Tornado Over the Tigris Michael Napier,2015-07-31 Written from the unique perspective of a fast jet cockpit, Tornado Over the Tigris captures the essence of what it was really like to fly a Tornado at the front-line of the Cold War in Germany and on operations over Iraq in the aftermath of the Gulf War. After achieving a boyhood ambition to qualify as an RAF pilot, Michael Napier was posted to RAF Bruggen in Germany where he spent five years flying Tornado GR1 strike/attack aircraft at the height of the Cold War. Always exhilarating, sometimes amusing and often dangerous, Michael Napier's Tornado flying ranged from 'routine' low-flying in continental Europe and the UK, to air combat manoeuvring in Sardinia and the ultra-realistic Red Flag exercises in the USA. Progressing from struggling first-tourist to respected four-ship leader, he then became an instructor at the Tactical Weapons Unit at RAF Chivenor. This tour, during which he flew the Hawk, provided yet more exciting and challenging flying. He returned to the Tornado at Bruggen as a Flight Commander shortly after the Gulf War and subsequently flew a number of operational sorties over Iraq, which included leading air-strikes against Iraqi air defence installations as part of major Coalition operations. This is his story, told with ease and great style. It is sure to inspire a fresh generation of fast jet pilots as they strive to make their own marks in this field.

Tail of the Storm Alan Cockrell,1995-01-30 Cockrell writes lyrically about flying and about the emotional and intellectual satisfaction enjoyed by those who fly Within days of Saddam Hussein's invasion of Kuwait, the far reaching arm of American airpower sprang into action. The skylines of the North Atlantic, Europe, and the Mediterranean became laced with the contrails of great jets flowing day and night toward the Persian Gulf. From the skies, manpower and material poured onto the bleak sands under the ominous clouds of the gathering storm, and in only a few weeks the size of the effort eclipsed that of the Berlin Airlift. The thousands of crewmembers flying the jets, as well as those servicing and managing them, became the backbone of history's largest air logistical operation. Many of these men and women were Air Force reservists, and the author participated as a pilot of a C-141B Starlifter with the Mississippi Air National Guard. Cockrell writes lyrically about flying and about the emotional and intellectual satisfaction enjoyed by those who fly. His focus is on the people recalled to active duty, who flew thousands of hours, coping with fatigue, cracked wings, missile attacks, and, in some cases, deteriorating businesses and families at home. Tail of the Storm gives expression to their love of flight, as well as their dedication to the endangered values of duty, honor, country. This story is good reading—not only for those who share the author's enthusiasm for flying but also for those who read for pleasure and have a curiosity about a pilot's world.

Polar Storm Deborah D. Moore,2018-08-20 A nonstop blizzard puts one man in a desperate fight for survival in this action-packed prepper thriller from the author of The Journal series. A major snow storm covering most of the northern states isn't that unusual. One that stays for months on end is very unusual—and it's a killer. Parker is an easygoing young man who has had every advantage in life, including wealthy parents who have given him everything he's ever wanted. But after agreeing to live in the woods of northern Michigan for a year, he soon finds that kind of spoiled life has not prepared him for life off-grid—in the woods—in the ruthless wintertime. But with the help of the teenaged boy next door, he begins to learn how to survive in the woods, and just in time. A winter storm of unprecedented magnitude is bearing down on them, and it will take everything they have to make it out alive.

Southern Storm Samme Chittum,2018-04-03 The gripping true tale of a devastating plane crash, the investigation into its causes, and the race to prevent similar disasters in the future. On the afternoon of April 4, 1977, Georgia housewife Sadie Burkhalter Hurst looked out her front door to see a frantic stranger running toward her, his clothes ablaze, and behind him the mangled fuselage of a passenger plane that had just crashed in her yard. The plane, a Southern Airways DC-9-31, had been carrying eighty-one passengers and four crew members en route to Atlanta when it entered a massive thunderstorm cell that turned into a dangerous cocktail of rain, hail, and lightning. Forced down onto a highway, the plane cut a swath of devastation through the small town of New Hope, breaking apart and killing bystanders on the ground before coming to rest in Hurst's front yard. Ultimately, only twenty-two people would survive the crash of Flight 242, and urgent questions immediately arose. What caused the pilots to fly into the storm instead of away from it? Could the crash have been prevented? Southern Storm addresses these issues and many more, offering a fascinating insider's look at this dramatic disaster and the systemic overhauls that followed it.

