Instructional Story Design Rance Greene,2020-04-07 Once Upon a Time, Storytelling Met Instructional Design From children to adults, everybody likes a good story. Stories are memorable, actionable, and emotional. We are constantly making sense of the world by forming stories, and that makes them perfect for instructional design. Instructional Story Design is a practical guide to writing and developing stories for training. It takes what you already know about a story's power to connect with people and offers a clear methodology for the otherwise daunting process of creating a compelling story. Master story designer Rance Greene shares his powerful yet familiar process to discover, design, and deliver instructional stories. He presents the two essential elements that must be present to tell a story for training: relatable characters and strong conflict. These elements create a desire for resolution and grab learners' attention. This book offers advice for unearthing the root of the performance problem, creating action lists for learners, and convincing stakeholders about the effectiveness of stories. Case studies from household companies such as Pizza Hut, Southwest Airlines, and PepsiCo show story design in action. Job aids and resources include an audience profile questionnaire, character description worksheet, storyboard template, and tips for developing stories using graphics, audio, and video. With this book, you'll: Sharpen your analysis skills to discover potential training stories. Design relatable stories that concretely connect with learning objectives. Easily develop captivating stories with tools you already own. Plan your next steps to implement your instructional story.

Teaching as Story Telling Kieran Egan,1989-03-15 An eminently practical guide, Teaching as Story Telling shows teachers how to integrate imagination and reason into the curriculum when planning classes in social studies, language arts, mathematics, and science. In his innovative book, Kieran Egan refashions the ancient function of the storyteller with such clarity that any teacher can step into the role with confidence. Not only does Egan's book make the reader look anew at what is too often taken for granted about the ways in which children learn, it opens up a range of critical questions about our orientation to objectives and to either/ors when it comes to the affective and the cognitive. - Back cover.

Educational Technology and Narrative Brad Hokanson,Gregory Clinton,Karen Kaminski,2017-12-09 This volume is the result of a 2016 research symposium sponsored by the Association for Educational Communications and Technology (AECT) focused on the growing theoretical areas of integrating story and narrative into educational design. Narrative, or storytelling, is often used as a means for understanding, conveying, and remembering the events of our lives. Our lives become a series of stories as we use narrative to structure our thinking; stories that teach, train, socialize, and create value. The contributions in this volume examine stories and narrative in instructional design and offer a diverse exploration of instructional design and learning environments. Among the topics discussed: The narrative imperative: creating a story telling culture in the classroom. Narrative qualities of design argumentation. Scenario-based workplace training as storytelling. Designing for adult learners' metacognitive development & narrative identity. Using activity theory in designing science inquiry games . Changing the narrative of school: toward a neurocognitive redefinition of learning. Educational Technology and Narrative is an invaluable resource offering application-ready ideas to students of instructional design, instructional design practitioners, and teachers seeking to utilize theories of story and narrative to the ways that they convey and express ideas of instructional design and educational technology.

Storytelling as an Instructional Method ,2010-01-01 The book's chapters cover a variety of topics including; theories of storytelling instructional effectiveness, story archetypes, cognition and storytelling, the use of stories in instructional games, and effective instructional strategies that employ stories. In addition, practical applications of storytelling are given for healing combat stress and improving information security.

The Power of Story Rives Collins,Pamela J. Cooper,2005 A guide to developing storytelling skills; includes examples, techniques, and interviews with many storytellers.

Make Me a Story Lisa C. Miller,2010 In this book, Lisa Miller shows how to use digital stories to lead students through all phases of the writing process, from planning to revising and editing. She leads teachers step-by-step through the process of creating a digital story in an accessible, instructional, and entertaining way.--[book cover].

Story Katie Cunningham,2015 Stories surround us, support us, and sustain us. We see and hear them when walking down the street, on our digital newsfeeds, in our interactions with one another, in the ways our students play, and in literature, poetry, music, images, multimedia, and dramatic works. While acknowledging the importance of teaching students strategies to read different kinds of text, to write across genres, and to speak and listen with purpose, Katie Egan Cunningham reminds us that when we bridge strategy with the power of story, we deepen literacy learning and foster authentic engagement. Story: Still the Heart of Literacy Learning compels us to ask crucial questions: Why do stories matter? Whose stories count? Where do stories live? How do stories come alive? How do we build stories? How do we talk about stories? And why does this work take courage? Katie shares her story as a classroom teacher, literacy specialist, staff developer, and professor. She shows teachers how to create classrooms of caring and inquisitive readers, writers, and storytellers. Katie explains specific ways to build a classroom library that reflects our diverse society through rich, purposeful, and varied texts. She also provides numerous examples of multigenre and multimodal stories from children's and young adult literature, poetry, songs, and multimedia. The practical toolkit at the end of each chapter demonstrates how to make stories come alive in any classroom.

Narrative Matters Dr Grant Bage,Grant Bage,2012-10-02 In recent years there has been a massive revival of interest internationally in what story can offer to education. This book covers a range of issues at the heart of teaching history, such as the use of talk, the pitfalls of narrative as a pedagogical tool, translating curriculum content into lessons, story telling and story making. It also questions what it means to teach, the difficulties for teachers of remaining constructively critical of policy, and their own practice, during periods of national legislation and change.

Oral Storytelling and Teaching Mathematics Michael Schiro,2004-03-19 Oral Story Telling And Teaching Mathematics provides the first serious exploration of the role that oral storytelling can play in helping children learn mathematics. It should be of interest to those concerned with providing children with powerful mathematical and literary experiences and those concerned with multicultural education. An accompanying CD-ROM contains the full text of two epic stories plus addition worksheets and handouts.

