His Word is the Truth Jan van der Putten, 2001 'A schemer of the lowest sort' who undermined the Dutch cause, or 'a smart and diligent native' who was particularly useful for Dutch officials? They held extreme and incompatible opinions about Haji Ibrahim (ca. 1810 - ca. 1875), a jack-of-all-trades who, to the best of his abilities, tried to serve the various groups in power in Riau in the nineteenth century. One of his patrons was Hermann von de Wall, who had come to the heartland of the Malay world, where the language was still 'pure', to collect materials for his Malay-Dutch dictionary. Haji Ibrahim served him as one of his main informants. The letters he wrote to his patron form the centre of the present study: they are published with summaries of their content and introduced by chapters on Malay letterwriting and on the historical background of the published letters. Apart from a discussion in chapter 4 about his role in the political configuration in mid-nineteenth century Riau, where a Malay sultan, a Bugis viceroy and a Dutch resident each promoted their interests, Haji Ibrahim's talents in wielding his quill are discussed in the last chapter. This book is one of the few studies in which the background of a Malay writer is reconstructed. Haji Ibrahim is brought to the fore as a writer who began his career by writing dramatized reports for his superiors, and eventually acquired certain fame with a collection of conversations published in 1868 and 1872. In the oral-oriented Malay world of the nineteenth century, officials such as Haji Ibrahim may well be the initiators of a new literary tradition.

The Paper Hat Book Alyn Carlson, 2014-09-15 Hats are pure fun

and the perfect item to cap off any costume or ensemble. The right headgear ensures complete transformation, especially on the head of an imaginative child. The Paper Hat Book offers creative families 20 fantastic paper hats, all of which can be created quickly and easily from readily accessible papers: shopping bags, newspapers, comics, recycled story books, magazines, packaging scraps, and junk mail! Artist and designer Alyn Carlson creates hats that are perfect for birthday parties, playdates, costumes, and everyday dress up. Each hat can be styled to perfectly suit the wearer by merely selecting the right paper and colors. The hat themes range from Floral Flappers to Viking Warriors, and from superheroes and pirates to beautiful butterfly hats.

Suharto and His Generals David Jenkins,2010 In writing this monograph I have been guided by two separate but interrelated goals. The first has been to provide an historical-descriptive record of the challenge posed to President Suharto within the Armed Forces of the Republic of Indonesia (ABRI) during the period 1975-82 and the debate that developed over ABRI's role in society. Although this debate sprawled across the whole canvas of military involvement in society, it can be said to have focused essentially on two key issues. The first, which was debated with considerable vigor during the period 1977-80, involved ABRI's relations with other social-political groups in society, and in particular the political parties. The center of this debate was the contradiction between ABRI's claim to be above all groups in society and the reality of its continuing support for Golkar, the political grouping which held a majority of the seats in the DPR

(Parliament). Due largely to the intervention of the president, this debate was resolved in favor of the status quo and by 1980 it appeared unlikely that there would be any substantial changes during the remainder of the Suharto presidency. The second issue, which became of increasing importance after 1980, centered on the appointment of military officers to nonmilitary functions. There were in the mid-1970s more than 20,000 military men serving in a *kekaryaan* (nonmilitary, or functional) capacity, as ministers, ambassadors, parliamentarians, senior executives in government corporations, bankers, senior civil servants, university rectors, provincial governors, subdistrict heads, and even village headmen. Answerable to the chief of staff for functional affairs (Kaskar), they acted as reinforcing rods to ensure that the bureaucracy was responsive to the commands of those at the top—a role that was not unlike that of the Communist Party in many Communist states. In the view of the critics, ABRI's heavy involvement in *kekaryaan* activities, although understandable in terms of recent Indonesian history, was excessive and needed to be scaled back. On this front, some government concessions seemed possible, if only because the armed forces were short of manpower. Even so, any cutback in the *kekaryaan* ABRI was likely to be both slow and from the bottom up, with the commanding heights of the system remaining firmly in the hands of the military leaders.

Houdini's Paper Magic Harry Houdini, 2012-04-16 Is it true that a magician never reveals his secrets? In this rare 1922 gem, master illusionist Harry Houdini may not explain how to make an elephant disappear or how to perform fantastic acts of escape, but he does divulge dozens of terrific sleight-of-hand tricks and puzzles anyone can do with paper. Divided into four parts—paper tricks, paper

folding, paper tearing, and paper puzzles—Houdinis Paper Magic is an accessible and easy-to-follow guide to all sorts of tricks with paper. In addition to magic like “The Traveling Paper Balls” and “The Spirit Communication,” Houdini delves into traditional origami such as “The Japanese Bird” and “The Bullfrog.” He also shows how paper—torn carefully and properly—can produce elegant and intricate structures such as a ladder, a trellis, and a fir tree. Finally, he offers a number of paper puzzles that will challenge the mind. Houdinis Paper Magic is a wonderful glimpse back into the history of the art of magic and essential for anyone interested in learning tricks and techniques from one of magic’s greatest conjurers.

Observations, Illustrative of the Practical Operation and Real Effect of the Duties on Paper, Showing the Expediency of Their Reduction Or Repeal Observations, John Ramsay McCulloch, 1836

English Renaissance Manuscript Culture Steven W.

May, 2023-07-15 *English Renaissance Manuscript Culture: The Paper Revolution* traces the development of a new type of scribal culture in England that emerged early in the fourteenth century. The main medieval writing surfaces of parchment and wax tablets were augmented by a writing medium that was both lasting and cheap enough to be expendable. Writing was transformed from a near monopoly of professional scribes employed by the upper class to a practice ordinary citizens could afford. Personal correspondence,

business records, notebooks on all sorts of subjects, creative writing, and much more flourished at social levels where they had previously been excluded by the high cost of parchment. Steven W. May places literary manuscripts and in particular poetic anthologies in this larger scribal context, showing how its innovative features affected both authorship and readership. As this amateur scribal culture developed, the medieval professional culture expanded as well. Classes of documents formerly restricted to parchment often shifted over to paper, while entirely new classes of documents were added to the records of church and state as these institutions took advantage of relatively inexpensive paper. Paper stimulated original composition by making it possible to draft, revise, and rewrite works in this new, affordable medium. Amateur scribes were soon producing an enormous volume of manuscript works of all kinds—works they could afford to circulate in multiple copies. England's ever-increasing literate population developed an informal network that transmitted all kinds of texts from single sheets to book-length documents efficiently throughout the kingdom. The operation of restrictive coteries had little if any role in the mass circulation of manuscripts through this network. However, paper was cheap enough that manuscripts could also be readily disposed of (unlike expensive parchment). More than 90% of the output from this scribal tradition has been lost, a fact that tends to distort our understanding and interpretation of what has survived. May illustrates these conclusions with close analysis of representative manuscripts.

History of Humanity UNESCO, 2000-12-31 Volume IV deals with the 'Middle Ages'. It starts with the expansion of Islam and closes with

the discovery of the New World. Various events during this period led to a significant expansion in communications: the rapid spread of Islam and of Gengis Khan's Mongol Empire, as well as the Crusades and the development of trans-Saharan and maritime routes around Africa to the Indian Ocean, leading to multiplied exchanges between the peoples and cultures of Africa, Asia and Europe.
