Miniature Crafts and Their Makers Katrin Flechsig,2022-07-12 Picture a throng of tiny devils and angels, or a marching band so small it can fit in the palm of your hand. In a Mixtec town in the Mexican state of Puebla, craftspeople have been weaving palm since before the Spanish Conquest, but over the past forty years that art has become more finely tuned and has won national acceptance in a market nostalgic for an authentic Indian past. In this book, Katrin Flechsig offers the first in-depth ethnographic and historical examination of the miniature palm craft industry, taking readers behind the scenes of craft production in order to explain how and why these folk arts have undergone miniaturization over the past several decades. In describing this Lilliputization of Mexico, she discusses the appeal of miniaturization, revealing how such factors as tourism and the construction of national identity have contributed to an ongoing demand for the tiny creations. She also contrasts the playfulness of the crafts with the often harsh economic and political realities of life in the community. Flechsig places the crafts of Chigmecatitlán within the contexts of manufacturing, local history, religion, design and technique, and selling. She tells how innovation is introduced into the craft, such as through the modification of foreign designs in response to market demands. She also offers insights into capitalist penetration of folk traditions, the marketing of folk arts, and economic changes in modern Mexico. And despite the fact that the designations folk and Indian help create a romantic fiction surrounding the craft, Flechsig dispels common misperceptions of the simplicity of this folk art by revealing the complexities involved in its creation. More than thirty illustrations depict not only finished miniatures but also the artists and their milieu. Today miniatures serve not only the tourist market; middle-class Mexicans also collect miniatures to such an extent that it has been termed a national pastime. Flechsig's work opens up this miniature world and shows us the extent to which it has become a lasting and important facet of contemporary Mexican culture.

Life In Miniature Linda Schlossberg,2010-12-01 From a powerful new voice in fiction comes a compelling debut about the delicate bond between daughters and mothers, and about leaving everything you know in order to find the place where you belong. Adie has always known she was different. There's her size, for one thing. Born three months premature, Adie is the smallest of her peers. Then there's Adie's mother, who at first glance seems like so many other 1980s moms--clipping coupons and attending Feel the Burn aerobics classes. But beneath the surface is something erratic and unpredictable, something that makes her drag Adie and her older sister, Miriam, from one rental apartment to the next--until Miriam runs away. Adie is left behind with her mother, who is convinced their lives are in real danger and takes Adie on a crazy run across northern California. Now Adie faces a stark choice: submit to this increasingly surreal adventure, or grow up in ways she never imagined. . . Life in Miniature is a stunning double portrait, subtly capturing a daughter's misconceptions of her mother's delusions--while simultaneously revealing the consequences for both--in a compulsively readable and deeply insightful first novel. --Jonathon Keats, author of The Book of the Unknown . . .a book of intelligence and grace that will make you laugh and cry. --Terry Gamble, author of Good Family Linda Schlossberg received her PhD in English literature from Harvard University, where she is the Assistant Director of the Women, Gender, and Sexuality Studies program. Her fiction has been recognized by the Pacific Northwest Writers Association, the National League of American PEN Women, and Writers at Work. She has also received research and writing grants from the Andrew W. Mellon Foundation, as well as several awards for excellence in teaching. Linda lives in Cambridge, Massachusetts.

Toy Stories Gabriele Galimberti,2014-03-25 For over a year, the photographer and journalist Gabriele Galimberti visited more than 50 countries and created colorful images of boys and girls in their homes and neighborhoods with their most prized possessions: their toys. From Texas to India, Malawi to China, Iceland, Morocco, and Fiji, Galimberti recorded the spontaneous and natural joy that unites kids despite their diverse backgrounds. Whether the child owns a veritable fleet of miniature cars or a single stuffed monkey, the pride that Galimberti captures is moving, funny, and thought provoking.

