Storm George R. Stewart, 1974-09-12 Sweeping across the Pacific, a devastating storm wreaks havoc on San Francisco and the California coast and then moves relentlessly toward the Sierra Nevada, burying mountain passes and railroad tracks under tons of snow. First published in 1941, *Storm* presaged trends in literature and ecology that would appear decades later; an engrossing novel constructed by a master storyteller, it delineates an intricate web of humanity, wildlife, and landscape, all interacting in a drama that includes the weather itself in its cast of characters. Book jacket.

November's Fury Michael Schumacher, 2013-11-01 The ultimate story of man versus nature, *November's Fury* recounts the dramatic events that unfolded over four days in 1913 when a freshwater hurricane of epic proportions became the deadliest in Great Lakes maritime history. Michael Schumacher brings this violent storm to terrifying life, from its first stirrings through its slow-mounting destructive fury to its profound aftereffects, many still felt today.

The storm Alexander Nikolaievich Ostrovsky, 1907

What Stands in a Storm Kim Cross, 2016-03 Enter the eye of the storm in this gripping real-life thriller—*A Perfect Storm on land*—that chronicles America's biggest tornado outbreak since the beginning of recorded weather: a horrific three-day superstorm with 358 separate tornadoes touching down in twenty-one states and destroying entire towns. April 27, 2011 was the climax of a three-day superstorm that unleashed terror from

Arkansas to New York. Entire communities were flattened, whole neighborhoods erased. Tornadoes left scars across the land so wide they could be seen from space. But from terrible destruction emerged everyday heroes—neighbors and strangers who rescued each other from hell on earth.

“Armchair storm chasers will find much to savor in this grippingly detailed, real-time chronicle of nature gone awry” (Kirkus Reviews) set in Alabama, the heart of Dixie Alley where there are more tornado fatalities than anywhere else in the US. With powerful emotion and captivating detail, journalist Kim Cross expertly weaves together science and heartrending human stories. For some, it’s a story of survival; for others it’s the story of their last hours. Cross’s immersive reporting and dramatic storytelling catapult you to the center of the very worst hit areas, where thousands of ordinary people witnessed the sky falling around them. Yet from the disaster rises a redemptive message that’s just as real: in times of trouble, the things that tear our world apart reveal what holds us together.

The Hurricane of 1938 Aram Goudsouzian, 2004 A gripping description of New England's storm of the century.

Blizzard!! the Great White Hurricane Timothy Minnich, 2019-12-30 THE BLIZZARD OF 1888, legendary in the annals of American weather history, was among the most ferocious winter storms ever to pound the Northeast. Many hundreds of people perished on land and sea during its three-day reign of terror, including some 200 in New York City alone - ground-zero for this storm. In his

debut novel, Tim Minnich paints a vibrant New York City landscape in the weeks leading up to what has been coined The Great White Hurricane. Bound to fascinate weather enthusiasts, history buffs, and general readers alike, Minnich captures the suspense which culminates in this awesome display of nature, all while vividly depicting life in late Nineteenth Century Manhattan. On Sunday evening March 11th, the denizens of this great metropolis go to sleep completely unaware they'd be awakening to a howling blizzard. All except for young William Roebling, a brilliant meteorologist recently transferred to the New York Office of the US Army's fledgling Signal Service Corps - the agency responsible for the nation's first weather forecasts. Will has painstakingly developed an ingenious system allowing him to predict this historic event days in advance, but his unconvinced Commanding Officer, for political reasons, orders his silence. A conflicted Will feels he must alert his loved ones, and does - only to find himself in a battle for his life at the height of the storm. Minnich deftly combines the drama and excitement of the blizzard with its profound impact on those unfortunate enough to have been caught in its path, simultaneously weaving an engaging tale of true love, faith, and the indomitable human spirit.

Storms: Their Nature, Classification and Laws

William Blasius, 2024-01-31 Reprint of the original, first published in 1875.

The Great Hurricane, 1938 Cherie

Burns, 2007-12-01 "Before there was the Perfect Storm, there was the Great Hurricane of 1938. A riveting and wonderfully written account."
—Nathaniel Philbrick On the night of September 21, 1938, news on the radio was full of the invasion of Czechoslovakia. There was no mention of any severe weather. By the time oceanfront residents noticed an ominous color in the sky, it was too late to escape. In an age before warning systems and the ubiquity of television, this unprecedented storm caught the Northeast off guard, obliterated coastal communities on Long Island and in New England, and killed nearly seven hundred people. The Great Hurricane, 1938 is a spellbinding hour-by-hour reconstruction of one of the most destructive and powerful storms ever to hit the United States. With riveting detail, Burns weaves together countless personal stories of loved ones lost and lives changed forever—from those of the Moore family, washed to sea on a raft formerly their attic floor, to Katharine Hepburn, holed up in her Connecticut mansion, watching her car take to the air like a bit of paper. "A very good

book.” –The Washington Post

Category 5 Ernest Zebrowski, Judith A.

