The Lords of the Savannah Christine Denis-Huot, Michel Denis-Huot, 2006 Leopards and cheetahs embody the wild beauty of Africa. In this spectacular photographic study, the husband-and-wife team of distinguished naturalists Christine and Michel Denis-Huot provides readers with a rare glimpse into the everyday lives of these compelling creatures. Their exceptional photography vividly brings to life the excitement of a young cheetah's first hunt, the languid relaxation of a leopard's midday nap, and the sheer strength and beauty of these glorious big cats in their natural habitat. The cheetah's legendary speed is documented in a series of exceptional photographs, while the leopard's notorious stealth can be felt in depictions of its sinuous descent from a perch high in a tree. Everyday activities such as courting, grooming, and caring for their young are captured in unprecedented close-ups. The gleaming fangs of a yawning leopard, the intensity of a pouncing cheetah, and the golden grasses of the savannah trampled by a herd of retreating zebra are just some of the evocative sights conveyed in *Lords of the Savannah*. The lively text provides the latest findings on the habits and habitats of leopards and cheetahs, and expresses the authors' admiration and affection for these animals.

The Ballad of Songbirds and Snakes (A Hunger Games Novel) Suzanne Collins,2020-05-19

Ambition will fuel him. Competition will drive him. But power has its price. It is the morning of the reaping that will kick off the tenth annual Hunger Games. In the Capitol, eighteen-year-old Coriolanus Snow is preparing for his one shot at glory as a mentor in the Games. The once-mighty house of Snow has fallen on hard times, its fate hanging on the slender chance that Coriolanus will be able to outcharm, outwit, and outmaneuver his fellow students to mentor the winning tribute. The odds are against him. He's been given the humiliating assignment of mentoring the female tribute from District 12, the lowest of the low. Their fates are now completely intertwined - every choice Coriolanus makes could lead to favor or failure, triumph or ruin. Inside the arena, it will be a fight to the death. Outside the arena, Coriolanus starts to feel for his doomed tribute . . . and must weigh his need to follow the rules against his desire to survive no matter what it takes.

The Lives of the Sophists Philostratus (the Athenian),1921 PHILOSTRATUS AND EUNAPIUS. (a)

Of the distinguished Lemnian family of Philostrati, Flavius Philostratus, 'the Athenian', was a Greek sophist (professor), c. A.D. 170-205, who studied at Athens and later lived in Rome. He was author of the admirable Life of Apollonius of Tyana (Loeb Nos. 16 and 17) and Lives of the Sophists (which are really impressions of investigators alert but less fond of scientific method and discovery than of stylish presentation or things known), one part concerning some older, the other some later 'provessors'. Other extant works of this Philostratus are Letters and Gymnasticus, but the Heroicus or Heroica is apparently by another Philostratus, and the Eikones (Imagines, skilful descriptions of pictures, Loeb No. 256) were probably by two Philostrati, one being the son of Nervianus and born c. A.D. 190, the other his grandson who wrote c. AD. 300. (b) The Greek Sophist and historian Eunapius was born at Sardis in A.D. 347, but went to Athens to study and lived much of his life there teaching rhetoric and possibly medicine. He was initiated into the 'mysteries' and was hostile to Christians. Lost is his historical work (covering the years A.D. 270-404) but for excerpts and the use of it made by Zosimmus, but we have his Lives of Philosophers and Sophists mainly contemporary with himself. Eunapius is our only source of our knowledge of Neo-Platonism in the latter part of the fourth century A.D.

India's Ad Hoc Arsenal Chris Smith,1994 Chris Smith explores the evolution of Indian defence policy since 1947. He looks carefully at the domestic dynamics of Indian defence policy. This includes

an in-depth analysis of the period 1947-62, which is often ignored by Indian defence analysts, and the performance of the defence industrial base. He concludes that India's defence policy is designed more as one aspect of the quest for great power status than as an attempt to acquire security at an affordable price.

