Insidious Aleatha Romig, 2014-10-21 *Dark desires...Deadly secrets...Devious deceptions...* Nothing is exactly as it seems in *INSIDIOUS*, the smart, sexy thriller from New York Times and USA Today bestselling author ALEATHA ROMIG! When a powerful man is willing to risk everything for his own satisfaction, only one woman can beat him at his own game: his wife. Or so she thinks... "Let's start with you calling me Stewart. Formalities seem unnecessary." Stewart Harrington is rich, gorgeous, and one of the most powerful men in Miami. He always gets what he wants. Anything is available to him for the right price. Even me. Being the wife of a mogul comes with all the perks, but being Mrs. Stewart Harrington comes with a few special requirements. I've learned to keep a part of myself locked away as my husband watches me submit to his needs. But the more he demands of me, the more beguiled he becomes and that's to my advantage. So I keep fulfilling his fantasies and following his rules because he doesn't know that what he's playing is really my game. And winning is everything, right? *INSIDIOUS* is a stand-alone novel and the first *Tales from the Dark Side* title by ALEATHA ROMIG. **Due to the dark and explicit nature of this book, it is recommended for mature audiences only.**

Insidious Foes Francis MacDonnell, 1995-11-02 Nazi Germany's efforts to weaken the United States by subversion failed miserably. Bungling spies were captured and half-hearted efforts at sabotage came to nothing. Yet anyone who lived through WWII remembers the chilling posters warning Americans that Enemy Agents Have Big Ears and Loose Lips Sink Ships. Even Superman joined the struggle against these insidious foes. In 1940, polls showed that 71% of Americans believed a Nazi Fifth Column had penetrated the country. Almost half were convinced that spies, saboteurs, dupes, and rumor-mongers lurked in their own neighborhoods and work-places. These fears extended to the White House and Congress. In this book, Francis MacDonnell explains the origins and consequences of America's Fifth Column panic, arguing that conviction and expedience encouraged President Roosevelt, the FBI, Congressmen, Churchill's government, and Hollywood to legitimate and exacerbate American's fears. Gravely weakening the isolationists, fostering Congress's role in rooting out Un-American activities, and instigating the creation of the modern intelligence establishment, the Fifth Column scare did far more than sell movie tickets, comic books, and pulp fiction. *Insidious Foes* traces the panic from its origins in the minds of reasonable Americans who saw the vulnerability of their open society in an age of encroaching totalitarianism.

Insidious Intent Val McDermid, 2017-12-05 A killer targets single women at weddings: "[An] intense plot...McDermid keeps each twist believable." —The Washington Post In the north of

England, single women are beginning to disappear from weddings. A pattern soon becomes clear: Someone is crashing the festivities and luring the women away—only to leave the victims' bodies in their own burned-out cars in remote locations. Psychologist Tony Hill and former police detective Carol Jordan are called upon to investigate—but this may be the toughest case they've ever had to face. Meanwhile, Detective Sergeant Paula McIntyre and her partner Elinor must deal with a cruel cyber-blackmailer targeting their teenage ward. Impeccably plotted and intensely gripping, *Insidious Intent* comes from Val McDermid, Diamond Dagger Award winner, multiple Edgar Award nominee, and "one of crime fiction's most eminent writers" (*Entertainment Weekly*).

Insidious Victoria Evers, 2020-04-02 What's worse than being hunted by a devil? Discovering you've been mated to one. Since moving to Mystic Harbor, Maine, I've made it my life's mission to avoid Reese Blackburn at all costs. Sure, he has cheekbones that could cut glass, not to mention bedroom eyes that could melt any girl into a puddle on the floor. Too bad that doesn't change the fact he's completely stab-worthy. When a fun night out on the town turns deadly, I quickly discover the quaint little hamlet of Mystic Harbor houses more than sandy beaches and adorable B&B's. Beneath the New England charm rests a deadly world where shifters, demons, vampires, and angelic hunters all vie for power. A world where magic is the greatest weapon. Magic that people are willing to kill for. Magic that I now possess. After that one fateful night, I can feel the changes beginning to take hold of me. Worse yet, I have no idea what I'm even turning into! All I know is someone wants me dead, and someone even worse wants me alive. Hell's mystifying Crown Prince of Lust has just marked me to be his Mate, and this handsome devil won't stop until he claims what is his. My only real ally rests in the one person I can't stand: the insufferably gorgeous Reese Blackburn. I was just your average seventeen-year-old girl. Now, my very soul is at stake. Can my unlikely partnership challenge fate itself before it's too late, or will I be forever damned as a Princess of Hell? Dark. Romantic. Dangerous. And Sexy As Hell. Perfect for fans of *The Vampire Diaries*, *Teen Wolf*, and all things Supernatural. If you love paranormal romances, urban fantasy, fated mates, magic, vampires, shifters, demons, teen fantasy, mythology, tragic romances, Gothic themes, supernatural creatures, young adult dark fantasy, and some devilish bad boys, then the world of *THE MARKED MAGE CHRONICLES* awaits you!

