Prayer Storm James W. Goll,2011-07-28 Without a concerted storm of prayer around the clock and around the globe we cannot expect to see revival in our time. Updating the model of the Moravians in Hernnhut, Germany two centuries ago, James Goll lays out a plan for today: an Internet-based community of intercessors who commit to pray one hour per week for (1) revival in the church, (2) youth awakening, (3) Israel, and (4) major crises. God does nothing but in answer to prayer, said John Wesley. This first book in the Prayer Storm series helps to raise up a new worldwide band of fervent intercessors.

Hurricanes and Climate Change Jennifer M. Collins,Kevin Walsh,2017-02-20 This book provides research that shows tropical cyclones are more powerful than in the past with the most dramatic increases occurring over the North Atlantic and with the strongest hurricanes. Although such increases are correlated with warming oceans and are consistent with the thermodynamic theory of hurricane intensity, there remains doubt about the interpretation, integrity, and meaning of these results. Arising from the 5th International Summit on Hurricanes and Climate Change, this book contains new research on topics related to hurricanes and climate change. Bringing together international leading academics and researchers on various sides of the debate, the book discusses new research and expresses opinions about what is happening and what might happen in the future with regard to regional and global hurricane (tropical cyclone) activity.

Escape the Global Storm Bob Sullivan,2008-04 Anyone who has been objectively reading their daily newspapers or watching the evening news has to be wondering what in the world is going on. It seems like conditions all around the globe are beginning to spin out of control. In fact, it is hard to identify a time in history when the world has faced so many complex and potentially devastating problems at the same time. In *Escape the Global Storm*, A personal guarantee from the God of Abraham, Isaac, and Jacob, Bob Sullivan uncovers the reasons for the growing chaos that is occurring throughout the world today. He takes the reader back four thousand years to the time when God Almighty unveiled His eternal plan for humanity to Abraham. He shows just how important that plan is to God and how it is impacting world events today. This book will change your view of world events, but, more importantly, it will reveal a glorious future that is waiting for all those who put their trust in Jesus Christ. Bob Sullivan grew up in Corning, New York. He met his wife Shirley in 1966 and was married one year later. They currently reside in Connecticut as do their two married children and seven grandchildren. Shirley is a life long Christian but it was not until 1976, that Bob committed his life to Jesus Christ. He began studying Second Coming prophecy after reading Hal Lindsay's *Late Great Planet Earth* in the late 70s. He has spent hundreds of hours studying Prophecy and has put his knowledge to use by leading several studies on the subject at his home church. He has also conducted two day long prophecy conferences and has developed a website that is dedicated to current events in light of Biblical truth. (www.folksinthepews.com)

Havens in a Storm J. C. Sharman,2018-10-22 Small states have learned in recent decades that capital accumulates where taxes are low; as a result, tax havens have increasingly competed for the attention of international investors with tax and regulatory concessions. Economically powerful countries including France, Britain, Japan, and the United States, however, wished to stanch the offshore flow of domestic taxable capital. Since 1998 the Organisation for Economic Co-operation and Development (OECD) has attempted to impose common tax regulations on more than three dozen small states. In a fascinating book based on fieldwork and interviews in twenty-two countries in the Caribbean, North America, Europe, and islands in the Pacific and Indian Oceans, J. C. Sharman shows how the struggle was decided in favor of the tax havens, which eventually avoided common regulation. No other book on tax havens is based on such extensive fieldwork, and no other author has had access to so many of the key decision makers who played roles in the conflict between onshore and offshore Sharman suggests that microstates succeeded in their struggle with great powers because of their astute deployment of reputation and effective rhetorical self-positioning. In effect, they persuaded a transnational audience that the OECD was being untrue to its own values by engaging in a hypocritical, bullying exercise inimical to free competition.

Storm World Chris Mooney,2008-08-04 An investigation into climate change and increasingly dangerous hurricanes from the New York Times–bestselling author of *The Republican War on Science*. A leading science journalist delves into a red-hot debate in meteorology: whether the increasing ferocity of hurricanes is connected to global warming. In the wake of Katrina, Chris Mooney follows the careers of leading scientists on either side of the argument through the 2006 hurricane season, tracing how the media, special interests, politics, and the weather itself have skewed and amplified what was already a fraught scientific debate. As Mooney puts it: “Scientists, like hurricanes, do extraordinary things at high wind speeds.” Mooney—a New Orleans native, host of the Point of Inquiry podcast, and author of *The Republican Brain*—has written “a well-researched, nuanced book” that closely examines whether we as a society should be held responsible for making hurricanes even bigger monsters than they already are (*The New York Times*). “Mooney serves his readers as both an empiricist who gathers data and an analyst who puts it into context. The result is an important book, whose author succeeds admirably in both his roles.” —*The Plain Dealer* “Engaging and readable . . . Mooney catches real science in the act and, in so doing, weaves a story as intriguing as it is important.” —*Los Angeles Times Book Review* “Mooney has hit upon an important and controversial topic, and attacks it with vigor.” —*The Boston Globe* “An absorbing, informed account of the politics behind a pressing contemporary controversy.” —*Kirkus Reviews*

Weather the Storm Monette Michaels,2019-10-01 The third book in the Security Specialists International series, *Weather the Storm*, is a fast-paced suspense story that crosses international boundaries. – Amazon Nymph for Literary Nymphs Reviews Research librarian Elana Fabrizzio was in the wrong place at the wrong time. While working her late night shift at the library, she overhears a man hire a mercenary to kill Keely Walsh-Maddox and other Security Specialists International operatives. Things go from bad to worse when the man kills a student and a security guard on his way out of the library. SSI operative Vanko Petriv is in New York City on holiday and is redirected to Washington, D.C. to become Elana’s personal security. Turns out the man she overheard is the traitor SSI has been pursuing for quite a while. Her eyewitness testimony would eliminate the treacherous thorn in SSI’s side and rid the intelligence community of a traitor once and for all. Vanko is instantly attracted to the courageous Elana and vows to make her his. Elana is surprised when she’s attracted to Vanko. Bad past experiences have made her leery of dominant men. When another enemy from Elana’s past appears, Vanko does what is needed to keep her alive. From the streets of New York to the Bahamas, Vanko, the ultimate alpha male, struggles against all odds as assassins converge from all sides. Without support and distracted by feelings long buried, Vanko must weather the storm to find a love he never expected.
