*Global Sport Business* Hans Westerbeek, 2013-09-13 Global Sport Business: The Community Impact of Commercial Sport involves a range of pressing issues that come with the arrival of sport as a commodity in the world economy. It can be argued that, throughout the past two centuries, sport has always been recognized as both a frivolous pursuit of spending leisure time with friends and family, and as an activity that has substantial commercial value to be mined by entrepreneurs. However, only during the most recent wave of globalization, spurred by technological advancements that have led to achieving global reach in regard to potential customers, has sport entered a global marketplace that offers tremendous financial rewards for those who manage to control international sport organizations and events. In this book, global sport business is viewed from a number of different perspectives including a value chain approach to describing the sport industry; the ever increasing impact of the international media on sport business; how globalization influences the style of (sport) management; how social capital can be generated through sport business; and the emergence of social sport business. Overall, the different contributors to the book reflect on how sport's global (and as such commercial) attractiveness can, and often will impact locally, on communities of people and individuals. This book was published as a special issue of Sport in Society.

*Easier Said Than Done: A Life in Sport* Alan Wilkins, 2018-05-31 Turning adversity on its head he embarked upon a career in broadcasting that began in South Africa with the South African Broadcasting Corporation (SABC), before returning to Cardiff in September 1987 to anchor BBC Wales' portfolio of prime time sports programs. By the mid-1990s Alan had gone freelance and, following the end of apartheid, was reunited with the SABC to cover South Africa's return to world sport with the 1994 cricket tour to England and the 1995 Rugby World Cup. He also began what would become a long association with Singapore-based ESPN Star Sports (ESS) by commentating on the 1996 Indian cricket tour of England. By 1997 Alan had joined the ESS commentary team in India for the One Day International series between India and Sri Lanka where he was part of the commentary team, with

Ravi Shastri, Sunil Gavaskar, Navjot Singh Sidhu, Harsha Bhogle and Geoffrey Boycott, otherwise known as A Few Good Men. In February 2000 he re-located to Singapore to work for ESS and for almost 16 years enjoyed broadcasting cricket, golf, rugby, tennis and a host of other sports across the Indian sub-continent. A return home to Wales in 2015 has reignited Alan's love for rugby but as you'll read in Easier Said Than Done, his love of sport means the shape or size of the ball is not an issue.

*Fields in Vision* Garry Whannel, 2005-07-19 *Fields in Vision* offers a comprehensive and analytical study of the international phenomenon of television sports coverage. Garry Whannel considers the historical development of sport on television, the growth of sponsorship and the way that television and sponsorship have re-shaped sport in the context of the enterprise culture. Drawing on archival research, Whannel first charts the development of the BBC Outside Broadcast department, and the growing battle for dominance between BBC and ITV, showing how sponsorship and the rising power of sports agents began to transform sport - not only in the UK but across the world - in the 1960s. He goes on to examine the implications of this vast and escalating global network during the 1980s by analysing the central role that stars and narratives began to play in television sport, presenting case studies of major contests such as Coe versus Ovett and Decker versus Budd. His study also takes into account one of the more indirect, but no less significant results of international televised sport - the rise of popular fitness chic and the American monopoly of the workout boom of the 1980s. *Fields in Vision* explains the development of television sport by linking its economic transformation with the cultural forms through which it is represented, offering a study encompassing not simply the sports world, but our relationship with television and the media industries as a whole.

*Football in the New Media Age* Raymond Boyle, Richard Haynes, 2004 Based on extensive interviews with key players in the media and football industry, this text analyzes the impact of media change on soccer in Great Britain.

**Independent Television in Britain** P. Bonner, L. Aston, 1998-07-13 A stimulating treatment of an area of public life which is a subject of continuing debate and controversy. This volume covers the years in which ITV faced more challenges than at any time in its history and its regulator, the IBA, was subject to political pressures so extreme that they brought about its abolition and rebirth as the Independent Television Commission. The book gives detailed accounts, based on documents not previously available and interviews with over sixty senior figures in the industry, of the changes and controversies of the period. Highlights include: the conflict with government over the programme *Death on the Rock*, the battle with the BBC for possession of the rights to *Dallas*, the financial crisis at ITN, the impact of the Peacock Committee Report and the 1990 White Paper on Broadcasting, as well as detailed accounts of the broadcasters' and the regulator's battle with the government over the Broadcasting Bill and the subsequent 'auction' of ITV licences.

**Euro 2012 Fans Guide** Keir Radnedge, 2012-04 One of the most eagerly anticipated events on the sporting calendar, the 14th edition of the UEFA European Championship, took place between June 8 and July 1, 2012 in Poland and Ukraine. *50 Years of the European Cup and Champions League* Keir Radnedge, 2007-10-01 '50 Years of the European Cup and Champions League' covers every season's competition with a full report and statistical summary of the final.

*The UEFA European Football Championships* Jan Andre Lee Ludvigsen, Renan Petersen-Wagner, 2022-12-12 This book explores social and political issues and trends emerging around the UEFA European Football Championships. It presents a contemporary sociology of the European Championships

which, despite its significance as a mega-event, has been largely overshadowed by the Olympics and the FIFA World Cup in existing literature. At a time when both sport mega-events and Europe are undergoing dramatic transformations, this book explores a range of case studies and important topics such as changing consumption patterns, new types of sport media, social media, environmental policies and emergency politics, public opposition and co-hosting. It also situates the European Championships within wider European projects and discourses of European identities, integration and enlargement. Drawing on data from recent and historical European Championships, and looking ahead to the next tournament in Germany in 2024, this book serves to open up new debates within the sociology of sport and the study of mega-events. It is a timely and ground-breaking text which will resonate with students, academics and readers who are interested in football, the sociology of sport, megaevents, digital sociology, European politics and culture or sports business.

The Official ITV F1 Sport Grand Prix Guide 2000 Bruce Jones, Nick Jones, Murray Walker, 2000 A guide for all motor racing fans. *Football in the New Media Age* Raymond Boyle, Richard Haynes, 2004-07-31 Football in the new media age can often appear ubiquitous, dominating much of the mainstream news and current affairs agenda. The impact of the vast amounts of money paid to elite footballers and the inability of young men to cope with this when combined with their media fuelled celebrity status have frequently made headlines. However at the core of this process is the battle to control a game which has exploited its position as a key 'content provider' for new media developments over the last decade. Based on extensive interviews with key players in the media and football industry, *Football in the New Media Age* analyses the impact of media change on the football industry. It examines the finances of the game; the rise of the importance of rights and rights management in the industry and attempts by clubs themselves to develop their own media capacity. It also explores the key role played by football supporters. At the core of the book is an examination of the battle for control of the game as media, business and fans all seek to redefine the sport in the 21st century.
