One Step Closer Jeff Blue,2020-12-08 From the unique perspective of the executive who discovered them, One Step Closer reveals how Brad Delson's college internship was a catalyst for a group of young musical visionaries, led by Mike Shinoda, which gave rise to a band that survived countless rejections, exceeded everyone's expectations but their own, and became the voice of a generation. This against-all-odds story chronicles the early days of Linkin Park, from their first demo and Whisky a Go Go performance as Xero, through their tireless efforts to perfect their iconic sound and the discovery of Chester Bennington. Jeff Blue was there when no one else believed—first as their publisher, then as their A&R guy. This is his memoir of that incredible journey. Riveting and inspiring, One Step Closer is a testament to perseverance, as well as a detailed behind-the-scenes account of the building of a dream and what it takes to make it.

Creative Business in Australia Lisa Andersen,Paul Ashton,Lisa Colley,2015 As the largest ever Australian government investment in creative industries development, the Creative Industries Innovation Centre delivered tailored business services to more than 1500 creative businesses from 2009 to 2015 and provided industry intelligence and advice for public policy and peak sectoral activity. This collection gives an overview of the current 'state of business' in Australia's creative industries – both as an industry sector in its own right and as an enabling sector and skills set for other industries – and reflects on business needs, creative industries policy and support services for the sector. With

contributions from the Centre's team of senior business advisers and from leading Australian researchers who worked closely with the Centre –including experts on design-led innovation and the creative economy – and case studies of leading Australia creative businesses, the book is intended as an industry-relevant contribution to business development and public policy. Content links to the publicly accessible Creative Industries Innovation Centre Collection Archive at the UTS Library, which holds material from Centre's activities over its six years of operation.

All of Me Anne Murray, Michael Posner, 2009-10-27 In this revealing autobiography, Canada's first lady of song, for the first time, tells the whole story of her astonishing 40-year career in show biz. It is a candid retrospective of the extraordinary success achieved, and the prices that had to be paid. "After 'Snowbird' hit, I was swept up like Dorothy in The Wizard of Oz, and catapulted into a strange new universe ... If I thought for a moment that I was really in control of events, I was deluded." Anne Murray An unflinching self-portrait of Canada's first great female recording artist, *All of Me* documents the life of Anne Murray, from her humble origins in the tragedy-plagued coal-mining town of Springhill, Nova Scotia, to her arrival on the world stage. Anne recounts her story: the battles with her record companies over singles and albums; the struggle with drug- and alcohol-ridden band members; the terrible guilt and loneliness of being away from her two young children; her divorce from the man who helped launch her career, Bill Langstroth; and the deaths of two of her closest confidantes. The result is a must-read autobiography by Canada's beloved songbird.

First Language Attrition Monika S. Schmid, Barbara Köpke, Merel Keijzer, Lina Weilemar, 2004-08-26 This volume provides a state-of-the-art treatment of research on language attrition, the non-pathological loss of a language through lack of exposure. It combines a review of past and present research with in-depth treatments of specific theoretical and methodological issues and reports on individual studies. Special prominence is given to the identification of problematic areas in attrition research, with a view to pointing out possible solutions. The book specifically addresses itself to those who wish to acquaint themselves with the research area of language attrition, providing them with both a thorough overview of the field and a basis on which to build their own research. The combination of experience and an innovative outlook present in this collection, however, make it a valuable source for those familiar with attrition as well. Especially useful to both beginners and veterans is the extensive annotated bibliography.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct

of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
