There's Something about a Rock Linda Kranz,2021-09-01 This homage to rock collecting, assembled by "rock artist" Linda Kranz, celebrates rocks in all their variety, shapes, and colors. Some even resemble pieces of modern art. Others offer a glimpse into the natural beauty that surrounds us. There are rocks that are rough to the touch, and others that are as smooth as glass. There are rocks inside rocks. You can even find rocks that are shaped like a heart. There are even rocks that cling to a magnet! This book will explain how to start a rock collection, and what you might do with them, such as identifying what kind of rocks they are or even painting on them or creating scenes with their shapes. The book also advises you where NOT to collect rocks, such as certain parks and natural areas. Regardless, this book will inspire the rock hound in all of us.

Toward Nationalism's End Adi Gordon,2017-07-04 This intellectual biography of Hans Kohn (1891-1971) looks at theories of nationalism in the twentieth century as articulated through the life and work of its leading scholar and activist. Hans Kohn was born in late nineteenth-century Prague, but

his peripatetic life took him from the Revolutionary-era Russia to interwar-era Palestine under the British Empire to the United States during the Cold War. Bearing witness to dramatic reconfigurations of national and political identities, he spearheaded an intellectual revolution that fundamentally challenged assumptions about the naturalness and the immutability of nationalism. Reconstructing Kohn's long and fascinating career, Gordon uncovers the multiple political and intellectual trends that intersected with and shaped his theories of nationalism. Throughout his life, Kohn was not simply a theorist but also a participant in multiple and often conflicting movements: Zionism and anti-Zionism, pacifism, liberalism, and military interventionism. His evolving theories thus drew from and reflected fierce debates about the nature of internationalism, imperialism, liberalism, collective security, and especially the Jewish Question. Kohn's scholarship was not an abstraction but a product of his lived experience as a Habsburg Jew, an erstwhile cultural Zionist, and an American Cold Warrior. As a product of the times, his concepts of nationalism reflected the changing world around him and evolved radically over his lifetime. His intellectual biography thus offers a panorama of the dynamic intellectual cornerstones of the twentieth century.

QF32 Richard de Crespigny,2012-08-01 QF32 is the award winning bestseller from Richard de Crespigny, author of the forthcoming Fly!: Life Lessons from the Cockpit of QF32 On 4 November 2010, a flight from Singapore to Sydney came within a knife edge of being one of the world's worst air disasters. Shortly after leaving Changi Airport, an explosion shattered Engine 2 of Qantas flight QF32 - an Airbus A380, the largest and most advanced passenger plane ever built. Hundreds of pieces of shrapnel ripped through the wing and fuselage, creating chaos as vital flight systems and back-ups were destroyed or degraded. In other hands, the plane might have been lost with all 469 people on board, but a supremely experienced flight crew, led by Captain Richard de Crespigny, managed to land the crippled aircraft and safely disembark the passengers after hours of nerve-racking effort. Tracing Richard's life and career up until that fateful flight, QF32 shows exactly what goes into the making of a top-level airline pilot, and the extraordinary skills and training needed to keep us safe in the air. Fascinating in its detail and vividly compelling in its narrative, QF32 is the riveting, blow-by-blow story of just what happens when things go badly wrong in the air, told by the captain himself.
