Charter Storm Mary Searcy Bixby,Dr Davis,Tom R. Davis,2018-09-18 Public education in the United States faces an unprecedented crisis. The explosive growth of charter schools over the last two decades has shaken the status quo to its core. At stake are the future of public schools and how they will continue to educate our nation's youth. Clashes over money and ideologies have led to a struggle between the public education establishment and those at the forefront of educational reform. In *Charter Storm*, they use their combined knowledge and research of over 120 individual interviews over five years to teach you about-- - essential insights those new to the charter school movement need for their schools to survive and thrive - how aggressive educational establishment pushback threatens to sweep away the most vulnerable - key issues authorizers must know to effectively oversee their organizations - the overwhelming challenges the educational establishment faces today and how it can effectively navigate the changing local and national educational landscape - why active participation and support of charter school associations are essential to each charter school and the educational reform movement's long-term success - what every charter school parent needs to know to create and support an exceptional educational experience for his or her children.

Coastal Hazards Related to Storm Surge Rick Luettich, 2018-03-13 This book is a printed edition of the Special Issue *Coastal Hazards Related to Storm Surge* that was published in *JMSE*

The Children Hurricane Katrina Left Behind Sharon P. Robinson, M. Christopher Brown, 2007 Even before the 2005 «Disaster in the Delta» - as the devastation and loss wrought by the category-three hurricane known as Katrina came to be known - statistics emerged about the aggressive educational neglect of Louisiana's African American schoolchildren. The harrowing data about the inadequacies being as racialized as the distribution of aid in the storm's aftermath are chilling indeed. Yet, they have not dissuaded the more than thirty contributors to this volume from viewing Hurricane Katrina as an opportunity and a challenge to transform schools and society for the good of the entire United States. Divided into three sections («Education and School Contexts, » «Preparing Professionals for the Possible, » and «The Social Dynamics of Education Reform»), the seventeen chapters of *The Children Hurricane Katrina Left Behind* discuss what is essential for rebuilding urban schools in New Orleans as well as the nation, engaging the nuanced nexus of social events and educational policy (e.g., *No Child Left Behind*) as it relates to the preparation of professional educators and the future of America's schools. As Linda Darling-Hammond notes in her Foreword, each chapter speaks «powerfully and poignantly to [centuries of educational neglect and failed social policies] and to what we can and must do about it.»

Hurricane Andrew, the Public Schools, and the Rebuilding of Community Eugene F. Provenzo Jr., Sandra H. Fradd, 1995-07-01 Hurricane Andrew struck South Florida early on Monday morning, August 24, 1992. Widely described as the worst natural disaster in modern U.S. history, the storm left 38 people dead in South Florida, 80,000 homes destroyed, and damage estimates of at least \$20 billion. The area devastated by the hurricane was approximately three times the size of Manhattan. Almost 250,000 people were left homeless by Andrew—roughly the population of the entire city of Las Vegas, Nevada. Garbage generated by the storm in a single night was equal to the projected landfill for Dade County for the next thirty years. *Hurricane Andrew, the Public Schools and the Rebuilding of Community* addresses the experience of the Dade County Public Schools—its teachers and students, administrators and staff—during the first school year following the storm. In particular, it examines the role of the schools in helping people cope with a disaster of the magnitude of Hurricane Andrew, and more specifically, with their role in rebuilding community.