Offbeat (Revised & Updated) Julian Upton,2022-04-07 For years there has been consensus about the merits of Britain’s ‘cult films’ – Peeping Tom, Witchfinder General, The Italian Job – but what of The Mark, Unearthly Stranger, The Strange Affair and The Squeeze? Revisionist critics wax lyrical over Get Carter and The Wicker Man, but what of Sitting Target, Quest for Love and The Black Panther? OFFBEAT redresses this imbalance by exploring Britain’s obscurities, curiosities and forgotten gems – from the buoyant leap in film production in the late fifties to the dying days of popular domestic cinema in the early eighties. Featuring essays, interviews and in-depth reviews, OFFBEAT provides an exhaustive, enlightening and entertaining guide through a host of neglected cinematic trends and episodes, including: • The last great British B-movies • ‘Anti-swinging sixties’ films • Sexploitation – from Yellow Teddy Bears to Emmanuelle in Soho • The British rock ‘n roll movie • CIA-funded British cartoons • Asylums in British cinema • The Children’s Film Foundation • The demise of the short as supporting feature • Val Guest, Sidney Hayers and the forgotten journeyman of British film • Swashbucklers, crime thrillers and other non-horror Hammers Now updated with more than 150 pages of new reviews and essays, featuring: • The Beatles in Colour! • The History of the AA Certificate • Ken Russell’s 1980s Films • Iris Murdoch’s A Severed Head • Curating Offbeat films in the Digital Age And much more!

Tornado Down John Nichol,John Peters,2002-10-31 Discover the brave, shocking and remarkable true story of two RAF lieutenants' capture during the Gulf War 'HEROISM UNDER A BLOOD RED SKY' Independent 'THE MOST COMPELLING STORY OF THE GULF WAR' Daily Mail _____ RAF Flight Lieutenants John Peters and John Nichol were shot down over enemy territory on their first mission of the Gulf War. Their capture in the desert, half a mile from their blazing Tornado bomber, led to seven harrowing weeks of torture, confinement and interrogation. An ordeal which brought both men close to death. In Tornado Down, John Peters and John Nichol tell the incredible story of their part in the war against Saddam Hussein's regime. It is a brave and shocking and totally honest story: a story about war and its effects on the hearts and minds of men.

Hypersonic Thunder Walter J. Boyne,2009-04-14 The jet age began in 1939 with the brief hop of a secret German airplane. Seventy years later, the entire world depends upon the jet engine in every sphere – political, military, economic, and social. In Hypersonic Thunder, Walter Boyne weaves an intricate story of how the jet engine changed aeronautics and astronautics, pushing the frontiers of flight forward and permitting humankind to enter the space age. Drawing on his knowledge of the period, Boyne paints a gripping picture of jet aviation from the brilliant supersonic Concorde to the coming challenges of hypersonic flight. Using the fictional Shannons as a vehicle, the author ranges the world of aviation, combining the triumphs and tragedies of great aviation companies with the familiar conflicts of family life. All of the great names of aeronautics and astronautics appear here as they did on the historic scene, including such luminaries as Howard Hughes, Kelly Johnson, Burt Rutan, and Steve Fossett. The book thunders with the clash of combat, ranging from the courageous fights of the Israeli Air Force down through the raid on Libya, Operations Desert Storm and Iraqi Freedom, and, most important the ongoing war on terror. And space is not neglected, as Boyne covers everything from Skylab and the Space Shuttle, with its great achievements and terrible tragedies, to the International Space Station.
