that surely they must have been mistaken for somebody important. Pressing an elevator button and the elevator closing its doors and rising, they have a feeling of power at the fact that the elevator is obeying them. Life is extraordinary until tragedy strikes, leaving one brother severely brain-damaged and the other lost and virtually orphaned in a strange land. Ajay, the family's younger son, prays to a God he envisions as Superman, longing to find his place amid the ruins of his family's new life. Heart-wrenching and darkly funny, Family Life is a universal story of a boy torn between duty and his own survival.

River Teeth David James Duncan, 2012-01-11 In his passionate, luminous novels, David James Duncan has won the devotion of countless critics and readers, earning comparisons

to Harper Lee, Tom Robbins, and J.D. Salinger, to name just a few. Now Duncan distills his remarkable powers of observation into this unique collection of short stories and essays. At the heart of Duncan's tales are characters undergoing the complex and violent process of transformation, with results both painful and wondrous. Equally affecting are his nonfiction reminiscences, the river teeth of the title. He likens his memories to the remains of old-growth trees that fall into Northwestern rivers and are sculpted by time and water. These experiences—shaped by his own river of time—are related with the art and grace of a master storyteller. In *River Teeth*, a uniquely gifted American writer blends two forms, taking us into the rivers of truth and make-believe, and all that lies in between.

The Science of Marijuana Leslie L. Iversen, 2008 Introduction -- The pharmacology of delta-9-tetrahydrocannabinol (THC) : the psychoactive ingredient in cannabis -- Endocannabinoids -- The effects of cannabis on the central nervous system -- Medical uses of marijuana : fact or fantasy? -- Is cannabis safe? -- The recreational use of cannabis -- What next?

Toxic Chemical and Biological Agents Giovanni Sindona, Joseph H. Banoub, Maria Luisa Di Gioia, 2020-10-19 This book critically assesses the current state of knowledge on new and important detection technologies, e.g. mass spectrometry, tandem mass spectrometry, biosensor detection and tissue imaging, in connection with toxic chemical and biological agents. In general, the main topics discussed concern the risks and consequences of chemical and biological agents for human health in general, with special emphasis on all biochemical and metabolic pathways including the reproductive system. The exposome, genetic risks and the environment, various health hazard agents, risk

assessment, environmental assessment and preparedness, and analysis of sub-lethal effects at the molecular level are also discussed. In closing, the book provides comprehensive information on the diagnosis of exposure, and on health concerns related to toxic chemical and biological agents.

The Fine Art of Paper Flowers Tiffanie Turner, 2017-08-22 An inspiring, practical and gorgeous guide to crafting the most realistic and artful paper flowers for arrangements, art, décor, wearables and more, from San Francisco botanical artist Tiffanie Turner. The Fine Art of Paper Flowers is an elevated art and craft guide that features complete step-by-step instructions for over 30 of Tiffanie Turner's widely admired, unique, lifelike paper flowers and their foliage, from bougainvillea to English roses to zinnias. In the book, Turner also guides readers through making her signature giant paper peony, shares all of her secrets for special paper treatments, candy-striping, playing with color and creating botanical imperfections, and shows how to turn paper flowers into gorgeous garlands, headdresses, bouquets and more. These stunning creations can be made from simple and inexpensive materials and the book's detailed tutorials and beautiful photography make it easy to achieve dramatic and lifelike results.

Prokaryotic Antimicrobial Peptides Djamel Drider, Sylvie Rebuffat, 2011-03-08 The book will provide an overview of the advancement of fundamental knowledge and applications of antimicrobial peptides in biomedical, agricultural, veterinary, food, and cosmetic products. Antimicrobial peptides stand as potentially great alternatives to current antibiotics, and most research in this newly-created area has been published in journals and other periodicals. It is the editors' opinion that it is timely to sum up the most

important achievements in the field and provide the scientific community in a reference book. The goals of this project include illustrating the achievements made so far, debating the state of the art, and drawing new perspectives.

The Illio ,1911

The Language of Flowers; Or Flora Symbolica. Including Floral Poetry, Original and Selected. With Original Illustrations, Printed in Colours by Terry John Henry Ingram,2022-10-27 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Vietnamese Children's Favorite Stories Phuoc Thi Minh Tran,2015-04-14 ****Winner of Creative Child Magazine 2015 Book of the Year Award** **Winner of Moonbeam Children's Book Awards 2015 Gold Medal**** This colorfully illustrated multicultural children's book presents Vietnamese fairy tales and other folk stories—providing insight into a rich literary culture. Vietnamese Children's Favorite Stories, is a charming collection of fifteen tales as told by prominent storyteller Tran Thi Minh Phuoc. In it, Tran—Minnesota's first Vietnamese librarian and an active member of the Vietnamese-American community—recounts cherished folktales such as The Story of Tam and Cam

(the Vietnamese version of Cinderella), The Jade Rabbit, and The Legend of the Mai Flower. With beautiful illustrations by veteran artists Nguyen Thi Hop and Nguyen Dong, children and adults alike will be enchanted by Tran's English retellings. Stories in which integrity, hard work and a kind heart triumph over deception, laziness, and greed—as gods, peasants, kings and fools spring to life in legends of bravery and beauty, and fables about nature. The Children's Favorite Stories series was created to share the folktales and legends most beloved by children in the East with young readers of all backgrounds in the West. Vietnamese Children's Favorite Stories will keep Vietnam's folktales alive for them and the legions of young readers who enjoy multicultural children's books and stories set in faraway lands. Other multicultural children's books in this series include: Asian Children's Favorite Stories, Indian Children's Favorite Stories, Indonesian Children's Favorite Stories, Japanese Children's Favorite Stories, Singapore Children's Favorite Stories, Filipino Favorite Children's Stories, Favorite Children's Stories from China & Tibet, Chinese Children's Favorite Stories, Korean Children's Favorite Stories, Balinese Children's Favorite Stories..
