Summary of Gene Kranz's Failure Is Not an Option Everest

Media,2022-04-04T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The human factor is what saves the crew of Apollo 13. It is what saves the crew of Apollo 13 when all the glittering technology seems useless. #2 I was excited to be at the Cape Canaveral launch site, as I had been assigned to NASA to help with the American space program. I was shocked to see that the base looked like any other military base. #3 I had never driven that fast on a military base in my life. I was thinking I had hitchhiked with a madman, or at least someone who had no concern about being pulled over by the Air Police for speeding and breaking every regulation in the book. #4 The first orbiting satellite, Sputnik, was a shock to American pride. The reverberations of that little sphere were far-reaching. It sparked a massive federal education funding program, and the creation of the National Aeronautics and Space Administration.

*What Stands in a Storm* Kim Cross, 2016-03 Enter the eye of the storm in this gripping real-life thriller—A Perfect Storm on land—that chronicles America’s biggest tornado outbreak since the beginning of recorded weather: a horrific three-day superstorm with 358 separate tornadoes touching down in twenty-one states and destroying entire towns. April 27, 2011 was the climax of a three-day superstorm that unleashed terror from Arkansas to New York. Entire communities were flattened, whole neighborhoods erased. Tornadoes left scars across the land so wide they could be seen from space. But from terrible destruction emerged everyday heroes—neighbors and strangers who rescued each other from hell on earth. “Armchair storm chasers will find much to savor in this grippingly detailed, real-time chronicle of nature gone awry” (Kirkus Reviews) set in Alabama, the heart of Dixie Alley where there are more tornado fatalities than anywhere else in the US. With powerful emotion and captivating detail, journalist Kim Cross expertly weaves together science and heartrending human stories. For some, it’s a story of survival; for others it’s the story of their last hours. Cross’s immersive reporting and dramatic storytelling catapult you to the center of the very worst hit areas, where thousands of ordinary people witnessed the sky falling around them. Yet from the disaster rises a redemptive message that’s just as real: in times of trouble, the things that tear our world apart reveal what holds us together.

**Weathering Storms** Larry G. Warkentin,2021-03-15 In the Crucible of Crisis. . . Weathering Storms is a book born out of the author's personal experience and his witness of the crisis experiences of others. Some have faced unimaginable stressors in life that seem meaningless and cruel. Consequently, one's psychology and theology may bend to the breaking point. Further to this, life's storms seem to amplify God's silence. Yet there is never a time when the Master of the wind and waves is more attentive. Weathering Storms probes these dynamics in depth. Your crisis experience will end. And when it does you will never be the same. But the person you become after arriving on the other side of the storm is reborn with new strength, insight, and wisdom. You will never want to go back to the person you once were, that is, if you walk the journey and weather the storm.

*Fifteen Hurricanes That Changed the Carolinas* Jay Barnes,2022-03-16 This informative and engaging book tells the true stories of the hurricanes that had the greatest impact on North Carolina and South Carolina, from the eighteenth century to the present day. Hurricane historian Jay Barnes offers an illuminating and compelling account

of the Carolinas' most recent storm disasters, Matthew and Florence, as well as thirteen other memorable hurricanes in the Tar Heel and Palmetto States, including Hazel, Hugo, Fran, and Floyd. In Barnes's hands, the examination of these powerful tropical cyclones leads to a broader view of the history of the Carolinas, revealing not only their terrifying and deadly consequences but also the perseverance of the region's people in the face of such extraordinary disasters. In recounting the rich hurricane history of the Carolinas, from the mountains to the coast, Barnes urges readers to consider the storms to come and profiles how a warming planet and rising seas will affect future Carolina hurricanes.

*Louisiana Voyages* Martha Reinhard Smallwood Field, 2006 Toward the end of the 19th century, journalist Field traveled by boat and buggy around Louisiana, writing columns under the name of Catharine Cole for the New Orleans Daily Picayune. Her work spread to

other papers, and she was read widely throughout the South. This collection details her journeys around the state in the 1890s. With evocative and adjective-filled prose, she describes the beauty as well as the practical aspects of Louisiana life, including shrimp drying, levee building, and the cost of land. Field conjures up vivid images of the places she visits, such as the town that lifts its comb of roof and gray gable and soft-colored adobe chimneys from out the clumps and clouds of the chinaberry tree. The editors, both retired professors of English at Clemson University, add brief introductions to each piece. Although Field's travel adventures depict a time without modern convenience, when women were not expected to journey alone, her enjoyment of travel for its own sake resonates with readers today. Recommended for Louisiana libraries and for academic libraries with a Southern history collection.-Janet Clapp, Athens-Clarke Cty.