Howard, 2007-05-08 The epic story of the real victims of a perfect storm—overwhelmingly the poor—left behind in the aftermath of a deadly hurricane “A riveting new book.” –Tallahassee Democrat “Not simply an historical account of a storm thirty-seven years ago but a living, breathing entity brimming with the modern-day reality that, yes, it can happen again.” –American Meteorological Society Bulletin Fascinating, easy-to-read, yet informative.” –Richmond Times-Dispatch “Almost like sitting in front of the television watching the events unfold. A page-turner from the very first page.” –Ruston Morning Paper “There is much we can all learn from this relevant and highly engaging chronicle.” – Biloxi Sun Herald “A must-read for anyone who wants to take an emotional stroll through the rubble of these Gulf Coast fishing communities and learn what happened.” –Apalachicola Times “Should be required reading for anyone living in the path of these terrible storms.” –Moondance.org As the unsettled social and political weather of summer 1969 played itself out amid the heat of antiwar marches and the battle for civil rights, three regions of the rural South were devastated by the horrifying force of Category 5 Hurricane Camille. Camille’s nearly 200 mile per hour winds and 28-foot storm surge swept away thousands of homes and businesses along the Gulf Coast of Louisiana and Mississippi. Twenty-four oceangoing ships sank or were beached; six offshore drilling platforms

collapsed; 198 people drowned. Two days later, Camille dropped 108 billion tons of moisture drawn from the Gulf onto the rural communities of Nelson County, Virginia—nearly three feet of rain in 24 hours. Mountainsides were washed away; quiet brooks became raging torrents; homes and whole communities were simply washed off the face of the earth. In this gripping account, Ernest Zebrowski and Judith Howard tell the heroic story of America's forgotten rural underclass coping with immense adversity and inconceivable tragedy. Category 5 shows, through the riveting stories of Camille's victims and survivors, the disproportionate impact of natural disasters on the nation's poorest communities. It is, ultimately, a story of the lessons learned—and, in some cases, tragically unlearned—from that storm: hard lessons that were driven home once again in the awful wake of Hurricane Katrina. Ernest Zebrowski is founder of the doctoral program in science and math education at Southern University, a historically black university in Baton Rouge, Louisiana, and Professor of Physics at Pennsylvania State University's Pennsylvania College of Technology. His previous books include *Perils of a Restless Planet: Scientific Perspectives on Natural Disasters*. Judith Howard earned her Ph.D. in clinical social work from UCLA, and writes a regular political column for the Ruston, Louisiana, Morning Paper.

The Storm Aleksandr Nikolaevich Ostrovsky, 1899

Breach of Faith Jed Horne, 2006-07-11 Hurricane Katrina shredded one of the great cities of the South, and as levees failed and the federal relief effort proved lethally incompetent, a natural disaster became a man-made catastrophe. As an editor of New Orleans' daily newspaper, the Pulitzer Prize-winning Times-Picayune, Jed Horne has had a front-row seat to the unfolding drama of the city's collapse into chaos and its continuing struggle to survive. As the Big One bore down, New Orleanians rich and poor, black and white, lurched from giddy revelry to mandatory evacuation. The thousands who couldn't or wouldn't leave initially congratulated themselves on once again riding out the storm. But then the unimaginable happened: Within a day 80 percent of the city was under water. The rising tides chased horrified men and women into snake-filled attics and onto the roofs

of their houses. Heroes in swamp boats and helicopters braved wind and storm surge to bring survivors to dry ground. Mansions and shacks alike were swept away, and then a tidal wave of lawlessness inundated the Big Easy. Screams and gunshots echoed through the blacked-out Superdome. Police threw away their badges and joined in the looting. Corpses drifted in the streets for days, and buildings marinated for weeks in a witches' brew of toxic chemicals that, when the floodwaters finally were pumped out, had turned vast reaches of the city into a ghost town. Horne takes readers into the private worlds and inner thoughts of storm victims from all walks of life to weave a tapestry as intricate and vivid as the city itself. Politicians, thieves, nurses, urban visionaries, grieving mothers, entrepreneurs with an eye for quick profit at public expense—all of these lives collide in a chronicle that is harrowing, angry, and often slyly ironic. Even before stranded survivors had been plucked from their roofs, government officials embarked on a vicious blame game that further snarled the relief operation and bedeviled scientists striving to understand the massive levee failures and build New Orleans a foolproof flood defense. As Horne makes clear, this shameless politicization set the tone for the ongoing reconstruction effort, which has been haunted by racial and class tensions from the start. Katrina was a catastrophe deeply rooted in the politics and culture of the city that care forgot and of a nation that forgot to care. In *Breach of Faith*, Jed Horne has created a spellbinding epic of one of the worst disasters of

our time.
