**Lines** Tim Ingold, 2016-04-14 What do walking, weaving, observing, storytelling, singing, drawing and writing have in common? The answer is that they all proceed along lines. In this extraordinary book Tim Ingold imagines a world in which everyone and everything consists of interwoven or interconnected lines and lays the foundations for a completely new discipline: the anthropological archaeology of the line. Ingold's argument leads us through the music of Ancient Greece and contemporary Japan, Siberian labyrinths and Roman roads, Chinese calligraphy and the printed alphabet, weaving a path between antiquity and the present. Drawing on a multitude of disciplines including archaeology, classical studies, art history, linguistics, psychology, musicology, philosophy and many others, and including more than seventy illustrations, this book takes us on an exhilarating intellectual journey that will change the way we look at the world and how we go about in it. This Routledge Classics edition includes a new preface by the author.

**Entre Líneas** Laura Martin, 1987

**La Linea** Ann Jaramillo, 2008-07-22 The mata gente. The people killer. An ordinary freight train. And the only way North without paying a peso.

**Painting with Words, Writing with Pictures** Franco Ricci, 2001-01-01 Ricci's book ranges widely over Calvino's oeuvre to illustrate the accuracy of the idea articulated by Calvino himself that a visual image lies at the origin of all his narrative. The book's main theme is the difficult interface between word and image that Calvino struggled with throughout his career, the act of perception that rendered visible that which was invisible and transformed what was seen into what is read. Ricci holds that Calvino's narrative has an 'imagocentric' program and that his literary strategy is 'ekphrastic' i.e. it is characterized by literary description of visual representation, real or imaginary. The book is interdisciplinary in nature and will interest not only scholars of literature but also those who work with the visual arts and with information technology.

**Interface between Literature and Science** Victoria Carpenter, 2015-05-13 The boundaries of science and literature are permeable; they are continuously crossed and illuminated by a variety of narrative forms and their interpretations. Changes in our perception of the world are informed in equal measure by scientific and humanistic disciplines. This volume treats both literary and scientific texts as products of the human mind, therefore abiding by all the rules it creates, scientific and humanistic alike. The volume does not propose to replace all literary or discourse analysis with a cross-disciplinary science-based approach, but, rather, uses this theoretical stance when more conventional means fail to explain (or even explore) the intricacies of a text. It argues that scientific discourse can also be analysed through the prism of literary theories, since all texts are governed in varying measure by the unity of contexts that characterize their nature, the process of their creation, and their place in the cognitive realm of humanity. This approach will allow the nature and limitations of scientific research to be questioned, while opening up more venues to explore scientific creativity that crosses the subject boundaries of science and humanities. Latin American literature offers many examples of the interconnection between literary and scientific discourse. Notwithstanding the often explored relationship between Jorge Luis Borges's literary themes and contemporary scientific discoveries, a more general question should be asked: is the influence of scientific thought a privilege of the select few or is it indeed an all-pervading experience in Latin American literary narrative from late modernism to present day? This book explores the texts that overtly incorporate scientific content or are structured in such a way that immediately reminds the reader of a scientific phenomenon; it will also examine the texts that are presented in such a way that a conventional literary analysis does not help penetrate the many narrative layers that the text comprises. The volume offers cross-disciplinary readings of such authors as Jorge Luis Borges, Gabriel García Márquez, Ernesto Sábato and Gustavo Sainz, to name but a few.

**The Burden of Modernity** Carlos J. Alonso, 1998-09-24 This book offers a provocative interpretation of cultural discourse in Spanish America. Alonso argues that Spanish American cultural production constituted itself through commitment to what he calls the narrative of futurity, that is, the uncompromising adoption of modernity. This commitment fueled a rhetorical crisis that followed the

embracing of discourses regarded as modern in historical and economic circumstance that are themselves the negation of modernity. Through fresh readings of texts by Sarmiento, Mansilla, Quiroga, Vargas Llosa, Garcia Marquez, and others, Alonso tracks this textual dynamic in works from the nineteenth century to the present.

**Arbitrary Lines** M. Nolan Gray, 2022-06-21 It's time for America to move beyond zoning, argues city planner M. Nolan Gray in *Arbitrary Lines: How Zoning Broke the American City and How to Fix It*. With lively explanations, Gray shows why zoning abolition is a necessary--if not sufficient--condition for building more affordable, vibrant, equitable, and sustainable cities. Gray lays the groundwork for this ambitious cause by clearing up common misconceptions about how American cities regulate growth and examining four contemporary critiques of zoning (its role in increasing housing costs, restricting growth in our most productive cities, institutionalizing racial and economic segregation, and mandating sprawl). He sets out some of the efforts currently underway to reform zoning and charts how land-use regulation might work in the post-zoning American city. *Arbitrary Lines* is an invitation to rethink the rules that will continue to shape American life--where we may live or work, who we may encounter, how we may travel. If the task seems daunting, the good news is that we have nowhere to go but up

The Jesus Creed for Students Scot McKnight, 2011-05-01 FIRST came the bestselling book. Then the popular blog. Now essential Christian formation for anyone between 16 and 22. The gravity point of a life before God is that his followers are to love God and love others with everything they have. Scot McKnight calls this The Jesus Creed. Now, he's worked it out with high school and college students, seeking to show how this double commandment to love makes sense and gives shape to the moral lives of young adults. The Jesus Creed for Students aims to demonstrate a simple truth - that followers of Jesus, follow Jesus. (Also, its practical, filled with stories, and backed up and checked by youth pastors.)

