**The First 20 Hours** Josh Kaufman, 2013-06-13 Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

**Learning How to Learn** Barbara Oakley, PhD, Terrence Sejnowski, PhD, Alistair McConville, 2018-08-07 A surprisingly simple way for students to master any subject—based on one of the world's most popular online courses and the bestselling book *A Mind for Numbers* *A Mind for Numbers* and its wildly popular online companion course *Learning How to Learn* have empowered more than two million learners of all ages from around the world to master subjects that they once struggled with. Fans often wish they'd discovered these learning strategies earlier and ask how they can help their kids master these skills as well. Now in this new book for kids and teens, the authors reveal how to make the most of time spent studying. We all have the tools to learn what might not seem to come naturally to us at first—the secret is to understand how the brain works so we can unlock its power. This book explains: • Why sometimes letting your mind wander is an important part of the learning process • How to avoid rut think in order to think outside the box • Why having a poor memory can be a good thing • The value of metaphors in developing understanding • A simple, yet powerful, way to stop procrastinating Filled with illustrations, application questions, and exercises, this book makes learning easy and fun.

**Make It Stick** Peter C. Brown, Henry L. Roediger III, Mark A. McDaniel, 2014-04-14 Discusses the best methods of learning, describing how rereading and rote repetition are counterproductive and how such techniques as self-testing, spaced retrieval, and finding additional layers of information in new material can enhance learning.

**Mindset** Carol S. Dweck, 2007-12-26 From the renowned psychologist who introduced the world to “growth mindset” comes this updated edition of the million-copy bestseller—featuring transformative insights into redefining success, building lifelong resilience, and supercharging self-improvement. “Through clever research studies and engaging writing, Dweck illuminates how our beliefs about our capabilities exert tremendous influence on how we learn and which paths we take in life.”—Bill Gates, *GatesNotes* “It's not always the people who start out the smartest who end up the smartest.” After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. Mindset reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced concept. She introduces a phenomenon she calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those you lead, teach, and love—to transform their lives and your own.

**Teach Your Child to Read in 100 Easy Lessons** Phyllis Haddox, Siegfried Engelmann, Elaine Bruner, 1986-06-15 A step-by-step program that shows parents, simply and clearly, how to teach their child to read in just 20 minutes a day.

**The Last Lecture** Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled *The Last Lecture*. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—*Really Achieving Your Childhood Dreams*—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

**99 Tips for Creating Simple and Sustainable Educational Videos** Karen Costa,2023-07-03 The research is clear: online learning works best when faculty build regular, positive, and interactive relationships with students. A strategy that helps forge such a relationship is the use of videos. Student satisfaction and course engagement levels also increase with the use of instructor-generated videos – the subject of this book. Beginning by outlining the different types of videos you can create, and what the research says about their effectiveness, Karen Costa explains how they can be designed to reinforce learning, to align with and promote course outcomes, and to save you time across your courses. She then describes how to create successful videos with commonly available technologies such as your smartphone, and without a major investment of time, demonstrating the simple steps she took to develop her bank of videos and build her confidence to deliver short, straightforward learning aids that are effective and personal. Embedded QR codes in the text enable you to view sample videos and screencasts that bring the book’s advice to life as you read. If you’ve been wanting to include videos in your teaching but haven’t found the time or confidence, this book will help you to develop a simple and sustainable video development process, supporting both your success and the success of your students.

**Be Kind** Pat Zietlow Miller,2018-02-06 When Tanisha spills grape juice all over her new dress, her classmate contemplates how to make her feel better and what it means to be kind. From asking the new girl to play to standing up for someone being bullied, this moving and thoughtful story explores what a child can do to be kind, and how each act, big or small, can make a difference—or at least help a friend. With award-winning author Pat Zietlow Miller's gentle text and Jen Hill's irresistible art, *Be Kind* is an unforgettable story about how two simple words can change the world.

**Peer Pedagogies on Digital Platforms** Michael Dezuanni,2020-09-22 How a popular entertainment genre on YouTube—Let's Play videos created by Minecraft players—offers opportunities for children to learn from their peers. Every day millions of children around the world watch video gameplay on YouTube in the form of a popular entertainment genre known as Let's Play videos. These videos, which present a player's gameplay and commentary, offer children opportunities for interaction and learning not available in traditional television viewing or solo video gameplay. In this book, Michael Dezuanni examines why Let's Play videos are so appealing to children, looking in particular at videos of Minecraft gameplay. He finds that a significant aspect of the popularity of these videos is the opportunity for knowledge and skill exchange. Focusing on Let's Play practices, the videos themselves, and fans' responses, Dezuanni argues that learning takes place through what he terms peer pedagogy—a type of nonhierarchical learning that is grounded in the personal relationships fans and players feel toward one another. Moreover, the Let's Play platform is part of a larger digital ecosystem that enables children to learn from one another in unique ways. Dezuanni explores how Let's Players enable learning opportunities, examining digital literacies, the Let's Play genre, and peer pedagogies. He then presents case studies of three successful family-friendly Let's Players of Minecraft: Stampylonghead, StacyPlays, and KarinaOMG, microcelebrities in a microindustry. Dezuanni analyzes the specific practices and characteristics of these players, paying particular attention to how they create opportunities for peer pedagogies to emerge.