The child in Spanish cinema Sarah Wright,2015-11-01 In this, the first full-length treatment of the child in Spanish cinema, Sarah Wright explores the ways that the cinematic child comes to represent 'prosthetic memory'. The central theme of the child and the monster is used to examine the relationship of the self to the past, and to cinema. Concentrating on films from the 1950s to the present day, the book explores religious films, musicals, 'art-house horror', science-fiction, social realism and fantasy. It includes reference to Erice's The Spirit of The Beehive, del Toro's Pan's Labyrinth, Mañas's El Bola and the Marisol films. The book also draws on a century of filmmaking in Spain and intersects with recent revelations concerning the horrors of the Spanish past. The child is a potent motif for the loss of historical memory and for its recuperation through cinema. This book is suitable for scholars and undergraduates working in the areas of Spanish cinema, Spanish cultural studies and cinema studies.

Cosas vivas Luis Alberto, Suárez Guava,2019-08-04 Montañas que paren gente, gente que resbala por la montaña en juegos suicidas, santos que bailan y santos que se desplazan ocultos, unos que hacen surcos y otros zanjás, gallos y bandoleros, indios y guaqueros, tambores y museos, danzantes y trompos, alfareros y políticos, sombreros y pocís, vasijas envidiosas y sombreros vueltiaos, fiestas y brujería, tambores y picós, todo estos elementos, sustancias, lugares y personas son los objetos de estudio de este libro. Desde el Grupo de Estudios Etnográficos de la Pontificia Universidad Javeriana se planteó la pregunta por los límites y por el campo de acción de la antropología y de estas reflexiones surgió una apuesta por poner en duda las clasificaciones, y el hecho mismo de clasificar, abogando por un tipo de investigación transgénero que, si no es antropología, es antropología transgénero. En este conjunto de estudios están las resonancias que justifican la presencia de textos raros y que mantienen la convicción de que la antropología sí está obligada a hablar de la realidad o de las realidades y que esto la obliga a hacer diferente para pensar diferente. Aquí no se trata de un listado estéril o de viñetas analíticas, sino de un montaje vívido que transgrede las fronteras de la razón o de lo social, de lo político o de lo jurídico, de la moral o de lo simbólico, de los géneros de pensamiento, incluso de aquellas fronteras que separan tan flagrantemente la teoría de la etnografía.

Creatividad, S.A. Edwin Catmull, 2014-09-25 Las fórmulas para crear entornos creativos de la mano del fundador y presidente de Disney-Pixar Studios. Creatividad, S.A. es un libro para profesionales que deseen llevar a sus equipos a cumbres más altas, un manual para cualquier lector que valore la originalidad y el primer viaje al centro neurálgico de Pixar Animation: a sus reuniones, sus evaluaciones de cierre de proyecto y las sesiones del Braintrust de las que nacieron algunas de las películas más exitosas de la historia del cine. Es, en el fondo, un libro acerca de cómo se construye una cultura creativa, pero también, como afirma su autor, «un reflejo de las ideas que creo que hacen aflorar lo mejor que llevamos dentro.» Cuando Ed Catmull era joven tenía un sueño: hacer la primera película de animación por ordenador. Persiguió este sueño como estudiante en la Universidad de Utah, y se asoció con George Lucas, en una colaboración que, indirectamente, le llevó a fundar Pixar con Steve Jobs y John Lasseter en 1986. El ingrediente esencial en el éxito de Pixar está en su entorno único, que Catmull y sus compañeros consiguieron forjar, basado en principios que protegen el proceso creativo y que desafían las ideas establecidas, como por ejemplo: o La responsabilidad de un directivo no es prevenir riesgos; su trabajo es dar la seguridad para que los demás los asuman. o El coste de prevenir errores con frecuencia es superior al de subsanarlos. o La estructura de comunicación de una empresa no debe ser el reflejo de su estructura organizativa; todo el equipo debe ser capaz de interrelacionarse, independientemente de su cargo y sus funciones. o No dé por sentado que el consenso general generará cambio; se requiere de mucha energía para mover un grupo, aunque todos sus miembros estén comprometidos con el proyecto. Los expertos opinan: «Muchos autores han intentado formular y categorizar la inspiración y la creatividad. Sin embargo, lo que Ed Catmull muestra con su experiencia es que la creatividad no es simplemente una fuente de ideas, sino más bien una alquimia entre las personas. En Creatividad, S.A., Ed expone con honestidad y sentido común cómo no convertirse en un estorbo y cómo fusionar arte, negocio e innovación.» George Lucas «Una gran novedad... Catmull nos traslada al interior del ecosistema de Pixar y nos muestra cómo la excelencia se desarrolla y se perfecciona con un nivel de detalle que resulta inspirador. Si usted tiene un trabajo creativo, debe leer este libro ya.» Daniel Coyle, autor de El pequeño libro del talento «Este es el mejor libro jamás escrito acerca de lo que implica establecer una organización creativa. Es el mejor porque la sabiduría y la modestia impregnan cada una de sus páginas. Muestra cómo la excelencia de Pixar radica en conectar los pequeños detalles –principio que cualquiera puede aplicar en su propio negocio– con el objetivo final que persiguen todos los miembros de la compañía: crear películas que les hagan sentirse orgullosos.» Robert I. Sutton, profesor en la Universidad de Stanford y autor de Buen jefe, mal jefe

