Heightening Competition in the Postal and Delivery Sector Michael A. Crew, Paul R. Kleindorfer, 2010-01-01 This compilation of original essays by an international cast of top scholars addresses some of the major issues now facing postal and delivery services throughout the world. The European Commission and member states wrestle with the problem of how to implement the scheduled liberalization of these sectors and maintain the universal service obligation while the United States Postal Service is coming to terms with the Postal Accountability and Enhancement Act. The contributors analyze pressing issues such as access to infrastructure and service elements, changes in the national regulations of EU countries, forecasting mail volumes and the evolving market environment, issues surrounding universal service and others. Undergraduate and postgraduate students and researchers in regulation and public sector economics along with industry professionals will find this volume informative
