Trapped: Remarkable Stories of Survival from the 2011 Canterbury Martin van Beynen,2012-01-25 'It was all so sudden. Twenty seconds and then silence. I started calling out, 'Can anyone hear me?' - nothing but silence. Over the next few hours I heard hysterical sobbing and people clapping as others were rescued. I could hear engines, drilling and what sounded like sledgehammers . . . when the sounds went away I worried they weren't coming back.' - Ann Bodkin, trapped for 25 hours The Canterbury earthquake of February 2011 altered landscape, history, and most importantly, human lives. Many perished and the lives of thousands were upended. In *Trapped*, Martin van Beynen documents with sensitivity and unerring detail the personal experiences of more than thirty quake survivors - before, during and after the event - in their own words. At once poignant, dramatic and enthralling, their stories record a defining moment in Canterbury's history and testify to the courage and heroism of everyday people. 'The raw emotion of these personal stories makes for a moving and dramatic book. They provide a fascinating perspective from survivors who cheated death, some only just, and carried on.' - Paul Rodwell, Christchurch Central Fire Station officer who rescued survivors from the rubble A donation will be paid to the Burwood Spinal Unit for every copy of this book sold. Photos from the book (YouTube video montage) '[Van Beynen] assembles a kaleidoscopic view of what it was like in the central city when the earthquake struck . . . recounted by a representative group of those who came through the terrors alive. If you want to know what courage sounds like, then you will find that aplenty in these voices; this is not only a profoundly human document, but also an important written record amid a flood of visual images . . . Van Beynen has an ability to frame people's stories, opening up for us a window on the soul, a vision of what it was like to feel your life was at an end – and what really counted. These intimate revelations grip the heart in a way no picture can.' —Jeffrey Paparoa Holman, New Zealand Listener

The Liquid Crystal Display Story Naoyuki Koide,2014-07-30 This book focuses on the development of liquid crystal displays (LCDs) and liquid crystal materials (LCs) in Japan. The Committee of Organic Materials Research for Information Sciences of the Japan Society for the Promotion of Science (JSPS) planned the book to document essential LCD innovations and developments since the beginnings of the field-effect LCD technology in 1970. The book illustrates the remarkable effort and progress behind those flat, lightweight, and high-information-content LCDs that have become the indispensable human-machine interface for virtually all electronic devices. In contrast to other publications on this topic, the book illustrates the interdisciplinary character of the LCD technology and its crucial importance for technological progress of the field far beyond displays. It also gives insights into breakthrough innovations not revealed in other publications. Moreover, prospects for the development of LC research toward new fields of applications are provided. In line with its interdisciplinary character, the book targets researchers in basic science as well as engineers and researchers in industry.

A Midsummer's Equation Keigo Higashino,2016-02-23 Manabu Yukawa, the physicist known as Detective Galileo, has traveled to Hariguara, a once-popular summer resort town that has fallen on hard times. He is there to speak at a conference on a planned underwater mining operation, which has sharply divided the town. One faction is against the proposed operation, concerned about the environmental impact on the area, known for its pristine waters. The other faction, seeing no future in the town as it is, believes its only hope lies in the development project. The night after the tense panel discussion, one of the resort's guests is found dead on the seashore at the base of the local cliffs. The local police at first believe it was a simple accident—that he wandered over the edge while walking on unfamiliar territory in the middle of the night. But when they discover that the victim was a former policeman and that the cause of death was carbon monoxide poisoning, they begin to suspect he was murdered, and his body tossed off the cliff to misdirect the police. As the police try to uncover where Tsukahara was killed and why, Yukawa finds himself enmeshed in yet another confounding case of murder. In a series of twists as complex and surprising as any in Higashino's brilliant, critically acclaimed work, Galileo uncovers the hidden relationship behind the tragic events that led to this murder.

