Ancient Magic and the Supernatural in the Modern Visual and Performing Arts Filippo Carlà-Uhink,Irene Berti,2015-04-23 To what extent did mythological figures such as Circe and Medea influence the representation of the powerful 'oriental' enchantress in modern Western art? What role did the ancient gods and heroes play in the construction of the imaginary worlds of the modern fantasy genre? What is the role of undead creatures like zombies and vampires in mythological films? Looking across the millennia, from the distrust of ancient magic and oriental cults, which threatened the new-born Christian religion, to the revival and adaptation of ancient myths and religion in the arts centuries later, this book offers an original analysis of the reception of ancient magic and the supernatural, across a wide variety of different media – from comics to film, from painting to opera. Working in a variety of fields across the globe, the authors of these essays deconstruct certain scholarly traditions by proposing original interdisciplinary approaches and collaborations, showing to what extent the visual and performing arts of different periods interlink and shape cultural and social identities.

Celebrating Pluralism F. Graeme Chalmers,1996-01-01 “Educational trends will change and research agendas will shift, but art teachers in public institutions will still need to educate all students for multicultural purposes,” argues Chalmers in this fifth volume in the Occasional Papers series. Chalmers describes how art education programs promote cross-cultural understanding, recognize racial and cultural diversity, enhance self-esteem in students' cultural heritage, and address issues of ethnocentrism, stereotyping, discrimination, and racism. After providing the context for multicultural art education, Chalmers examines the implications for art education of the broad themes found in art across cultures. Using discipline-based art education as a framework, he suggests ways to design and implement a curriculum for multicultural art education that will help students find a place for art in their lives. Art educators will find *Celebrating Pluralism* invaluable in negotiating the approach to multicultural art education that makes the most sense to their students and their communities.

Robert Storr Robert Storr,2021-11-23 'Interviews' collates, in a single volume, the major body of interviews conducted by the revered American critic and curator Robert Storr, encompassing engaging discussions with some of the most renowned names in the artworld over the last two centuries. The book features nearly 30 illustrated interviews with artists and curators, including Gerhard Richter,Alex Katz, Chuck Close, Richard Serra, Gabriel Orozco, Elizabeth Murray, Harald Szleeman, Catherine David and Mike Kelley.The introduction by art historian and curator Francesca Pietropaolo precedes a conversation between herself and Storr in which they dissect the interview as a medium: discussing the ethics involved, the notion of technique and approach, alongside the limitations and difficulties of the process. 'Interviews' presents an important, stimulating chronicle of Storr's most essential discussions with an esteemed cast of interviewees.

Creativity and Captivity Uday Balasundaram,2021-12-02 Ultimately, what really does it mean to be creative? How can we see ourselves as participating in the creativity of God for mission? All people are creative. Sadly, however, for many, creativity is stifled and remains stunted due to several reasons—social, economic, political, cultural, and even spiritual. This study explores how ICMs—indigenous cosmopolitan musicians—negotiate their creativity amid the liminal spaces they occupy as they share in the creativity of God for mission through their music. But what exactly does it mean to share in the creativity of God for mission? Contrary to popular notion, ICMs evidence that creativity is not merely innovation; it is not a psychological metric for measuring human potential; it is certainly not the “icing on the cake” reserved for a few so-called creatives or artists. Rather, “theological creativity” is participation in the creatio Dei; it is theologically prior to mission. As a missiological framework, creatio Dei is understood here in terms of creative being, creative construction (design), and creative performance. Hopefully, this book can help clarify and expand our understanding of what it means to be truly creative and, thereby, with the help of the Creator, put into practice principles of theological creativity as we share in the creativity of

God in the world, with others.

The Museum Effect Jeffrey K. Smith, 2014-05-29 Museums, libraries, and cultural institutions provide opportunities for people to understand and celebrate who they are, were, and might be. These institutions educate the public and civilize society in a variety of ways, ranging from community events to a single child making a first visit. The Museum Effect documents this phenomenon, explains how it happens, and shows how institutions can facilitate this process. Cultural institutions vary dramatically in size, nature and purpose, but they all allow visitors to hold conversations with artists and authors perhaps long dead. These conversations, sometimes with others present, and sometimes with artists, scientists, explorers, or authors not present, allow visitors to explore their lives and their “possible selves.” Cultural institutions inspire personal reflection, and help visitors better themselves, in that they leave having contemplated what is noble, excellent, or exemplary about the society in which they live. The “museum effect” is a process through which cultural institutions educate and civilize us as individuals and as societies. These institutions allow visitors to spend some time with their thoughts elevated, and leave the institution better people in some meaningful fashion than when they entered. This visionary book presents the underlying idea and the argument for the museum effect, along with empirical research supporting that argument. It will help those working in museums, libraries, and archivists to facilitate this process, and study how this is working in their own institutions.

The Detective and the Artist J.K. Van Dover, 2019-01-25 This book focuses on the distinctive role that artists have played in detective fiction—as detectives, as villains and victims, and as bystanders. With a few significant exceptions, literary detectives have always identified themselves as essentially the deconstructors of the artful crimes of others. They may use various methods—ratiocinative, scientific, or hard-boiled—but they always unravel the threads that the villains have woven into deceptive covers for their crimes. The detective does, in the end, produce a work of art: a narrative that explains everything that needs explanation. But the detective’s moral work is often juxtaposed to the aesthetic work of the painters, poets, and writers that the detective encounters during an investigation. The author surveys this juxtaposition in works by important authors from the early development of the genre (Poe, Conan Doyle), the golden age (Bentley, Christie, Sayers, James, et al.), and the hard-boiled era (Hammett, Chandler, Macdonald, Spicer et al.).

Leading Contemporary Economists Steven Pressman, 2008-10-03 This book describes the important contributions of several contemporary economic figures including recent Nobel Laureates. Describing their work and putting it into an historical perspective, these chapters explain how their work constitutes a major contribution to the discipline of economics and how it has broadened economic science. Co-Editor of the Review of Political Economy, Steven Pressman has gathered together for the first time key chapters from the journal, discussing major figures such as Amartya Sen, Joseph Stiglitz, John Kenneth Galbraith, Thomas Schelling, Edmund Phelps and Robert Mundell. This volume is significant to the extent that it combines the study of the work of Nobel Laureates with the perspective of heterodox economists, including a comprehensive bibliography for the work of each economist covered.
