Malaysia and the European Union Christoph Marcinkowski,Constance Chevallier-Govers,Ruhanas Harun,2011 EU-Malaysian relations are all too often seen through the lens of economics and trade. Although this is legitimate, an extension of cooperation could also open up new avenues of collaboration and understanding between Europe and Asia. This book brings together manifold perspectives on economics, finance, trade, education, history, culture, gender, human rights, and multiculturalism - issues which are currently gaining in importance between Malaysia and the European Union. Teaching and Learning Online Franklin S. Allaire,Jennifer E. Killham,2023-01-01 Science is unique among the disciplines since it is inherently hands-on. However, the hands-on nature of science instruction also makes it uniquely challenging when teaching in virtual environments. How do we, as science teachers, deliver high-quality experiences to secondary students in an online environment that leads to age/grade-level appropriate science content knowledge and literacy, but also collaborative experiences in the inquiry process and the nature of science? The expansion of online environments for education poses logistical and pedagogical challenges for early childhood and elementary science teachers and early learners. Despite digital media becoming more available and ubiquitous and increases in online spaces for teaching and learning (Killham et al., 2014; Wong et al., 2018), PreK-12 teachers consistently report feeling underprepared or overwhelmed by online learning environments (Molnar et al., 2021; Seaman et al., 2018). This is coupled with persistent challenges related to elementary teachers’ lack of confidence and low science teaching self-efficacy (Brigido, Borrachero, Bermejo, & Mellado, 2013; Gunning & Mensah, 2011). Teaching and Learning Online: Science for Secondary Grade Levels comprises three distinct sections: Frameworks, Teacher’s Journeys, and Lesson Plans. Each section explores the current trends and the unique challenges facing secondary teachers and students when teaching and learning science in online environments. All three sections include alignment with Next Generation Science Standards, tips and advice from the authors, online resources, and discussion questions to foster individual reflection as well as small group/classwide discussion. Teacher’s Journeys and Lesson Plan sections use the 5E model (Bybee et al., 2006; Duran & Duran, 2004). Ideal for undergraduate teacher candidates, graduate students, teacher educators, classroom teachers, parents, and administrators, this book addresses why and how teachers use online environments to teach science content and work with elementary students through a research-based foundation.

(Dis)honesty in Management Tiia Vissak,Maaja Vadi,2013-06-25 This volume concentrates on different forms of honesty and dishonesty in management and their consequences for managers, firms and society. These issues are related to values and behavior patterns and thus, the basis of contemporary business.

American Jewish Year Book 2018 Arnold Dashefsky,Ira M. Sheskin,2019-03-14 The American Jewish Year Book, now in its 118th year, is the annual record of the North American Jewish communities and provides insight into their major trends. The first two chapters of Part I include a special forum on Contemporary American Jewry: Grounds for Optimism or Pessimism? with assessments from more than 20 experts in the field. The third chapter examines antisemitism in Contemporary America. Chapters on “The Domestic Arena” and “The International Arena” analyze the year’s events as they affect American Jewish communal and political affairs. Three chapters analyze the demography and geography of the US, Canada, and world Jewish populations. Part II provides lists of Jewish institutions, including federations, community centers, social service agencies, national organizations, synagogues, Hillels, day schools, camps, museums, and Israeli consulates. The final chapters present national and local Jewish periodicals and broadcast media; academic resources, including Jewish Studies programs, books, journals, articles, websites, and research libraries; and lists of major events in the past year, Jewish honorees, and obituaries. Today, as it has for over a century, the American Jewish Year Book remains the single most useful source of information and analysis on Jewish demography, social and political trends, culture, and religion. For anyone interested in Jewish life, it is simply indispensable. David Harris, CEO, American Jewish Committee (AJC), Edward and Sandra Meyer Office of the CEO The American Jewish Year Book stands as an unparalleled resource for scholars, policy makers, Jewish community professionals and thought leaders. This authoritative and comprehensive compendium of facts and figures, trends and key issues, observations and essays, is the essential guide to contemporary American Jewish life in all its dynamic multi-dimensionality. Christine Hayes, President, Association for Jewish Studies (AJS)and Robert F. and Patricia R. Weis Professor of Religious Studies in Classical Judaica at Yale University