The Foreign Critical Reputation of F. Scott Fitzgerald, 1980-2000 Linda C. Stanley,2004-10-30 This bibliography extends the work of Stanley's first volume, *The Foreign Critical Reputation of F. Scott Fitzgerald: An Analysis and Annotated Bibliography*, to the final two decades of the 20th century. It includes literature from the former countries of the USSR, Romania, India, and Canada, as well as countries that were covered in the first volume, such as Britain, France, Italy, Germany, and Japan. One of the major findings that emerges is that Fitzgerald's poetic prose is extremely difficult to translate, but new translations continue to appear. The introduction to this volume provides a synthesis of Fitzgerald scholarship abroad at the turn of the 21st century and points to new directions already suggested that may represent challenges to current scholarship. An extended analysis introduces each chapter. Each chapter also includes a chronological list of translations and editions of Fitzgerald's work from his earliest appearances in print to those appearing in 2000. The most substantial section of each chapter features fairly detailed annotations of monographs, collections, book chapters, essays, conference papers, articles, reviews, and school editions. This compilation will intrigue anyone interested the work of F. Scott Fitzgerald.

Jews & the Japanese Ben-Ami Shillony, 2012-01-24 Few peoples have drawn the 'us' and 'them' line so clearly and maintained it for so long. —From *The Jews and the Japanese* It is difficult to imagine two more widely different—almost incompatible—societies than those of the Jews and the Japanese: a people spread over the four corners of the world versus a people with an almost uninterrupted history of sovereignty in its own land: geographical heterogeneity versus linguistic and cultural homogeneity; a cosmopolitan experience versus an island mentality; strict religious and moral commandments versus group-based and aesthetically bound values. Yet, there are also surprising analogies between these two peoples. It is this extraordinary combination of similarities and differences that are explored. In *The Jews and the Japanese*, Professor Shillony describes how these two peoples, both rich in cultural heritage and historical experiences, have interacted with the Christian West, their outstanding achievements and immense tragedies, and their attempts to integrate with the West and its repeated rejection of them.

Going for Broke James M. McCaffrey, 2013-04-30 When Japanese forces attacked Pearl Harbor on December 7, 1941, Americans reacted with revulsion and horror. In the patriotic war fever that followed, thousands of volunteers—including Japanese Americans—rushed to military recruitment centers. Except for those in the Hawaii National Guard, who made up the 100th Infantry Battalion, the U.S. Army initially turned Japanese American prospects away. Then, as a result of anti-Japanese fearmongering on the West Coast, more than 100,000 Americans of Japanese descent were sent to confinement in inland “relocation centers.” Most were natural-born citizens, their only “crime” their ethnicity. After the army eventually decided it would admit the second-generation Japanese American (Nisei) volunteers, it complemented the 100th Infantry Battalion by creating the 442nd Regimental Combat Team. This mostly Japanese American

unit consisted of soldiers drafted before Pearl Harbor, volunteers from Hawaii, and even recruits from the relocation centers. In *Going for Broke*, historian James M. McCaffrey traces these men's experiences in World War II, from training to some of the deadliest combat in Europe. Weaving together the voices of numerous soldiers, McCaffrey tells of the men's frustrations and achievements on the U.S. mainland and abroad. Training in Mississippi, the recruits from Hawaii and the mainland have their first encounter with southern-style black-white segregation. Once in action, they helped push the Germans out of Italy and France. The 442nd would go on to become one of the most highly decorated units in the U.S. Army. McCaffrey's account makes clear that like other American soldiers in World War II, the Nisei relied on their personal determination, social values, and training to "go for broke"—to bet everything, even their lives. Ultimately, their bravery and patriotism in the face of prejudice advanced racial harmony and opportunities for Japanese Americans after the war.

Ubiquitination in Health and Diseases Tomoaki Ishigami, 2021-05-18 Ubiquitination is a biological process mediated by ubiquitin itself, the E1 ubiquitin-activating enzyme, E2 ubiquitin-conjugating enzyme, E3 ubiquitin ligase, and deubiquitinating enzyme, respectively. Currently, these multiple biological steps are revealed to participate in various life phenomena, such as cell proliferation, regulation of cell surface proteins expression, and mitochondrial function, which are profoundly related to human health and diseases.