Start with a Story Clyde Freeman Herreid,2007 Kipp Herreid learned other ways to teach- much better ways. His favorite approach puts science in vivid context through case studies, which he calls stories with an educational message. This compilation of 40-plus essays examines every aspect of the case study method.--[back cover].

Learning Stories Margaret Carr,Wendy Lee,2012-03-19 Margaret Carr's seminal work on Learning Stories was first published by SAGE in 2001, and this widely acclaimed approach to assessment has since gained a huge international following. In this new full-colour book, the authors outline the philosophy behind Learning Stories and refer to the latest findings from the research projects they have led with teachers on learning dispositions and learning power, to argue that Learning Stories can construct learner identities in early childhood settings and schools. By making the connection between sociocultural approaches to pedagogy and assessment, and narrative inquiry, this book contextualizes Learning Stories as a philosophical approach to education, learning and pedagogy. Chapters explore how Learning Stories: - help make connections with families - support the inclusion of children and family voices - tell us stories about babies - allow children to dictate their own stories - can be used to revisit children's learning journeys - can contribute to teaching and learning wisdom This ground-breaking book expands on the concept of Learning Stories and includes examples from practice in both New Zealand and the UK. It outlines the philosophy behind this pedagogical tool for documenting how learning identities are constructed and shows, through research evidence, why the early years is such a critical time in the formation of learning dispositions. Margaret Carr is a Professor of Education at the University of Waikato, New Zealand. Wendy Lee is Director of the Educational Leadership Project, New Zealand.

Teaching with Story Margaret Read MacDonald,Jennifer MacDonald Whitman,Nathaniel Forrest Whitman,2013 This invaluable resource book includes everything teachers and librarians need to know for using storytelling in their classrooms with ready to tell tales correlated to the Common Core Standards.

An Open Book: What and How Young Children Learn From Picture and Story Books Jessica S. Horst,Carmel Houston-Price,2016-01-21 Looking at

and listening to picture and story books is a ubiquitous activity, frequently enjoyed by many young children and their parents. Well before children can read for themselves they are able to learn from books. Looking at and listening to books increases children’s general knowledge, understanding about the world and promotes language acquisition. This collection of papers demonstrates the breadth of information pre-reading children learn from books and increases our understanding of the social and cognitive mechanisms that support this learning. Our hope is that this Research Topic/eBook will be useful for researchers as well as educational practitioners and parents who are interested in optimizing children’s learning.

Story Frames for Teaching Literacy Carolee Dean,2021 Story Frames for Teaching Literacy provides a dynamic, engaging approach to help students understand, analyze, and create stories, in order to master literacy skills--

The Instructional Value of Digital Storytelling Patricia McGee,2014-12-17 Although storytelling has been recognized as an effective instructional strategy for some time, most educators are not informed about how to communicate a story that supports learning—particularly when using digital media. The Instructional Value of Digital Storytelling provides a broad overview of the concepts and traditions of storytelling and prepares professors, workplace trainers, and instructional designers to tell stories through 21st century media platforms, providing the skills critical to communication, lifelong learning, and professional success. Using clear and concise language, The Instructional Value of Digital Storytelling explains how and why storytelling can be used as a contemporary instructional method, particularly through social media, mobile technologies, and knowledge-based systems. Examples from different sectors and disciplines illustrate how and why effective digital stories are designed with learning theory in mind. Applications of storytelling in context are provided for diverse settings within higher education as well as both formal and informal adult learning contexts.

Classroom Tales Jennifer M. Fox Eades,2006 Fox Eades shows how storytelling is a crucial element of children's education that can enrich the school curriculum and encourage social and thinking skills. She discusses the different kinds of story that are useful in the classroom, and explores the impact of individual and group dynamics on the telling and reception of these stories.

The Call of Stories Robert Coles,1989 A teacher and a child psychiatrist discusses the power of stories to affect others, recounting his exposure to many famous people and their stories and what this has told him about life.

Performance Literacy Through Storytelling Nile Stanley,Brett Dillingham,2009 Make storytelling a part of your daily curriculum! This practical guide from Nile Stanley and Brett Dillingham shows busy K8 teachers how to use storytelling to motivate and engage all readers and writers while supporting the standards. Mini-lessons at beginning, intermediate, and advanced levels help teachers weave storytelling into the fabric of today's standards-based classroom and construct their own skillful literacy lessons. Reluctant and striving readers and writers, English language learners, and even more advanced storytellers will love the confidence they gain as they move from developing to delivering a variety of stories for a variety of audiences. Teachers will love the many benefits of performance literacy, or teaching children how to write and perform stories: [Develop literacy skillslanguage, vocabulary, comprehension, writing process, speaking, and listeningalong with performance skills and self-expression; [Easily integrate learning across the content areas; [Deepen the connection between home, school, and community; [Promote students' creativity and activate their prior knowledge; [Encourage respect and self-improvement as students learn to critique each other's stories and performances in a non-threatening manner. Developing Literacy Through Storytelling comes complete with a story index, curriculum tie-ins, digital storytelling tips, and information for using the companion website with supplemental multimedia. An audio CD includes more than 70 minutes of stories and songs from the authors themselves, in addition to other well-known storytellers, performers, and educators: Karen Alexander, John Archambault, David Plummer, HeatherForest, Brenda Hollingsworth-Marley, Gene Tagaban, and Allan Wolf. Don't just teach literacyperform it!

The Giver Studying the Story Elements Kristin Kemp,2014-04-01 Students will enjoy studying the story elements of The Giver. Through these engaging activities, students create products to share their understanding of characters, plots, and settings of the short stories in the book.