Post Colonial Identities Ce, Chin,Smith, Charles,2014-04-03 Post Colonial Identities revisits issues regarding the newer literature within the expansive African heritage of diverse regional and national groupings. It is poised at substantiating the uniformity of Africa in terms of literary and cultural movements, and lending some inter-disciplinary insights on the whole body of literature through twentieth century history.

Geographic Information Science George Cho,2005-09-27 Spatial information users and providers are increasingly concerned about the legal implications relating to the use and dissemination of geographic information for which there are no right or wrong methods of practice, and no one source of information. This book fills the gap by addressing key issues in contract law, intellectual property law, rights and responsibilities and liability as they relate to the GI community. The first book to interpret the law relating to GI Science and outline its implications to a general readership Provides a comprehensive discourse in law and GI Science irrespective of jurisdiction Offers a global perspective throughout with case materials coming from the UK, North America, the EU and Australasia

Cancer Immunotherapy Principles and Practice Lisa H. Butterfield, PhD,Howard L. Kaufman, MD, FACS,Francesco M. Marincola, MD, FACS,2017-06-28 Cancer Immunotherapy Principles and Practice, from the Society of Immunotherapy of Cancer (SITC), is the authoritative reference on cancer immunobiology and the immunotherapy treatments that harness the immune system to combat malignant disease. Featuring five sections and over 50 chapters covering the Basic Principles of Tumor Immunology, Cancer Immunotherapy Targets and Classes, Immune Function in Cancer Patients, Disease Specific Treatments and Outcomes, and Regulatory Aspects of Cancer Immunotherapy, this book covers all major topics that have shaped the development of immunotherapy and propelled it to its current place at the forefront of cancer treatment innovation. This volume is a comprehensive resource for oncologists and fellows, immunologists, cancer researchers, and related practitioners seeking understanding of the basic science and clinical applications of cancer immunotherapy. As well as presenting the evidence for immune-based cancer treatment, it positions immunotherapy in the context of other available cancer treatments and provides data on response rates, risks, and toxicities across a variety of diseases. Filled with detailed tables, and instructive illustrations, as well as key points for quick reference, Cancer Immunotherapy Principles and Practice simplifies a challenging and dynamic subject. Key Features: Clearly

summarizes the basic principles and research supporting cancer immunotherapy clinical translation Contains expert guidance and treatment strategies for all immunotherapy classes and agents, including cell-based therapies, monoclonal antibodies, cytokine therapies, checkpoint inhibitors, oncolytic viruses, adjuvant approaches, and treatment combinations Includes expert perspectives from leading authorities in the field Provides information on all FDA-approved immunotherapies, including clinical management and outcome data Discusses clinical aspects of immunotherapy for individual cancer types, including melanoma and other skin cancers, lung cancers, gynecologic cancers, gastrointestinal cancers, hematologic cancers, genitourinary cancers, head and neck cancers, sarcomas, brain and other CNS cancers, breast cancer, and pediatric malignancies. Explains regulatory aspects behind the development and approval of immunotherapy drugs Includes Online Access to the Digital Book

Migration, Agency and Citizenship in Sex Trafficking R. Andrijasevic,2010-11-03 Providing a new perspective on migration and sex work in Europe, this book is based on interviews with migrant women in the sex sector. It brings together issues of migration, labour and political subjectivity in order to refocus scholarly and policy agenda away from sex slavery and organized crime, towards agency and citizenship.

Understanding Religious Conversion Lewis Ray Rambo,1993-01-01 Looking at a wide variety of religions, this work offers an exploration of religious conversion. The phenomena is approached from a variety of disciplines, including psychology, sociology, theology and anthropology.

