Guiding Readers Lori Jamison Rog,2012 Discover a model for guided reading instruction that fits the 18-minute time frame and is purposeful, planned, and focused. This practical book introduces a range of specific reading strategies and processes that lead students to access increasingly sophisticated text. It includes collections of lessons for emergent, early, developing, and fluent readers, as well as struggling readers in the upper grades. Detailed and comprehensive, the book champions an integrated system of guiding readers that involves both fiction and nonfiction, as well as the texts that surround students in and out of school: websites, directions, instructions, schedules, signs, and more. New and experienced teachers will both find a wealth of valuable reproducibles, techniques, tips, and strategies that will help them put the tools for independent reading into the hands of every student.--Publ. desc.
