Civic and Uncivic Values Ola Listhaug, Sabrina P. Ramet, Dragana Dulić, 2011-01-10 Discusses Serbia's struggle for democratic values after the fall of the Milošević regime provoked by the NATO war, and after the trauma caused by the secession of Kosovo. Are the value systems of the post-Milošević era true stumbling blocks of a delayed transition of this country? Seventeen contributors from Norway, Serbia, Italy, Germany, Poland and some other European countries covered a broad range of topics in order to provide answers to this question. The subjects of their investigations were national myths and symbols, history textbooks, media, film, religion, inter-ethnic dialogue, transitional justice, political party agendas and other related themes. The authors of the essays represent different scholarly disciplines whose theoretical conceptions and frameworks are employed in order to analyze two alternative value systems in Serbia: liberal, cosmopolitan and civic on the one hand, and traditional, provincial, nationalist on the other.

Open Spaces for Interactions and Learning Diversities Alessio Surian, 2016-07-08 While changes related to cultural diversity are visible and at work in social, cultural and political contexts, cultural diversity as such is being ignored or rejected across many countries. It is the denial or hidden nature of diversity in educational settings and learning processes, reflected in the marginalisation of this topic, that this book wants to address. The book chapters are blind peer reviewed and draw from a variety of learning settings across the world. They are intended to open up spaces to talk, promote and struggle for the relevance of addressing learning diversities. This includes current and new directions for theoretical and methodological discussions. They concern spaces of interaction and diversity research across single and multiple moments, different contexts and various time scales. They also explore the diversity of theories used to address these issues and how we theorize the relationship between centres and margins in understanding the idea of opening spaces for dialogue.

Einstein's Daughter Michele Zackheim, 2000 In 1902, an illegitimate daughter was born to Albert Einstein. In 1903, she vanished. Now, almost a century later, Michele Zackheim follows a mystery that has bewildered Einstein scholars the world over.

Microbial Biofilms Bakrudeen Ali Ahmed Abdul, 2020-11-05 This book provides a broad range of applications and recent advances in the search for biofilm materials in nature. It also explains the future implications for biofilms in the areas of advanced molecular genetics, pharmaceuticals, pharmacology, and toxicology. This book is comprised of 20 chapters from leading experts in the field and it examines immunology and microbiological studies derived from biofilms as well as explores environmental, agricultural, and chemical impacts on biofilms. It is divided into five subdivisions: biofilms and its complications, biofilm infections in human body, detection of biofilm-forming pathogens, antibiofilm chemotherapy, and biofilms production tools in aquaculture. This book may be used as a text or reference for everyone interested in microbial biofilms and their current applications. It is also highly recommended for environmental microbiologists, medical microbiologists, bioremediation experts, and microbiologists working in biocorrosion, biofouling, biodegradation, water microbiology, quorum sensing, and many other related areas. Scientists in academia, research laboratories, and industry will also find it of interest. This book includes chapter homework problems and case studies. Powerpoints are also available for adopting instructors. Discusses and clarifies the resource of isolation and chemical properties from biofilms Discusses the latest pharmaceutical, pharmacological, and medicinal approaches toward the treatment of chronic and uncured diseases, such as Alzheimer's osteoporotic, sexual dysfunction, sleep sickness, allergy treatment, asthma, hair loss, AIDS, hypertension, antiaging, etc. Examines immunology and microbiological studies derived from biofilms Explores environmental, agricultural, and chemical impacts on biofilms. Dr. Bakrudeen Ali Ahmed Abdul is an Associate Professor, the Head of the Department of Biochemistry and Dean of the School of Life Sciences, Centre for Research and Development (CRD), PRIST Deemed University, Vallam, Thanjavur, Tamil Nadu, India. His research areas include the application of plant biochemistry, bioactive compound production, biotechnological methods, development of pharmaceutical products and pharmacological studies.

Love Novel Ivana Sajko, 2022-04-01 Love in late capitalism: Ivana Sajko takes us into a war between kitchen and bedroom. He, an unemployed humanist, is trying to change the world and write a novel. She, a passable actress, has given up her safe job at the theatre to care for their child. He is delirious, she is on edge. With the rent overdue and violence looming on all sides, the two of them circle one another in a dizzying dance towards the abyss.

Animal Husbandry and Hunting in the Central and Western Balkans Through Time Nemanja Marković, Jelena Bulatović, 2020-11-05 This volume presents the results of new research on animal herding and hunting in the central and western Balkans during the prehistoric and historic periods. The investigations cover a wide range of topics related to animal exploitation strategies, ranging from broad syntheses to specific case studies.

Fishman's Pulmonary Diseases and Disorders, 2-Volume Set, Sixth Edition Michael A. Grippi, Danielle E. Antin-Ozerkis, Charles S. Dela Cruz, Robert Kotloff, Camille N. Kotton, Allan I. Pack, 2022-10-22 The definitive guide to the clinical and scientific aspects of pulmonary medicine—fully updated with the latest advances in the field A Doody's Core Title for 2023! Fishman's Pulmonary Diseases and Disorders delivers unparalleled coverage of pulmonary medicine. With nearly 2500 illustrations, 60 videos, and 22,000 references, this peerless, two-volume resource provides a comprehensive overview of the scientific basis of lung function in health and disease. You'll find detailed coverage of the broad array of disorders affecting the respiratory system, including obstructive and restrictive diseases, pulmonary vascular

disorders, sleep-disordered breathing, lung neoplasms, respiratory infections, and respiratory failure. In addition, you'll learn about all the latest advances, including molecular development of the lung, stem cells and respiratory disease, the genetics of pulmonary disease, the growth of personalized medicine, technical advances in lung transplantation, and much more. Notable new content in the 6th edition includes discussion of the respiratory effects of vaping, detailed consideration of the idiopathic interstitial pneumonitides, state-of-the-art discussion of lung nodules, a summary of the use of immunotherapy in the treatment of lung cancer, COVID-19-related lung disease and its management, and a comprehensive discussion of noninvasive ventilation, including its use in ambulatory and ICU settings. In addition, new chapters on cystic lung disease, lung cancer screening, the lung microbiome, developmental lung disorders, nocardiosis and actinomycosis, and application of ECMO are included.