Constitutional Faith Sanford Levinson,2011-09-11 The book is intended to make clearer the ambiguities of constitutional faith, i.e. wholehearted attachment to the Constitution as the center of one's (and ultimately the nation's) political life.--The introduction.

The Constitution of a Federal Commonwealth Nicholas Aroney,2009-02-19 This book describes how ideas about federalism influenced those who drafted the Australian Constitution.

Geographic Information Systems and the Law George Cho,1998-09-16 By the millennium most government departments and businesses will rely on some sort of GIS to conduct their everyday activities. The power and speed of such a tool in planning, research and managing spatial databases is invaluable. However, it is becoming increasingly apparent that the legal implications of GIS are as convoluted as those raised by the Internet. This is already becoming a field which is stretching legal systems around the world to their limit. Users, practitioners, developers, and custodians of data need a clear guide. This book, avoiding technological and legal jargon, clarifies the issues of the rights, limitations, and responsibilities of GIS. Geographic Information Systems and the Law addresses the legal relations between those who provide data and those who use the data. Areas covered include: * the legal regimes and economic aspects of GIS * contract law governing information technology * data and information in a digital age * legal liabilities -- damages, negligence, and standards of care * public access and ownership of information * privacy and security issues -- intellectual property and copyright * international law and the globalisation of information technology The analysis is illustrated by an international range of case material from the United Kingdom, the United States, Australia and New Zealand. Geography / Information Studies / Law

Financial Soundness Indicators International Monetary Fund,2006-04-04 Financial Soundness Indicators (FSIs) are measures that indicate the current financial health and soundness of a country's financial institutions, and their corporate and household counterparts. FSIs include both aggregated individual institution data and indicators that are representative of the markets in which the financial institutions operate. FSIs are calculated and disseminated for the purpose of supporting macroprudential analysis--the assessment and surveillance of the strengths and vulnerabilities of financial systems--with a view to strengthening financial stability and limiting the likelihood of financial crises. Financial Soundness Indicators: Compilation Guide is intended to give guidance on the concepts, sources, and compilation and dissemination techniques underlying FSIs; to encourage the use and cross-country comparison of these data; and, thereby, to support national and international surveillance of financial systems.

Sterling on World Copyright Law J. A. L. Sterling,2018 Sterling on World Copyright Law provides the most comprehensive analysis of copyright law and decided cases on a national, international, and regional level in a single volume. This accessible and carefully structured text covers the key principles of protection as well as giving guidance on the leading conventions and treaties, marking it out as a leading authority on the subject of copyright law.

Constitutional Redemption J. M. Balkin,2011-05-09 Political constitutions are compromises with injustice. What makes the U.S. Constitution legitimate is Americans' faith that the constitutional system can be made "a more perfect union." Balkin argues that the American constitutional project is based in hope and a narrative of shared redemption, and its destiny is still over the horizon.

Interpreting Constitutions Jeffrey Goldsworthy,2006-02-09 This book describes the constitutions of six major federations and how they have been interpreted by their highest courts, compares the interpretive methods and underlying principles that have guided the courts, and explores the reasons for major differences between these methods and principles. Among the interpretive methods discussed are textualism, purposivism, structuralism and originalism. Each of the six federations is the subject of a separate chapter written by a leading authority in the field: Jeffrey Goldsworthy (Australia), Peter Hogg (Canada), Donald Kommers (Germany), S.P. Sathe (India), Heinz Klug (South Africa), and Mark Tushnet (United States). Each chapter describes not only the interpretive methodology currently used by the courts, but the evolution of that methodology since the constitution was first enacted. The book also includes a concluding chapter which compares these methodologies, and attempts to explain variations by reference to different social, historical, institutional and political circumstances.

The Modern Law of Copyright and Designs Hugh Ian Lang Laddie, Peter Prescott, Mary Vitoria,2011 The volumes of this leading text have now been thoroughly revised and updated to bring them right up to date with current copyright and designs rights-related issues.
