The View From the Seventh Layer Kevin Brockmeier, 2009-03-10 Peering into the often unnoticed corners of life, Kevin Brockmeier has been consistently praised for the originality of his vision, the boundlessness of his imagination and the command of his craft. Once again, in this new collection of fiction, Brockmeier shows us a fantastical world that is intimately familiar but somehow distant and beautiful. From the touching title story, where a young, antisocial woman imagines her escape into the sky with an apparition only she can see, to the haunting story of a pastor tempted by something less than divine, Brockmeier moves effortlessly from the extraordinary to the everyday, while challenging us to see the world anew. Stunning, elegant, profound, and playful, *The View from the Seventh Layer* cements Kevin Brockmeier's place as one of the most creative and compassionate writers of his generation.

The Occupation Thesaurus: A Writer's Guide to Jobs, Vocations, and Careers Becca Puglisi, Angela Ackerman, 2020-06-19 Compelling fiction starts with characters who have well-crafted layers that make them memorable, relatable, and fascinating. But trying to convey those layers often results in bulky descriptions that cause readers to skim. Occupations, though, can cover a lot of characterization ground, revealing personality traits, abilities, passions, and motivations. Dig deeper, and a career can hint at past trauma, fears, and even the character's efforts to run from—or make up for—the past. Select a job that packs a powerful punch. Inside *The Occupation Thesaurus*, you'll find: * Informative profiles on popular and unusual jobs to help you write them with authority * Believable conflict scenarios for each occupation, giving you unlimited possibilities for adding tension at the story and scene level * Advice for twisting the stereotypes often associated with these professions * Instruction on how to use jobs to characterize, support story structure, reinforce theme, and more * An in-depth study on how emotional wounds and basic human needs may influence a character's choice of occupation * A brainstorming tool to organize the various aspects of your character's personality so you can come up with the best careers for them Choose a profession for your character that brings more to the table than just a paycheck. With over 120 entries in a user-friendly format, *The Occupation Thesaurus* is an entire job fair for writers.

Story Genius Lisa Cron, 2016-08-09 Following on the heels of Lisa Cron's breakout first book, *Wired for Story*, this writing guide reveals how to use cognitive storytelling strategies to build a scene-by-scene blueprint for a riveting story. It's every novelist's greatest fear: pouring their blood, sweat, and tears into writing hundreds of pages only to realize that their story has no sense of urgency, no internal logic, and so is a page one rewrite. The prevailing wisdom in the writing community is that there are just two ways around this problem: pantsing (winging it) and plotting (focusing on the external plot). Story coach Lisa Cron has spent her career

discovering why these methods don't work and coming up with a powerful alternative, based on the science behind what our brains are wired to crave in every story we read (and it's not what you think). In *Story Genius* Cron takes you, step-by-step, through the creation of a novel from the first glimmer of an idea, to a complete multilayered blueprint—including fully realized scenes—that evolves into a first draft with the authority, richness, and command of a riveting sixth or seventh draft.

Handbook of Research on Transmedia Storytelling and Narrative Strategies Y?lmaz, Recep, Erdem, M. Nur, Resulo?lu, Filiz, 2018-07-06 Transmedia storytelling is defined as a process where integral elements of fiction get dispersed systematically across multiple delivery channels to create a unified and coordinated entertainment experience. The *Handbook of Research on Transmedia Storytelling and Narrative Strategies* is a critical scholarly resource that explores the connections between consumers of media content and information parts that come from multimedia platforms, as well as the concepts of narration and narrative styles. Featuring coverage on a wide range of topics such as augmented reality, digital society, and marketing strategies, this book explores narration as a method of relating to consumers. This book is ideal for advertising professionals, creative directors, academicians, scriptwriters, researchers, and upper-level graduate students seeking current research on narrative marketing strategies.

The Four Layers of Conflict Diana Hurwitz, 2017-05-22 Every scene should contain conflict. This advice led me on a journey to answer the question. The result is the Four Layer of Conflict method which takes writers from I have an idea to the actual nuts and bolts of I have the required scenes that all pull their weight. This method can help new writers complete their first novel and offers experienced writers another way of looking at structure. There is a difference between reading a story that is seamless and one full of plot holes. Tight structure can be the difference between taking your reader on a safe but forgettable ride and taking them on a journey they will never forget. Story lovers, no matter the genre or premise, prefer a well-constructed story. One thing this story addict knows for certain: Life is too short for bad fiction.

