Recollections of Sir George B. L'Estrange Sir George B. L'Estrange, 2012-05-01 Sir George L'Estrange was only an ensign when he started on his Peninsular career in the 31st or Huntingdonshire Regiment of Foot, joining the war in 1812. Arriving in Portugal and meeting with his cousin, who had escaped from French capture at Verdun, Sir George recounts his cousin's story before returning to his own narrative and his first major engagement at the battle of Vittoria in 1813. His experiences of the fighting after Vittoria until the end of the war make up the majority of the book: encompassing snow-bound bivouacs in the Pyrenees; hard fighting at Orthez; and his trials at the forefront of the fighting. The finale details various anecdotes that he must have heard from brother officers whilst on duty in Spain and Portugal. A solid memoir with much to recommend it to the reader. Author — Sir George B. L'Estrange (1796-1878)

**Hurricane Sandy on New Jersey's Forgotten Shore**

Abigail Perkiss, 2022-07-15 Hurricane Sandy on New Jersey's Forgotten Shore brings to life the individual and collective voices of a community: victims, volunteers, and state and federal agencies that came together to rebuild the Bayshore after the Superstorm Sandy in 2013. After the tumultuous night of October 29, 2012, the residents of Monmouth, Ocean, and Atlantic Counties faced an enormous and pressing question: What to do? The stories captured in this book encompass their answer to that question: the clean-up efforts, the work with governmental and non-governmental aid agencies, and the fraught choices

concerning rebuilding. Through a rich and varied set of oral histories that provide perspective on disaster planning, response, and recovery in New Jersey, Abigail Perkiss captures the experience of these individuals caught in between short-term preparedness initiatives that municipal and state governments undertook and the long-term planning decisions that created the conditions for catastrophic property damage. Through these stories, Hurricane Sandy on New Jersey's Forgotten Shore lays bare the ways that climate change and sea level rise are creating critical vulnerabilities in the most densely populated areas in the nation, illuminating the human toll of disaster and the human capacity for resilience.

**Roger L'Estrange and the Making of Restoration**

**Culture** Beth Lynch, 2017-03-02 Roger L'Estrange (1616-1704) was one of the most remarkable, significant and colourful figures in seventeenth-century England. Whilst there has been regular, if often cursory, scholarly interest in his activities as Licenser and Stuart apologist, this is the first sustained book-length study of the man for almost a century. L'Estrange's engagement on the Royalist side during the Civil war, and his energetic pamphleteering for the return of the King in the months preceding the Restoration earned him a reputation as one of the most radical royalist apologists. As Licenser for the Press under Charles II, he was charged with preventing the printing and publication of dissenting writings; his additional role as Surveyor of the Press authorised him to search the premises of printers and booksellers on the mere suspicion of such activity. He was also a

tireless pamphleteer, journalist, and controversialist in the conformist cause, all of which made him the bête noire of Whigs and non-conformists. This collection of essays by leading scholars of the period highlights the instrumental role L'Estrange played in the shaping of the political, literary, and print cultures of the Restoration period. Taking an interdisciplinary approach the volume covers all the major aspects of his career, as well as situating them in their broader historical and literary context. By examining his career in this way the book offers insights that will prove of worth to political, social, religious and cultural historians, as well as those interested in seventeenth-century literary and book history.
