Make and Takes for Kids Marie LeBaron,2011-11-30 50 seasonal projects to make with kids Highlighting the best of each month of the year, Make and Takes for Kids offers 50 projects to make with kids, each centered around an upcoming holiday or season. The ideas are unique and simple to produce, and each project is thoughtfully constructed and designed to create an ideal environment and setting for crafting. Each craft requires little preparation, few supplies, and almost everything can be readily found at home or at a local craft supply store. Crafting isn't just playtime; there's a purpose to all the gluing, cutting, and coloring. Children are learning hand-eye coordination, fine motor skills, problem solving, math, teamwork, and individual expression. They are exercising creativity and building their imaginations. Make and Takes for Kids highlights the learning objectives and skills that children will attain as they complete each craft. Parents learn the benefits of spending time to create and craft with their children, and see the growth and creativity that children can experience while crafting. 50 projects to make crafts and food with kids, from a Marshmallow Graham Cracker Snowman and Flower Garden Cupcakes to an Egg Carton Octopus and Rainbow Ring Bottle Toss Ten activities are included that can be crafted with recycled materials, making the crafts easy to produce as well as budget-friendly Projects demonstrate that you don't have to buy expensive supplies or make elaborate activities to have fun crafting and creating If you're a mom, teacher, or caregiver looking to enhance the time and quality spent with young children, Make and Takes For Kids makes it easy to have fun crafting with kids.

Project Kid Amanda Kingloff,2014-04-08 Perfect for crafty parents who are eager to get their kids excited about DIY, ProjectKid is everything you could want in a craft book: 100(!) stylish, inventive projects; step-by-step photographs; tips for the novice crafter; easy-to-follow instructions; and a fresh, modern look. What really sets these projects apart are the unexpected, ingenious ways Kingloff uses everyday objects and materials. (Did you ever think a body-wash bottle would make a perfect rocket ship?) And these are projects for things kids want to make—and keep—from a juice-box owl to a pirate ship to a curio cabinet for displaying all of their treasures, plus games, jewelry, and more. Also included in the book are basic crafting lessons (such as pom-pom making and weaving) to help children of all ages build a DIY arsenal, a handy guide to must-have tools and materials, and a source directory.

Project Kid: Crafts That Go! Amanda Kingloff,2016-09-06 Thomas the Tank Engine. Hot Wheels. Mike Mulligan and His Steam Shovel. Richard Scarry's Cars and Trucks and Things That Go. Kids' fascination with vehicles is insatiable. In Project Kid: Crafts That Go!, that excitement is translated into more than 60 inventive craft projects for parents to make with and for their children. The book is organized into seven chapters: City, Rails, Sky, Space, Water, Country, and Dirt. There are police cars and ice cream trucks; circus trains and submarines; helicopters, rocket ships, cement mixers, and school buses. And because the car-obsessed kid doesn't just want a new vehicle to play with—he wants a racetrack, his very own driver's license, maybe even a child-sized gas station—each chapter includes not only toys but also thematic clothing, decor, accessories, and more. Projects feature clear instructions and step-by-step photographs wherever they are needed, easy for both kids and non-crafty adults to understand.

Furthermore, most young children just want to be entertained throughout the hours of the day and are eager to learn anything they can. Now, you too can collaborate with your little one on art masterpieces and decorative crafts, as well as play educational games. Many of the arts and crafts projects will result in beautiful seasonal decorations to display in your home. Maker Camp Delanie Holton-Fessler,2021-02-23 Classic and innovative hands-on projects for kids ages 3 and up designed to teach both heritage skills and how to think creatively. Handcraft is part of human nature: we build, we create, we innovate. The 20+ projects in this book from an experienced art educator weave a story of human innovation and creativity, from the very beginnings of building shelters in the woods to tinkering with recycled materials. Heritage skills teach children how to be independent and capable makers; fiber and wood projects offer rewarding crafts that also teach planning, preparation, and safe risk taking; and tinkering activities connect the low-tech process of making and doing with innovation. From soap carving and knot tying to building toy cars and junk robots, this book brings the fun of making things with your hands to young kids and links skills of the past with the present. The book also explores how to set up a maker space and teaches foundational workshop practices that can easily be applied to the home studio. Each project offers extensions for different ages and abilities and provides guiding questions to enrich the experience for both the maker (teacher/parent) and the apprentice (child) to encourage and celebrate creative, practical play.