**Carmen Martín Gaité** Ester Bautista Botello, 2019-01-09 This book reconstructs the poetics of Carmen Martín Gaité by viewing the concept of journey as a fundamental principle upon which she bases and elaborates her narrative writing of the 1990s. Five novels published in this period receive critical attention, all of which coincide with the last trips taken by the writer to New York: *Caperucita en Manhattan* (1990), *Nubosidad variable* (1992), *La reina de las nieves* (1994), *Lo raro es vivir* (1996) and *Irse de casa* (1998). To the extent that the journey is the essence of the narrative under consideration, the concept is analysed as an aesthetic practice and an attempt to identify a series of actions, which allow us to link the writer's novels with two areas that have previously received only scant critical scrutiny: geography and the visual dimension. This book presents a comparative and interdisciplinary analysis of space in Martín Gaité's narrative as well as in her collages, drawings and paintings.

**Polychronicon Ranulphi Higden, Monachi Cestrensis** Ranulf Higden, 2012-11-15 This fourteenth-century chronicle, published in nine volumes between 1865 and 1886, is particularly important for its contemporary sections.

Líneas Tim Ingold, ¿En qué se parecen caminar, tejer, observar, narrar, cantar, dibujar y escribir? La respuesta es que, de uno u otro modo, todo lo anterior se lleva a cabo a través de líneas. Visto así, la Historia entera es una línea, compuesta por pequeñas líneas. En este libro Tim Ingold imagina un mundo en el que todos y todo se compone de líneas entrelazadas o in-terconectadas y sienta las bases de una nueva disciplina: la ar-queología antropológica de la línea. El argumento de Ingold nos lleva a través de la música de la antigua Grecia y del Japón contemporáneo, por laberintos de Siberia y vías ro-manas, por la caligrafía china y el alfabeto impreso, tejiendo un camino entre la antigüedad y el presente. Ingold revela cómo nuestra percepción de las líneas ha cambiado en el tiempo, con la modernidad antes de convertirse en recta, la línea es un conjunto de puntos, pero el mundo posmoderno la rompe y fragmenta para estudiarla mejor. Tim Ingold utiliza para su estudio muchas disciplinas, como la Arqueología, Estudios Clásicos, Historia del Arte, la Lingüística, la Psicología, la Musicología, la Filosofía y muchos otros. Este libro nos lleva por un viaje intelectual estimulante que

va a cambiar la manera en que vemos el mundo y la forma en que vamos por el mismo.

The Latin American Short Story at its Limits Lucy Bell, 2017-07-05 The Latin American short story has often been viewed in terms of its relation to orality, tradition and myth. But this desire to celebrate the difference of Latin American culture unwittingly contributes to its exoticization, failing to do justice to its richness, complexity and contemporaneity. By re-reading and re-viewing the short stories of Juan Rulfo, Julio Cortázar and Augusto Monterroso, Bell reveals the hybridity of this genre. It is at once rooted in traditional narrative and fragmented by modern experience; its residual qualities are revived through emergent forms. Crucially, its oral and mythical characteristics are compounded with the formal traits of modern, emerging media: photography, cinema, telephony, journalism, and cartoon art.

### **Place and Displacement in the Narrative Worlds of Jorge Luis Borges and Julio Cortázar**

Nataly Tcherepashenets, 2008 Place and Displacement in the Narrative Worlds of Jorge Luis Borges and Julio Cortázar engages the notions of place and displacement as heuristic devices for literary analysis of Borges's and Cortázar's narratives. It maps out these authors' visions of place and displacement in some of their most famous texts; locates the 'place' of Borges's texts within Cortázar's fictional universe; and delineates new routes in communication between different literary traditions, and philosophical and anthropological discourses. This book also suggests that the challenge of a strict opposition between place and displacement in Borges's and Cortázar's works is both representative and emblematic of a continuum of Latin American literature.

*War Stories* James D. Keyser, David Kaiser, 2023-05-12 Plains Indian biographic rock art can be "read" by those knowledgeable in its lexicon. Presented is a lexicon of imagery, conventions, and symbols used by Plains Indians to communicate their warfare and social narratives. The reader is introduced to Plains Indian "warrior" art in all media, biographic art as picture writing is explained, and the lexicon is described, providing a pictographic "dictionary," and explains conventions and connotations. Finally, it illustrates four key examples of how these narratives are read by the observer. Familiarity with the lexicon will enable interested scholars and laypersons to understand what are otherwise enigmatic rock art drawings found from Calgary, Alberta through ten U.S. states, and into the Mexican state of Coahuila.