Led Ivana Mihić, 2009

Perspectives of Quorum Quenching in New Drug Development Naga Raju Maddela, Venkataramana Thiriveedi, Lodi Rathna Silviya, 2024-05-09 Antibiotic resistance in pathogen microorganisms is a major global concern, especially the formation of biofilms. Quorum quenching has been practically used to control biofilm growth, and this indicates a promising hope for the development of new drugs for the control of biofilm-forming pathogens. This book provides a single source of information about two issues: the biology of quorum sensing and quorum quenching, and the perspectives of quorum quenching in new drug development. The text covers the latest literature from the last ten years and insights into quorum quenching and its need in medicine as an anti-virulence strategy. Features: Exclusively focuses on quorum quenching and its ability to be used as an alternative to antibiotics in the control of multidrug-resistant pathogens. Reviews the latest literature and case studies of the last ten years in the field of quorum sensing and quorum quenching. Promotes a new approach to the development of the next generation of antibacterial drugs. In the wake of rising antibiotic drug resistance, it is crucial to develop an alternative approach to control bacterial infection diseases and quorum quenching appears to be a promising strategy in the development of new medicines.

Advances in Usability, User Experience and Assistive Technology Tareq Z. Ahram, Christianne Falcão, 2018-06-27 This book focuses on emerging issues in usability, interface design, human-computer interaction, user experience and assistive technology. It highlights research aimed at understanding human interaction with products, services and systems, and focuses on finding effective approaches for improving user experience. It also discusses key issues in designing and providing assistive devices and services to individuals with disabilities or impairment, to assist mobility, communication, positioning, environmental control and daily living. The book covers modelling as well as innovative design concepts, with a special emphasis on user-centered design, and design for specific populations, particularly the elderly. Virtual reality, digital environments, heuristic evaluation and forms of device interface feedback of (e.g. visual and haptic) are also among the topics covered. Based on the AHFE 2018 Conference on Usability & User Experience and the AHFE 2018 Conference on Human Factors and Assistive Technology, held on July 21–25, 2018, in Orlando, Florida, USA, this book reports on cutting-edge findings, research methods and user-centred evaluation approaches.

Serbia Marko Attila Hoare, 2024-02-08 This is the first in-depth, English-language history of modern Serbia in nearly half a century. It covers the period from the Serbian state's revolutionary rebirth in the early nineteenth century, under the rebel leaders Karađorđe Petrović and Miloš Obrenović; its turbulent history of wars, uprisings and dynastic rivalries; the triumph of Yugoslav unification in 1918; and the catastrophe of occupation by Nazi Germany in 1941. It shows how the birth of the modern nation-state involved the creation of a new elite-dynasty, army and bureaucracy—whose rule over the peasantry generated a popular resistance that would ultimately take form in Nikola Pašić's mighty People's Radical Party. The resulting struggle between elitist Westernisers and pro-Russian populists became entwined with the struggle for pan-Serb and Yugoslav liberation and unification. These causes came together with the Sarajevo assassination of 1914, which triggered the First World War. Existing histories of the Yugoslav kingdom that emerged from that war focus on the national conflict between Serbs, Croats, Bosnian Muslims and others, but Marko Attila Hoare challenges this narrative. He shows how the new kingdom's politics continued to be dominated by the ongoing internal Serbian power struggle, bringing renewed disaster to Yugoslavia and its peoples.

The Change Laboratory Jaakko Virkkunen, 2013-12-31 A new challenge of learning in work organizations--both in business and public administration--is to master entire life cycles of product, production and business concepts. Meeting this challenge calls--at all levels of the organization--for learning that expand the learners' horizon and practical mastery from individual tasks up to the level of the whole system of the collective activity and its transformation. The Change Laboratory is a method for formative intervention in work communities that supports this kind of organizational learning. It is a path breaker in the area of work place learning due to its strong theoretical and research basis and the way that it integrates the change of organizational practices and individuals' learning. It provides a way to develop practitioners' transformative agency and capacity for creating and implementing new conceptual and practical tools for mastering their joint activity. This first comprehensive presentation of the already widely used method is written for researchers, consultants, agricultural extension and HRD professionals, as well as practitioners involved in developing activities in their professional field. It explains this novel method as well as its theoretical basis on the Cultural Historical Activity Theory providing also practical examples and tools for carrying out a Change Laboratory intervention. A review is also provided of studies concerning various aspects of expansive learning processes in Change Laboratory interventions.

As recognized, adventure as capably as experience about lesson, amusement, as with ease as settlement can be gotten by just checking out a book **Ivana Stepanovic** moreover it is not directly done, you could consent even more concerning this life, nearly the world.

We have enough money you this proper as with ease as easy exaggeration to acquire those all. We give Ivana Stepanovic and numerous books collections from fictions to scientific research in any way. accompanied by them is this Ivana Stepanovic that can be your partner.