Granted a second lease on life and incredible, otherworldly powers, Alan must fight against an evil army buried beneath society's skin, all the while unlocking the secrets of his forgotten past. From the dark & twisted mind of James Wan, the creator and director of *SAW*, *MALIGNANT MAN* is a sci-fi thriller that can't be missed! Insidious Michael McCloskey, 2010-12-07 Leaked stories of strange new rules and codes of behavior indicate something's gone sour in the deep space retreats of the superrich corporate execs. Some say that it's only the eccentricities of the powerful leaders of capitalistic society. But others speak of dark, twisted rituals, human slavery and illegal experiments in banned technologies. Bren Marcken is a robot handler and strategist on a special team of the United Nations Space Force, formed to occupy the corporate space stations and seize their technological secrets. To accomplish the mission, he's been authorized to field artificial intelligences that he considers just as dangerous as the enemy. Chris Adrastus is an aggressive young executive whose careful machinations have carried him to a high position at the powerful European Union company, Vineaux Genomix. Instead of finding satisfaction, he's become disillusioned with what he discovers at the top of the executive world. Aldriena Niachi is a covert operative of Black Core, a Brazilian software company with a global sphere of influence. She's about to find out what Black Core will do for a technological lead. Do some kinds of knowledge come at inordinate cost, even for a supercorporation?

Insidious Capital Don Kalb,2024-01-05 With a team of anthropologists and geographers, Insidious Capital explores "value and values" in what may well be the last phase of capitalist globalization. In a global perspective of fast transforming social spaces that move from East to West, the book explores the struggles around the exploitation and valuation of labor, environmental politics, expansion of the ground rent, new hierarchies, the contradictions of higher education, the offshoring of "immaterial" labor, the illiberal right, and the mobilizations against it. This is a book about the variegated frontlines of value within an uneven, but not random, geography of capitalist expansion.

Insidious Workplace Behavior Jerald Greenberg,2011-01-11 Insidious Workplace Behavior (IWB) refers to low-level, pervasive acts of deviance directed at individual or organizational targets. Because of its inherently stealthy nature, scientists have paid little attention to IWB, allowing us to know very little about it. With this book, that now is changing. The present volume - the first to showcase this topic - presents original essays by top organizational scientists who share the most current thinking about IWB. Contributors examine, for example, the many forms that IWB takes, focusing on its antecedents, consequences, and moderators. They also highlight ways that organizational leaders can manage and constrain IWB so as to attenuate its adverse effects. And to promote both theory and practice in IWB, contributors also discuss the special problems associated with researching IWB and strategies for overcoming them. Aimed at students, scholars, and practitioners in the organizational sciences - especially industrial-organizational psychology, organizational behavior, and human resource management - this seminal volume promises to inspire research and practice for years to come.

Insidious Threats Melissa F. Miller,2023-05-23 Sasha and Connelly have faced off against murderers, terrorists, corrupt officials, and international crime rings ... you name a bad guy, and they've probably taken him (or her) down. In Insidious Threats, they team up against their most powerful adversary yet. But has the wife-and-husband duo finally met their match? When Landon Lewis plunged to his death from his office window, he left behind a slew of unanswered questions. The one that weighs most heavily on Leo Connelly's mind is what, exactly, is he supposed to do with the package Landon sent him the day he died? As a special agent for a secretive government agency, Leo has the connections and resources to crack open the encrypted flash drive, but the letter accompanying the drive gives him pause. The dead man's words are so cryptic, so ominous, so chilling, that Leo decides this is an operation best conducted off the books, far away from his agency's watchful eye—and his wife's. Under ordinary circumstances, Sasha McCandless-Connelly would notice when her husband is hiding something. Unfortunately, she's distracted by the behavior of her former law firm. When Prescott & Talbot's managing partner resigns abruptly, then

disappears, the firm leaders come to Sasha—ostensibly for help. But she knows better than to trust them. As Sasha digs into the truth behind Cinco Prescott's disappearance, Leo unravels the mystery of Landon's flash drive. What they uncover separately leads to one inescapable conclusion: they'll have to work together to dismantle the dangerous, dystopian Mjölnir network without being detected ... or die trying.

Conventional and Insidious Macroeconomic Balance-Sheet Crises Mr. Bas B. Bakker, Mr. Leslie Lipschitz, 2014-08-22 This paper describes the anatomy of two types of balance-sheet macroeconomic crises. Conventional balance-sheet crises are triggered by external imbalances and balance sheet vulnerabilities. They typically occur after capital inflows have led to a substantial build up of foreign currency exposure. Insidious crises are triggered by internal imbalances and balance sheet vulnerabilities. They occur in high-growth economies when an initially equilibrating shift in relative prices and resources and credit in favor of the nontraded sector overshoots equilibrium. The paper argues that policymakers are now better able to forestall conventional crises, but they are much less capable of early detection and avoidance of insidious crises.

But what at first seemed to be a single kidnapping turns out to be an elaborate conspiracy that threatens the very future of our world. And this time, old allies can't be trusted, and the danger runs deeper than Darwen could have ever imagined. Kirkus Reviews called the first Darwen book Brilliant! and we think you'll agree. Meanwhile, beyond the city's vibrant walls, an enigmatic figure emerges from the shadows. A stranger with eyes like molten gold and a touch that breathes life into forgotten dreams. Climate Change and Its Role in Forming the Insidious Relationship Between Natural Disasters and Social Disorders with a Prediction for the Future David Reilly, 2022-08-17 This book explores the relationship between the increased frequency, types, and severity of natural disasters and the significant increase in the number of social and violent disorders. With natural disasters come feelings of a lack of control over one's life and a fear of being helpless. Many times, people worry about providing for their families. While it is clear that there is a correlational relationship, we can't predict the type of social disorders that will result from natural disasters. To make headway, we must move from a linear perspective to a nonlinear one, focusing on system interactions instead of individual disasters. To achieve this goal, we must develop a far broader perspective about what needs to be accomplished than the limited one we have now—one that acknowledges the need to remove legislative bodies from the equation. Consider bold proposals to change the way we think, bolster our infrastructure, and curb the problems that plague us with the insights in *Climate Change Natural Disasters, and Social Disorder*.
