**I Run** Line Mørkeby,2019-08-01 A new Danish play by Line Mørkeby shining a light on how we talk about death. A dad loses his six-year-old daughter to cancer, and his world falls apart. He doesn't know how to process the life-shattering void following her premature death. He starts running to deal with his loss. Only, he can't stop. He runs through the pain, the memories and the grief to try and find the point where he no longer runs, but soars – the point where he is close to her again. *I Run* is a fast-paced, explosive and moving one-man play about running, grief and missing someone we love. About how you survive the death of your child. Why do we find it so hard to talk about death?

**Dea Loher: Three Plays** Dea Loher,2014-01-31 Dea Loher is one of the most powerful and individual voices in German theatre today. This volume brings together three of her plays to be performed in English. *Olga's Room* Communist. Jew. Revolutionary. Lover. Mother. Olga Benario's story is a searing tale of survival as alongside her fellow prisoners she struggles to hold onto her disintegrating sense of self. Based on real events of the 1930s-40s, Dea Loher's gripping first play spans Brazilian revolution and Nazi dictatorship. *Innocence* A city by the sea. 14 people on the edge. Illegal immigrants afraid of being arrested for a good deed. A philosopher who burns her own books. A woman seeking forgiveness for crimes she didn't commit. A young married man who finds fulfilment laying out corpses. A blind stripper who spends her life being watched by men she cannot see. *Innocence* is a darkly comic panorama of urban restlessness. *Land Without Words* War meets art in this intimate parable. A painter seeks the perfect image, but in K., a Middle Eastern city, she experiences the effects of war, violence and poverty, impossible to depict. Now she is forced to confront her lifelong beliefs in the value of art, and how to deal with her position in the world today.

**Sons Without Fathers** Helena Kaut-Howson,2013-04-13 Too old to move with the times; too young to let go of their dreams Village school teacher Platonov is a man who is loved by women. Despite his best intentions he is drawn into a series of extra-marital affairs that all hold the promise of escape from the provincial Russian reality where he and his circle of friends are trapped. Consumed by bitterness and disappointment, they attempt to fill the void in their lives with sex and vodka, blaming their fathers for the mess they've been left in. *Sons Without Fathers* is a brand-new version of Chekhov's remarkable first play. Helena Kaut-Howson's version chooses to focus on just one of the many themes covered in the original text – the predicament of a disaffected generation left adrift in a world without hope. Updated to modern-day Russia, the play intertwines the central story with contemporary political issues.

**The Desai Trio and the Movie Industry of India** Nilu N. Gavankar,2011 This book explores the careers of three creative men whose artistic and technical work was essential to the success of leading films of the day in India. 1975); Sadanand Desai (1916 - 1985); and Mangesh Desai (1923 - 1985). First, it describes the contributions of three immensely important participants in the film industry. Second, it presents background information that sheds light on the conditions that facilitated the extraordinary upsurge of creative productivity among Indian filmmakers in the mid twentieth century. **Cocoa, Chocolate and Human Health** Sabine Ellinger,Benno F. Zimmermann,2020-05-23 This book entitled “Cocoa, Chocolate, and Human Health” presents the most recent findings about cocoa and health in 14 peer-reviewed chapters including nine original contributions and five reviews from cocoa experts around the world. Bioavailability and metabolism of the main cocoa polyphenols, i.e., the flavanols like epicatechin, are presented including metabolites like valerolactones that are formed by the gut microbiome. Many studies, including intervention studies or epidemiological observations, do not focus on single compounds, but on cocoa as a whole. This proves the effectiveness of cocoa as a functional food. A positive influence of cocoa on hearing problems, exercise performance, and metabolic syndrome is discussed with mixed results; the results about exercise performance are contradictory. Evidence shows that cocoa flavanols may modulate some risk factors related to metabolic syndrome such as hypertension and disorders in glucose and lipid metabolism. However, several cardiometabolic parameters in type 2 diabetics were not affected by a flavanol-rich cocoa powder as simultaneous treatment with pharmaceuticals might have negated the effect of cocoa. The putative health-promoting components of cocoa are altered during processing like fermentation, drying, and roasting of cocoa beans. Chocolate, the most popular cocoa product, shows remarkable losses in polyphenols and vitamin E during 18 months of storage.
