The Warmth of Other Suns Isabel Wilkerson,2011-10-04 NATIONAL BOOK CRITICS CIRCLE AWARD WINNER • NEW YORK TIMES BESTSELLER • In this beautifully written masterwork, the Pulitzer Prize–winner and bestselling author of *Caste* chronicles one of the great untold stories of American history: the decades-long migration of black citizens who fled the South for northern and western cities, in search of a better life. From 1915 to 1970, this exodus of almost six million people changed the face of America. Wilkerson compares this epic migration to the migrations of other peoples in history. She interviewed more than a thousand people, and gained access to new data and official records, to write this definitive and vividly dramatic account of how these American journeys unfolded, altering our cities, our country, and ourselves. With stunning historical detail, Wilkerson tells this story through the lives of three unique individuals: Ida Mae Gladney, who in 1937 left sharecropping and prejudice in Mississippi for Chicago, where she achieved quiet blue-collar success and, in old age, voted for Barack Obama when he ran for an Illinois Senate seat; sharp and quick-tempered George Starling, who in 1945 fled Florida for Harlem, where he endangered his job fighting for civil rights, saw his family fall, and finally found peace in God; and Robert Foster, who left Louisiana in 1953 to pursue a medical career, the personal physician to Ray Charles as part of a glitteringly successful medical career, which allowed him to purchase a grand home where he often threw exuberant parties. Wilkerson brilliantly captures their first treacherous and exhausting cross-country trips by car and train and their new lives in colonies that grew into ghettos, as well as how

they changed these cities with southern food, faith, and culture and improved them with discipline, drive, and hard work. Both a riveting microcosm and a major assessment, *The Warmth of Other Suns* is a bold, remarkable, and riveting work, a superb account of an “unrecognized immigration” within our own land. Through the breadth of its narrative, the beauty of the writing, the depth of its research, and the fullness of the people and lives portrayed herein, this book is destined to become a classic.

My Friend Isabelle Eliza Woloson, 2003 Isabelle and Charlie are friends. They both like to draw, dance, read, and play at the park. They both like to eat Cheerios. They both cry if their feelings are hurt. And like most friends, they are also different from each other. Isabelle has Down syndrome. Charlie doesn't. Written by Isabelle's mother, this charming tale encourages readers to think about what makes a friendship special. *My Friend Isabelle* also opens the door for young children to ask about differences and the world around them. It's a wonderful story to read at bedtime or to share at school. Lively full colour illustrations dovetail beautifully with the text to bring the simple story to life.

Moth Isabel Thomas, 2019-06-25 Powerful and visually spectacular, *Moth* is the remarkable evolution story that captures the struggle of animal survival against the background of an evolving human world in a unique and atmospheric introduction to Darwin's theory of Natural Selection. “This is a story of light and dark...” Against a lush backdrop of lichen-covered trees, the peppered moth lies hidden. Until the world begins to change... Along come people with their magnificent machines which stain the land with soot. In a beautiful landscape changed by humans how will one little moth survive? A clever picture book text about the extraordinary way in which animals have evolved, intertwined with the complication of human intervention. This remarkable retelling of the story of the peppered moth is the perfect introduction to natural selection and evolution for children.

Isabelle's Attic Isabelle Teresa Huber, Nan Miller, 2013-06 Isabelle's Attic is the story of a young Jewish girl whose life was saved from certain death at the hands of the German Nazis during World War II. From 1942 to 1945, three-year-old Isa Hauser was hidden by a Polish Catholic family in their attic in Czortkow, Poland, her birthplace. She was one of only three Jewish children from Czortkow known to have survived the Nazi atrocities. Until the early 1990s, the author, Isabelle Teresa Huber, did not speak about her story of survival, and did not associate herself as a Holocaust survivor. Finally able to confront her truths, the flood gates opened. Encouraged by her family, she and her close friend, Nan Miller, collaborated to write the complete account of this part of her life. Through this collaboration she has now given her children and grandchildren meaning to the idea of how dear life really is.

Happens Every Day Isabel Gillies, 2009-03-24 Isabel Gillies had a wonderful life -- a handsome, intelligent, loving husband; two glorious toddlers; a beautiful house; the time and place to express all her ebullience and affection and optimism. Suddenly, that life was over. Her husband, Josiah, announced that he was leaving her and their two young sons. When Josiah took a teaching job at a Midwestern college, Isabel and their sons moved with him from New York City to Ohio, where Isabel taught acting, threw herself into the college community, and delighted in the less-scheduled lives of toddlers raised away from the city. But within a few months, the marriage was over. The life Isabel had made crumbled. Happens every day, said a friend. Far from a self-pitying diatribe, Happens Every Day reads like an intimate conversation between friends. Gillies has written a dizzyingly candid, compulsively readable, ultimately redemptive story about love, marriage, family, heartbreak, and the unexpected turns of a life. On the one hand, reading this book is like watching a train wreck. On the other hand, as Gillies herself says, it is about trying to light a candle instead of cursing the darkness, and loving your life even if it has slipped away. Hers is a remarkable new voice -- instinctive, funny, and irresistible.
