Historia y futuro del desarrollo turístico y portuario del litoral en Manzanillo, Colima José Luis Ezquerro de la Colina, 2006 Historic and current architecture, planning and development of the tourist port of Manzanillo, Mexico.

Caracas Litoral, Venezuela Richard Plunz, Mojdeh Baratloo, Michael Conard, 2005 Caracas Litoral, Venezuela looks at the challenges, obstacles, and opportunities facing the reconstruction of coastal communities near Caracas, after mudslides devastated these areas in December 1999. Already in the midst of informal land development, affluent weekend residents from Caracas had awkwardly occupied this dramatic and precarious strip of coastland between the Gulf of Mexico and the Avila Mountain--also shared with the national airport and second largest seaport. In a city where most of the urban population lives in informal housing, the contested nature of redevelopment--emergent social, economic, and cultural patterns confronting traditional patterns of settlement--could easily be predicted. Fully bilingual, in English and Spanish, this book explores opportunities that unite the various constituencies through innovative programming, sustainable geological/hydrological infrastructure, and economically viable housing and commercial development.

Implications of the COVID-19 Pandemic and the Russia-Ukraine Crisis on the Agricultural Sector Martinho, Vítor João Pereira Domingues, 2023-04-24 The agricultural sector has undergone significant changes in response to both the COVID-19 pandemic and the Russia-Ukraine turmoil. These changes have significantly affected markets and distribution chains due to lockdowns and rising energy prices within the global food production economy. Some of these issues stemmed from a lack of available labor due to pandemic shutdowns, a lowered demand for certain commodities, and the Ukraine regional crisis has led to a 25% decrease in agricultural production and output. A thorough evaluation of the real impacts of these events is necessary to identify the main factors and provide concepts for future adjustments that may create a more resilient agriculture industry. *Implications of the COVID-19 Pandemic and the Russia-Ukraine Crisis on the Agricultural Sector* offers a novel and valuable contribution to the scientific community by examining the true effects of compounded crises on the global agricultural sector. The author, Vítor João Pereira Domingues Martinho, draws on over 20 years of experience in agriculture and economics, with expertise in areas such as agricultural policy, European Union food markets, and more. This book is an ideal resource for students, professors, researchers, farmers, and policymakers from national and international organizations. Its methodologies and insights provide crucial information for stakeholders seeking to understand the implications of these crises on the agricultural sector.

Brazilian Beach Systems Andrew D. Short, Antonio Henrique da F.

Klein,2016-07-19 This book is about the more than 4,000 beach systems that form most of the 9000 km long Brazilian coast. It focuses on the beaches of each of the seventeen coastal states and three oceanic islands, their nature, morphodynamics and status. It is a must for anyone who wants to know more about this great coast and its beach systems. This is the first book ever written about the beach systems of Brazil, and actually the very first about the beaches of an entire country. The Brazilian coast extends from the mighty Amazon River and its muddy shores in the north to one of the world's longest sandy beaches in the southern Rio Grande do Sul. It contains every beach type from wave to tide-dominated which range in size from small embayed beaches to long barrier beaches. The book is written by leading Brazilian academics and researchers and aims at the university level market, as well as coastal scientists, engineers and managers. Standard scientific terminology is used to describe the coast and its beaches. It is illustrated with more than 400 original figures and serves as a benchmark text on the Brazilian coast.