**YouCue Feelings** Anna Vagin,2015-03-25 Feelings are an important part of relationships, yet students with social learning challenges (some with diagnoses such as Autism Spectrum, Social Communication Disorder or ADHD) often struggle understanding their own feelings as well as the feelings of others. *YouCue Feelings* uses the engaging material of online videos to make learning about feelings and relationships easy and fun. **How I Met My Monster** Amanda Noll,2019-11-03 One night, when Ethan reaches under his bed for a toy truck, he finds this note instead: Monsters! Meet here for final test. Ethan is sure his parents are trying to trick him into staying under the covers, until he sees five colorful sets of eyes blinking at him from beneath the bed. Soon, a colorful parade of quirky, squeaky little monsters compete to become Ethan's monster. But only the little green monster, Gabe, has the perfect blend of stomach-rumbling and snorting needed to get Ethan into bed and keep him there so he falls asleep—which as everyone knows, is the real reason for monsters under beds. With its perfect balance of giggles and shivers, this silly-spooky prequel to the award-winning *I Need My Monster* and *Hey, That's MY Monster!* will keep young readers entertained.

**Video in the Age of Digital Learning** Jonas Köster,2018-08-28 Although video is now ubiquitous in education, its full potential is oftentimes not fully understood, nor is it used to utmost potential. This timely volume seeks to address this gap by providing educators and instructional designers with a comprehensive and in-depth understanding of video production processes and methods for designing effective instructional videos. From its discussion of the significance of digital learning and impact of instructional video to its unique focus on the best design and production techniques that make video an effective teaching tool, this book offers applicable and tested strategies for creating quality instructional video. The accompanying website, which allows readers to see sample videos and access additional online resources, underscores the book’s practitioner focus. Among the topics covered: · Instructional videos for teaching and learning · Design and interactivity of instructional videos · Production, distribution, and integration of instructional videos · The future of instructional video *Video in the Age of Digital Learning* is an important, practical contribution to the scholarship exploring methods for sharing and acquiring knowledge in the digital age. It promises to be a valuable resource for educators, instructional designers, instructional media producers, and educational technology professionals.

**Video Research in the Learning Sciences** Ricki Goldman,Roy Pea,Brigid Barron,Sharon J. Derry,2014-05-01 *Video Research in the Learning Sciences* is a comprehensive exploration of key theoretical, methodological, and technological advances concerning uses of digital video-as-data in

the learning sciences as a way of knowing about learning, teaching, and educational processes. The aim of the contributors, a community of scholars using video in their own work, is to help usher in video scholarship and supportive technologies, and to mentor video scholars, so that video research will meet its maximum potential to contribute to the growing knowledge base about teaching and learning. This volume contributes deeply to both to the science of learning through in-depth video studies of human interaction in learning environments—whether classrooms or other contexts—and to the uses of video for creating descriptive, explanatory, or expository accounts of learning and teaching. It is designed around four themes—each with a cornerstone chapter that introduces and synthesizes the cluster of chapters related to it: Theoretical frameworks for video research; Video research on peer, family, and informal learning; Video research on classroom and teacher learning; and Video collaboratories and technological futures. Video Research in the Learning Sciences is intended for researchers, university faculty, teacher educators, and graduate students in education, and for anyone interested in how knowledge is expanded using video-based technologies for inquiries about learning and teaching. **Different--A Great Thing to Be!** Heather Avis,2021-06-29 NEW YORK TIMES BESTSELLER • This joyful rhyming book encourages children to value the “different” in all people, leading the way to a kinder world in which the differences in all of us are celebrated and embraced. Macy is a girl who’s a lot like you and me, but she's also quite different, which is a great thing to be. With kindness, grace, and bravery, Macy finds her place in the world, bringing beauty and laughter wherever she goes and leading others to find delight in the unique design of every person. Children are naturally aware of the differences they encounter at school, in their neighborhood, and in other everyday relationships. They just need to be given tools to understand and appreciate what makes us “different,” permission to ask questions about it, and eyes to see and celebrate it in themselves as well as in those around them.