Numismata Hellenica: a Catalogue of Greek Coins William Martin Leake, 1854

Guide to Greece Pausanias, 1984-08-07 The second volume of the time-honored travel book about Greece, written 2,000 years ago Written by a Greek traveller in the second century ad for a principally Roman audience, Pausanias' Guide to Greece is a comprehensive, extraordinarily literate and well-informed guidebook for tourists of the age. Concentrating on buildings, tombs and statues, it also describes in detail the myths, religious beliefs and historical background behind the monuments considered. In doing so, it preserves Greek legends, quotes classical literature and poetry that would otherwise have been lost, and offers a fascinating depiction of the glory of classical Greece immediately before its third-century decline. This, the second of two volumes, explores Southern Greece including Sparta, Arkadia, Bassae and the games at Olympia. An inspiration to travellers and writers across the ages, including Byron and Shelley, it remains one of the most influential of all travel books. For more than seventy years, Penguin has been the leading publisher of classic literature in the

English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

The Chicago Homer Ahuvia Kahane, Martin Mueller, Craig Berryman, Bill Parod, 2000-09-01

Richimond Lattimore's elegant and exceptionally faithful line-by-line translations of the Iliad and the Odyssey introduced these classics to a new audience of English readers. Now The Chicago Homer presents an easily searchable, web-accessible database of Homer in the original and in Lattimore's translations. The Greek texts of the Homeric Hymns and the poems of Hesiod are also included, along with English translations by Daryl Hine, providing students and scholars with unparalleled access to the whole of Early Greek epic. In addition to providing Greek and English texts in an interlinear display, The Chicago Homer gives complete information (tense, mood, voice, case, gender, and number) on the morphology of each Greek word. Invaluable for students learning Greek, this information is also important to researchers investigating the frequency or distribution of grammatical phenomena; only The Chicago Homer provides these data in readily searchable electronic form. But the most distinctive feature of The Chicago Homer is its ability to analyze and display the wealth of repeated phrases -- such as rosy-fingered dawn and swift-footed Achilles -- that are considered to be the hallmark of Homeric poetry. For the first time in any medium, The Chicago Homer presents a complete index of all repeated phrases in Early Greek epic. These phrases may be sorted by a number of criteria, including length, frequency, who spoke them, and the words they contain. Most impor

Bringing Fossils to Life Donald R. Prothero, 2013-11-05

One of the leading textbooks in its field, Bringing Fossils to Life applies paleobiological principles to the fossil record while detailing the evolutionary history of major plant and animal phyla. It incorporates current research from biology, ecology, and population genetics, bridging the gap between purely theoretical paleobiological textbooks and those that describe only invertebrate paleobiology and that emphasize cataloguing live organisms instead of dead objects. For this third edition Donald R. Prothero has revised the art and research throughout, expanding the coverage of invertebrates and adding a discussion of new methodologies and a chapter on the origin and early evolution of life.

Seeing with Different Eyes Patrick Curry, Angela Voss

, 2009-05-05 Seeing with Different Eyes: Essays in Astrology and Divination represents the cutting-edge of contemporary thought and research on divination. The thirteen authors come from a variety of academic disciplines, ranging from anthropology and classics to English literature and religious studies, and all address the question of divination, astrology and oracles in a spirit of critical but sympathetic inquiry. The emphasis is on a participatory and reflexive approach which is firmly post-positivist, seeking to understand the divinatory act on its own terms within widely varying contexts – ancient Greek and Chaldean philosophy and theurgy, Theravada Buddhism, Biblical studies, Elizabethan Hermeticism, Jacobean drama, Heideggerian philosophy, Medieval scholasticism, 19th century occultism, contemporary Guatemalan divination and Western medical practice. The authors are all

teachers or researchers in the area of divination and symbolism, which is a new disciplinary focus developing at the University of Kent, Canterbury under the aegis of the MA programme in the Cultural Study of Cosmology and Divination. The essays in this volume originally contributed to an international conference of the same name held there in April 2006.