Architecture and Identity Peter Herrle, Erik Wegerhoff, 2008 This book brings together complex fields of knowledge and globally splintered discourses on a subject that is experienced not only by scholars, but in the everyday lives of people around the world. There is a common complaint about the loss of identity which, to a substantial degree, is being associated with the built environment in cities and specifically with their architecture. Architecture and Identity takes a global, multidisciplinary look on how identities in contemporary architecture are constructed. The general hypothesis underlying this book is that in a globalized world identity in architecture cannot be easily derived from distinct indigenous patterns. The book presents forty contributions from various disciplines aiming to destroy the myth of an inheritable or otherwise prefabricated identity. Some authors dismantle constructs of identity that have long been considered as solid and unbreakable while others meticulously unravel the construction process of identities in

Fantasía de aventuras Antonio Sánchez-Escalonilla, 2009-03 Imaginar un relato de aventura y fantasía es un atractivo reto para guionistas y escritores de novelas. En estos géneros, a las dificultades propias de toda ficción se añaden otros problemas creativos, que apenas se contemplan en los manuales de guión o de técnicas novelísticas. Fantasía de aventuras aborda estas cuestiones desde un plano académico, y al mismo tiempo aporta las claves creativas empleadas por profesionales en este tipo de relatos, cada vez más demandados por espectadores y lectores, pero también por editoriales y productoras. Antonio Sánchez-Escalonilla, autor de Estrategias de guión cinematográfico, estudia las técnicas utilizadas por clásicos como Barrie, Roald Dahl, J.K. Rowling, Tolkien y C.S. Lewis, y analiza en profundidad las técnicas de cuatro directores que han cultivado con éxito el género de fantasía de aventuras: Tim Burton, George Lucas, M. Night Shyamalan y Steven Spielberg. Dirigido a estudiantes y profesionales, Fantasía de aventuras ofrece los recursos dramáticos imprescindibles en este tipo de creaciones literarias y cinematográficas.

18 Tiny Deaths Bruce Goldfarb, 2020-02-04 A captivating blend of history, women in science, and true crime, 18 Tiny Deaths tells the story of how one woman changed the face of forensics forever. Frances Glessner Lee, born a socialite to a wealthy and influential Chicago family in the 1870s, was never meant to have a career, let alone one steeped in death and depravity. Yet she developed a fascination with the investigation of violent crimes, and made it her life's work. Best known for creating the Nutshell Studies of Unexplained Death, a series of dollhouses that appear charming—until you notice the macabre little details: an overturned chair, or a blood-spattered comforter. And then, of course, there are the bodies—splayed out on the floor, draped over chairs—clothed in garments that Lee lovingly knit with sewing pins. 18 Tiny Deaths, by official biographer Bruce Goldfarb, delves into Lee's journey from grandmother without a college degree to leading the scientific investigation of unexpected death out of the dark confines of centuries-old techniques and into the light of the modern day. Lee developed a system that used the Nutshells dioramas to train law enforcement officers to investigate violent crimes, and her methods are still used today. The story of a woman whose ambition and accomplishments far exceeded the expectations of her time, 18 Tiny Deaths follows the transformation of a young, wealthy socialite into the mother of modern forensics... Eye-opening biography of Frances Glessner Lee, who brought American medical forensics into the scientific age...genuinely compelling.—Kirkus Reviews A captivating portrait of a feminist hero and forensic pioneer. —Booklist
