Birds and Beasts of Ancient Mesoamerica Susan Milbrath, Elizabeth Baquedano, 2023-12-15 *Birds and Beasts of Ancient Mesoamerica* links Precolumbian animal imagery with scientific data related to animal morphology and behavior, providing in-depth studies of the symbolic importance of animals and birds in Postclassic period Mesoamerica. Representations of animal deities in Mesoamerica can be traced back at least to Middle Preclassic Olmec murals, stone carvings, and portable art such as lapidary work and ceramics. Throughout the history of Mesoamerica real animals were merged with fantastical creatures, creating zoological oddities not unlike medieval European bestiaries. According to Spanish chroniclers, the Aztec emperor was known to keep exotic animals in royal aviaries and zoos. The Postclassic period was characterized by an iconography that was shared from central Mexico to the Yucatan peninsula and south to Belize. In addition to highlighting the symbolic importance of nonhuman creatures in general, the volume focuses on the importance of the calendrical and astronomical symbolism associated with animals and birds. Inspired by and dedicated to the work of Mesoamerican scholar Cecelia Klein and featuring imagery from painted books, monumental sculpture, portable arts, and archaeological evidence from the field of zooarchaeology, *Birds and Beasts of Ancient Mesoamerica* highlights the significance of the animal world in Postclassic and early colonial Mesoamerica. It will be important to students and scholars studying Mesoamerican art history, archaeology, ethnohistory, and zoology.

*Rethinking Zapotec Time* David Tavárez, 2022-02-08 In 1702, after the brutal suppression of a Zapotec revolt, the bishop of Oaxaca proclaimed an amnesty for idolatry in exchange for collective confessions. To evade conflict, Northern Zapotec communities denounced ritual specialists and surrendered sacred songs and 102 divinatory manuals, which preserve cosmological accounts, exchanges with divine beings, and protocols of pre-Columbian origin that strongly resemble sections of the Codex Borgia. These texts were sent to Spain as evidence of failed Dominican evangelization efforts, and there they remained, in oblivion, until the 1960s. In this book, David Tavárez dives deep into this formidable archive of ritual and divinatory manuals, the largest calendar corpus in the colonial Americas, and emerges with a rich understanding of Indigenous social and cultural history, Mesoamerican theories of cosmos and time, and Zapotec ancestor worship. Drawing on his knowledge of Zapotec and Nahuatl, two decades of archival research, and a decade of fieldwork, Tavárez dissects Mesoamerican calendars as well as Native resistance and accommodation to the colonial conquest of time, while also addressing entangled transatlantic histories and shining new light on texts still connected to contemporary observances in Zapotec communities.

*Reflections of a Transborder Anthropologist* Carlos G. Vélez-Ibáñez, 2020-10-20 Taking us on a journey of remembering and rediscovery, anthropologist Carlos G. Vélez-Ibáñez explores his development as a scholar and in so doing the development of the interdisciplinary fields of transborder and applied anthropology. He shows us his path through anthropology as both a theoretical and an applied anthropologist whose work has strongly influenced borderlands and applied research. Importantly, he explains the underlying, often hidden process that led to his long insistence on making a difference in lives of people of Mexican origin on both sides of the border and to contribute to a "People with Histories." In each chapter, Vélez-Ibáñez revisits a critical piece of his written work, providing a new introduction and discussion of ideas, sources, and influences for the piece. These are followed by the work, chosen because it accentuates key aspects of his development and formation as an anthropologist. By returning to these previously published works, Vélez-Ibáñez offers insight not only into the evolution of his own thinking and conceptualization but also into changes in the fields in which he has been so influential. Throughout his career, Vélez-Ibáñez has addressed why he does the work that he does, and in this volume he continues to address the personal and intellectual drives that have brought him from Netzahualcóyotl to Aztlán. *Reflections of a Transborder Anthropologist* shows how both Vélez-Ibáñez and anthropology have changed and formed over a fifty-year period. Throughout, he has worked to understand how people survive and thrive against all odds. Vélez-Ibáñez has been guided by the burning desire to understand inequality, exploitation, and legitimacy, and, most importantly, to provide platforms for the voiceless to narrate their own histories.

Handbook of Social Movements Across Disciplines Conny Roggeband, Bert Klandermans, 2017-07-31 This book aims to revisit the interdisciplinary roots of social movement studies. Each discipline raises its own questions and approaches the subject from a different angle or perspective. The chapters of this handbook are written by internationally renowned scholars representing the various disciplines involved. They each review the approach their sector has developed and discuss their disciplines' contributions and insights to the knowledge of social movements. Furthermore, each chapter addresses the unanswered questions and discusses the overlaps with other fields as well as reviewing the interdisciplinary advances so far.

*Rituals of Marginality* Carlos G. Vélez-Ibáñez, 1991 In this political ethnography of the marginalized population of Netzahuacoyotl Izcalli, the fourth largest city in Mexico, Carlos Vélez-Ibáñez shows that although marginalized groups seldom emerge the clear winners of political struggles, they gain a sense of autonomy and social power that can never be erased.

The Legacies of The Basin of Mexico Carlos E. Cordova, Christopher T. Morehart, 2023-08-14 This volume celebrates the continuing impact of the most notable contributions from *The Basin of Mexico: The Ecological Processes in the Evolution of a Civilization* by William T. Sanders, Jeffrey R. Parsons, and Robert S. Santley. In 1979, this influential work synthesized the results of the Basin of Mexico survey projects and follow-up excavations at several sites, while providing theoretical and methodological lines of research in central Mexico and generally in Mesoamerica. More than four decades after that book's publication, the fourteen contributions in this volume review and analyze its theoretical and methodological influence in light of recent research across disciplines. Among a spectrum of authors representing several generations are those who participated directly in the Basin of Mexico surveys—including the late Jeffrey R. Parsons—as well as those who have been actively working on recent projects in the basin and neighboring regions. Providing a broad and multidisciplinary perspective of the present and future state of research in the area, *The Legacies of The Basin of Mexico* will be of interest to Mesoamerican and Latin American archaeologists as well as geographers, geologists, historians, and specialists in the study of past environments. Contributors: Guillermo Acosta Ochoa, Aleksander Borejsza, Destiny Crider, Charles Frederick, Raúl García-Chávez, Larry Gorenflo, Angela Huster, Georgina Ibarra Arzave, Charles Kolb, Frank Lehmkuhl, Abigail Meza Peñaloza, Emily McClung de Tapia, John K.