Stories of the Middle Space Deborah C. Bowen, 2010 Postmodernism's critics often accuse the movement of being dangerously amoral because of its apparent wariness of concepts such as truth, ethics, and justice. *Stories of the Middle Space* explores the possibility of postmodernism-with-a-conscience and examines a variety of British and Canadian postmodern fiction to show how twentieth-century critical theory can be brought into fruitful dialogue with a faith-based perspective. Highlighting the wide variety of ethical concerns considered by writers such as Timothy Findley, Thomas King, Carol Shields, Julian Barnes, A.S. Byatt, and Salman Rushdie, Deborah Bowen makes the case for a new category of postmodern realism and shows how contemporary stories about the real and the good are constructed. Applying theoretical insights from Emmanuel Levinas and Mikhail Bakhtin, Bowen investigates categories of postmodern realism such as magic realism, parody, and metafiction while laying the groundwork for Christian readings of a medium that is often perceived as largely irreligious. An illuminating study of well-known contemporary writers, *Stories of the Middle Space* is a critically nuanced and methodologically innovative work that reads the postmodern from a faith-based perspectives to create new literary insights. Deborah Bowen addresses the ethical concerns of a wide variety of postmodern fiction from a faith-based perspective that engages with the decentred discourses of post-structuralism. She suggests that a focus on the middle space between language and the world not only provides new insights into the construction of the real and the notion of a good story but also resituates the possibility of Christian reading in a largely post-Christian era--BOOK JACKET.

Modern American Short Story Sequences J. Gerald Kennedy, 1995-01-27 Originally published in 1995, this book gathers together eleven full-length essays on important American short story sequences of the twentieth century. The introduction by J. Gerald Kennedy elucidates problems of defining the genre, cites notable instances of the form (such as Sherwood Anderson's *Winesburg, Ohio*), and explores the implications of its modern emergence and popularity. Subsequent essays discuss illustrative works by such figures as Henry James, Jean Toomer, Ernest Hemingway, Richard Wright, William Faulkner, Eudora Welty, J. D. Salinger, John Cheever, John Updike, Louise Erdrich, and Raymond Carver. While examining distinctive thematic concerns, each essay also considers implications of form and arrangement in the construction of composite fictions that often produce the illusion of a fictive community.

The Situation and the Story Vivian Gornick,2002-10-11 A guide to the art of personal writing, by the author of Fierce Attachments and The End of the Novel of Love All narrative writing must pull from the raw material of life a tale that will shape experience, transform event, deliver a bit of wisdom. In a story or a novel the I who tells this tale can be, and often is, an unreliable narrator but in nonfiction the reader must always be persuaded that the narrator is speaking truth. How does one pull from one's own boring, agitated self the truth-speaker who will tell the story a personal narrative needs to tell? That is the question The Situation and the Story asks--and answers. Taking us on a reading tour of some of the best memoirs and essays of the past hundred years, Gornick traces the changing idea of self that has dominated the century, and demonstrates the enduring truth-speaker to be found in the work of writers as diverse as Edmund Gosse, Joan Didion, Oscar Wilde, James Baldwin, or Marguerite Duras. This book, which grew out of fifteen years teaching in MFA programs, is itself a model of the lucid intelligence that has made Gornick one of our most admired writers of nonfiction. In it, she teaches us to write by teaching us how to read: how to recognize truth when we hear it in the writing of others and in our own.

Fast Fiction Denise Jaden, 2014-01-15 Writers flock to National Novel Writing Month (NaNoWriMo) each November because it provides a procrastination-busting deadline. But only a fraction of the participants meet their goal. Denise Jaden was part of that fraction, writing first drafts of two subsequently published novels in that tight time frame. In *Fast Fiction*, she shows other writers how to do what she did, step-by-step, writer to writer. To ensure success, her program begins a month before the month of drafting. During this prep period writers think through plot, theme, characters, setting, etc. Then Jaden provides day-by-day coaching for the thirty-day drafting period. After writers “race to the finish,” they are not left high and dry. Jaden's “After the Draft” revision tips allow writers to determine if a draft is not just workable but compelling, so that they don't waste months or years developing it. Her camaraderie and skill allow Jaden to both instruct and inspire.

Story Harold Scheub, 1998-10-01 What is the essence of story? How does the storyteller convey meaning? Leading scholar Harold Scheub tackles these questions and more, demonstrating that the power of story lies in emotion. While others have focused on the importance of structure in the art of story, Scheub emphasizes emotion. He shows how an expert storyteller uses structural elements—image, rhythm, and narrative—to shape a story's fundamental emotional content. The storyteller uses traditional images, repetition, and linear narrative to move the audience past the story's surface of morals and ideas, and make connections to their past, present, and future. To guide the audience on this emotional journey is the storyteller's art. The traditional stories from South African, Xhosa, and San cultures included in the book lend persuasive support to Scheub's. These stories speak for themselves, demonstrating that a skilled performer can stir emotions despite the obstacles of space, time, and culture.
