So begins this classic story of one summer on a Maine island from the author of One Morning in Maine and Blueberries for Sal. The spell of rain, the gulls and a foggy morning, the excitement of sailing, the quiet of the night, the sudden terror of a hurricane, and, in the end, the peace of the island as the family packs up to leave are shown in poetic language and vibrant, evocative pictures.

necessary story about finding hope during difficult times, set in the early days of the Covid-19 pandemic. Archie's life--and the whole world--is turned upside down by Covid-19. Suddenly there are no more Friday night dinners out, no more going to school, no more hanging out with friends . . . no leaving the house at all. Even though he's inside with his family all day every day, Archie can't help but feel more alone than ever before. While everyone else seems to be adapting to their new normal just fine, it's like Archie is permanently on mute, unable to find the words to describe how he feels--and sometimes, unable to find someone who will listen. The bright spot of Archie's days at home is watching and learning about the hummingbirds that feed outside his windows. But just when it seems like this could be what brings his family together again, California experiences its worst wildfire in history, and Archie's favorite hummingbird disappears. In a time when hope is hard to hold on to, Archie must find his voice and find hope once again. Hummingbird Season is an honest and healing novel in verse documenting the early days of the Covid-19 pandemic and the things that bring us together when circumstances keep us apart.

The Life and Work of Martin Johnson Heade Theodore E. Stebbins,Janet L. Comey,Martin Johnson Heade,Karen E. Quinn,2000-01-01 Martin Johnson Heade was one of the most significant American painters of the nineteenth century, creator of portraits, history and genre pictures, still lifes, ornithological studies, landscapes, and marines, and his own unique orchid and hummingbird compositions. This book brings a perspective to Heade and his works, presenting him as one of the most original and productive painters of his time. Theodore Stebbins builds on his acclaimed 1975 study of Heade, drawing on several newly discovered collections of Heade's letters and the painter's own Brazilian journal. Stebbins tells of Heade's training and early career as an itinerant portraitist and discusses his move to New York, where, under the influence of Frederic E. Church, he began painting landscapes and seascapes. He examines Heade's relationships with patrons and dealers, writers and scientists, and he sheds new light on Heade's trips to Brazil, to the Central American tropics, and to London. And he describes Heade's move to Florida in 1883, which marked not his retirement but a final period of creativity that lasted until his death in 1904. The book includes not only an examination of Heade's life and works but also reproductions of all his 620 known paintings, including nearly 250 that have been discovered since 1975.

Implication Alan C. Braddock, 2023-05-16 Readers of *Implication* will come away convinced that all art—regardless of historical period, context, genre, or medium—has an ecological connection to the world in which it was created. Ecocriticism is an interdisciplinary mode of inquiry that examines the environmental significance of art, literature, and other creative endeavors. In *Implication: An Ecocritical Dictionary for Art History*, Alan C. Braddock, a pioneer in art historical ecocriticism, presents a fascinating group of key terms and case studies to demonstrate that all art is ecological in its interconnectedness with the world. The book adopts a dictionary-style format, although not in a conventional sense. Drawing inspiration from French surrealist writer Georges Bataille, this dictionary presents carefully selected words that link art history to the environmental humanities—not only ecocriticism, but also environmental history, science, politics, and critical animal studies. A wide array of creative works from different cultures and time periods reveal the import of these terms and the inescapable entanglement of art with ecology. Ancient Roman mosaics, Song dynasty Taihu rocks, a Tlaxcalan lienzo, early modern European engravings and altarpieces, a Kongo dibondo, nineteenth-century landscape paintings by African American artist Edward Mitchell Bannister, French Impressionist urban scenes, and contemporary activist art, among other works, here disclose the intrinsic ecological conditions of art.

Hummingbird Salamander Jeff VanderMeer, 2021-04-06 Named one of NPR's Best Books of 2021 From the author of *Annihilation*, a brilliant speculative thriller of dark conspiracy, endangered species, and the possible end of all things. Security consultant "Jane Smith" receives an envelope with a key to a storage unit that holds a taxidermied hummingbird and clues leading her to a taxidermied salamander. Silvina, the dead woman who left the note, is a reputed ecoterrorist and the daughter of an Argentine industrialist. By taking the hummingbird from the storage unit, Jane sets in motion a series of events that quickly spin beyond her control. Soon, Jane and her family are in danger, with few allies to help her make sense of the true scope of the peril. Is the only way to safety to follow in Silvina's footsteps? Is it too

late to stop? As she desperately seeks answers about why Silvina contacted her, time is running out—for her and possibly for the world. Hummingbird Salamander is Jeff VanderMeer at his brilliant, cinematic best, wrapping profound questions about climate change, identity, and the world we live in into a tightly plotted thriller full of unexpected twists and elaborate conspiracy.
