Behind the Scenes of the Limousine Industry Raul Perales,2017-10-18 Whether you are an owner operator or an in-house chauffeur, working in the limousine industry does have its pros or cons. Whether it's bribing the dispatchers somehow or receiving hush gratuity, limo chauffeurs tend to survive financially one way or the other even though the special black cars or taxis are in every major city in the United States and around the world. These new transportation companies are now

the new competitors against the global limousine industry. Pricewise or servicewise, the transportation consumer will make his or her own choice.

Russian Motor Vehicles Maurice A. Kelly, 2011-04-15 A book concerning Russian Limousines, and the Chinese models that were initially derived from them, has never been attempted before. This book investigates the whole story of why the Soviet Communist Party required such a bourgeois product, and how production was subsequently achieved. Following the orders of Stalin, work on the Limousines commenced during the first Five Year Plan (1927-1933) at the Putilov Works, late the Kirov Zavod, where the Leningrad L-1 was made in a limited number. From these beginnings, the Moscow and Gorky models emerged, and later the Chinese-derived types made with Russian aid during the late 1950s. Covering all of these models, up to the last one produced in 2003, and featuring full specifications translated from the relevant primary sources in Russian and Chinese literature, this is a meticulous and unique account of a previously neglected subject.
