Autobiography of a Yogi Paramahansa Yogananda,2009-01-01 The autobiography of Paramahansa Yogananda (1893 - 1952) details his search for a guru, during which he encountered many spiritual leaders and world-renowned scientists. When it was published in 1946 it was the first introduction of many westerners to yoga and meditation. The famous opera singer Amelita Galli-Curci said about the book: Amazing, true stories of saints and masters of India, blended with priceless superphysical information-much needed to balance the Western material efficiency with Eastern spiritual efficiency-come from the vigorous pen of Paramhansa Yogananda, whose teachings my husband and myself have had the pleasure of studying for twenty years.

Fluent Forever Gabriel Wyner,2014-08-05 NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

The Formula Albert-László Barabási,2018-11-06 In the bestselling tradition of Malcom Gladwell, James Gleick, and Nate Silver, prominent professor László Barabási gives us a trailblazing book that promises to transform the very foundations of how our success-obsessed society approaches their professional careers, life pursuits and long-term goals. Too often, accomplishment does not equal success. We did the work but didn't get the promotion; we played hard but weren't recognized; we had the idea but didn't get the credit. We convince ourselves that talent combined with a strong work ethic is the key to getting ahead, but also realize that combination often fails to yield results, without any deeper understanding as to why. Recognizing this striking disconnect, the author, along with a team of renowned researchers and some of the most advanced data-crunching systems on the planet, dedicated themselves to one goal: uncovering that ever-elusive link between performance and success. Now, based on years of academic research, The Formula finally unveils the groundbreaking discoveries of their pioneering study, not only highlighting the scientific and mathematic principles that underpin success, but also revolutionizing our understanding of: Why performance is necessary but not adequate Why Experts are often wrong How to assemble a creative team primed for success How to most effectively engage our networks This is not just an important but an imperative project: to approach the problem of randomness and success using the state of the art scientific arsenal we have. Barabasi is the person.-Nassim Nicholas Taleb, author of the New York Times bestselling *The Black Swan* and Distinguished Professor of Risk Engineering at NYU

Bobos in Paradise David Brooks,2010-05-11 In his bestselling work of “comic sociology,” David Brooks coins a new word, Bobo, to describe today’s upper class—those who have wed the bourgeois world of capitalist enterprise to the hippie values of the bohemian counterculture. Their hybrid lifestyle is the atmosphere we breathe, and in this witty and serious look at the cultural consequences of the information age, Brooks has defined a new generation. Do you believe that spending \$15,000 on a media center is vulgar, but that spending \$15,000 on a slate shower stall is a sign that you are at one with the Zenlike rhythms of nature? Do you work for one of those visionary software companies where people come to work wearing hiking boots and glacier glasses, as if a wall of ice were about to come sliding through the parking lot? If so, you might be a Bobo.

The Education of Millionaires Michael Ellsberg,2012-09-25 Some of the smartest, most successful people in the country didn’t finish college. None of them learned their most critical skills at an institution of higher education. And like them, most of what you’ll need to learn to be successful you’ll have to learn on your own, outside of school. Michael Ellsberg set out to fill in the missing pieces by interviewing a wide range of millionaires and billionaires who don’t have college degrees, including fashion magnate Russell Simmons and Facebook founding president Sean Parker. This book is your guide to developing practical success skills in the real world: how to find great mentors, build a world-class network, make your work meaningful (and your meaning work), build the brand of you, and more. Learning these skills is a necessary addition to any education, whether you’re a high school dropout or graduate of Harvard Law School.

Early Retirement Extreme Jacob Lund Fisker,2010 How to retire in your 20s and 30s (without winning the lottery). This book provides a robust strategy that makes it possible to stop working for money in less than a decade.--Page 4 of cover.

The Spiritual Awakening Guide Mary Mueller Shutan, 2015-08-11 The first modern, comprehensive resource on spiritual awakenings, this pragmatic, clear guide covers everything from the first step on a spiritual journey to enlightenment, and the different types of spiritual awakenings, from mild to dramatic, we may go through. Using the concept of the twelve layers that cover an awakened state Mary Mueller Shutan addresses every step of the spiritual journey, starting with the Self and showing how family, ancestral, past lives, karmic, archetypal, and other larger layers such as societal, cultural, global, and cosmic energies condition us to sleep and obscure our realization of an awakened state. Instructions for how to navigate through each of these layers and how to recognize where we are in our spiritual journey are included each step of the way along with common physical, emotional, and spiritual symptoms that may be experienced. By addressing post-awakening states, oneness, dark nights of the soul, ego death, near-death and severe illness, psychic abilities, addictions, dietary changes, the God self, personal and collective shadow, and psychosis vs. awakening we understand the experiences we may go through while struggling with spiritual awakenings. This practical book opens new understandings of how to live in the world while going through an awakening process, and offers the revolutionary idea that we are meant to be humans, to have a physical body with physical, sensate experiences and emotions. We are meant to live in the world and be a part of it even as fully awakened individuals. This guide proposes a look at the possibility of leading a grounded, earth-bound life of work, family, friends, and other experiences in an awakened state.

Do You Talk Funny? David Nihill, 2016-03-08 Public speaking can be terrifying. For David Nihill, the idea of standing in front of an audience was scarier than cliff jumping into a thorny pit of spiders and mothers-in-law. Without a parachute or advanced weaponry. Something had to change. In what doesn't sound like the best plan ever, David decided to overcome his fears by pretending to be an accomplished comedian called Irish Dave for one full year, crashing as many comedy clubs, festivals, and shows as possible. One part of the plan was at least logical: he was already Irish and already called Dave. In one year, David went from being deathly afraid of public speaking to hosting a business conference, regularly performing stand-up comedy and winning storytelling competitions in front of packed houses. And he did it by learning from some of the best public speakers in the world: stand-up comedians. Do You Talk Funny?: 7 Comedy Habits to Become a Better (and Funnier) Public Speaker shows how the key principles of stand-up comedy can be applied to your speaking engagements and presentations to make you funnier, more interesting, and better looking. (Or at least two of the three.) Whether you are preparing for a business presentation, giving a wedding toast, defending your thesis, raising money from investors, or simply want to take on something you're afraid of, this book will take you from sweaty to stage-ready. You'll learn how to: - Craft a story and content that your audience will want to listen to - Find the funniest parts of your material and how to get to them faster - Deal with stage fright - Master the two most important parts of your performance: timing and delivery Ten percent of the author's proceeds from this book will go to Arash Bayatmakou via Help Hope Live until he is fully back on his feet and thereafter to one of the many facing the same challenges after suffering a severe spinal cord injury.

Himalayan Lust Sadhguru, 2009-01-01 Every year, a group of Isha meditators sets out on a tour of the Himalayas. Accompanying them on this journey is Sadhguru – a spiritual master considered by many to be one of the foremost living yogis on the planet. This is a book for those who stayed behind. It is a chance to make a pilgrimage on the page, travelling through the unpredictable but fascinating terrain of the master's words. Amalgamating discourses and conversations from several yatras, it is a blend of the specific and the timeless. This book is not just about the

Himalayas. And yet, the book would never have happened without the Himalayas. The mountains play a vital role in the text, alternately as context and catalyst, mood and metaphor. Without them, some of the questions in this book would never have been asked. Even if they sometimes seem tangential to the line of enquiry, they remain a powerful subterranean presence, eventually becoming the very bedrock of this book.
