Epochal barbering that shears away an era of life! Mother has saved one lock from the ruin. Sweetest years are locked away with that curl in mothers drawer. First Day of School Coal wagons are beginning to crunch the gravel driveways. They still use horses to haul coal in our town. The roar of anthracite down the shute draws all the children on the street. The coal man takes the ice mans place in their interest. The ice mans boy has gone back to school. Next week hell be in football armor and his customers children will cheer him as their hero. Signs of Fall Im not pounding her head. Im just patting it. Der, der, dont cry, ittle baby. Cant I just rub it? Why hasnt she got any eye winkers? Wont she get dirt in her eyes? What does she chew the air that way for? I guess shes hungry New Baby 0, Dad, put it in the paper that Stewie found a snake. Ill tell you how to write it. Stewie Downs picked up a snake on the street where he lives an swunged it round his head an then he threw it away. Gee I most ran right into it on my tryke. I thought it was a piece of rope or somethin. Know Somethin Do you love me? How much, a bushel? Do you love Grammy a bushel too? How much do you love Mummy? Do you love the baby a bushel? How much do you love Tip? Just as much as the baby? Mummy only loves Tip half as much as the baby. She loves the baby and me the same and you and Grammy the same. I asked her if she didnt love Tip as much as the baby and she said no hes only a puppy. Poor old Tippy. I love Tippy two bushels and the baby two bushels and you three bushels and Mummy four bushels. To Go To School Or To Be Sick? But this coldness in greeting the expected Spring is broken down at supper: We played a marble game this afternoon, begins the first grade member. What was the game? encourages his mother. Keeps. Then philosophic crunching of his toast. Dad, will you buy me some more marbles? Catalogs Come Boys have to be nagged now about rubbers and coats. But the season is especially hard on dogs. While the ground is muddy the best-bred canine is persona non grata in kitchen or entry, but he cannot yet dig to bury bones and so his bones litter the yard to be confiscated by neat housewife or reluctant husband. Mud Season Editors Preface The roaring twenties were in full swing in Boston while my grandfather, Louis M. Lyons, was a reporter for The Boston Globe. After running down the big city stories of the day, he would take the 5:20 PM train north out of Boston to Reading where he would enter the family home on 24 Vale Road and greet those eagerly awaiting his daily return to being Dad.

Lifelong Machine Learning Zhiyuan Chaudhri,Bing Liu,2016-11-07 Lifelong Machine Learning (or Lifelong Learning) is an advanced machine learning paradigm that learns continuously, accumulates the knowledge learned in previous tasks, and uses it to help future learning. In the process, the learner becomes more and more knowledgeable and effective at learning. This learning ability is one of the hallmarks of human intelligence. However, the current dominant machine learning paradigm learns in isolation: given a training dataset, it runs a machine learning algorithm on the dataset to produce a model. It makes no attempt to retain the learned knowledge and use it in future learning. Although this isolated learning paradigm has been very successful, it requires a large number of training examples, and is only suitable for well-defined and narrow tasks. In comparison, we humans can learn effectively with a few examples because we have accumulated so much knowledge in the past which enables us to learn with little data or effort. Lifelong learning aims to achieve this capability. As statistical machine learning matures, it is time to make a major effort to break the isolated learning tradition and to study lifelong learning to bring machine learning to new heights. Applications such as intelligent assistants, chatbots, and physical robots that interact with humans and systems in real-life environments are also calling for such lifelong learning capabilities. Without the ability to accumulate the learned knowledge and use it to learn more knowledge incrementally, a system will probably never be truly intelligent. This book serves as an introductory text and survey to lifelong learning.

The Logic of Essentialism P. Thom, 2012-12-06 Aristotle's modal syllogistic has been an object of study ever since the time of Theophrastus; but these studies (apart from an intense flowering in the Middle Ages) have been somewhat desultory. Remarkably, in the 1990s several new lines of research have appeared, with series of original publications by Fred Johnson, Richard Patterson and Ulrich Nortmann. Johnson presented for the first time a formal semantics adequate to a de re reading of the apodeictic syllogistic; this was based on a simple intuition linking the modal syllogistic to Aristotelian metaphysics. Nortmann developed an ingenious de dicto analysis. Patterson articulated the links (both theoretical and genetic) between the modal syllogistic and the metaphysics, using an analysis which strictly speaking is neither de re nor de dicto. My own studies in this field date from 1976, when my colleague Peter Roeper and I jointly wrote a paper Aristotle's apodeictic syllogisms for the XXIInd History of Logic Conference in Krakow. This paper contained the disjunctive reading of particular affirmative apodeictic propositions, which I still favour. Nonetheless, I did not consider that paper's results decisive or comprehensive enough to publish, and my 1981 book *The Syllogism* contained no treatment of the modal syllogism. The paper's ideas lay dormant till 1989, when I read Johnson's and Patterson's initial articles. I began publishing on the topic in 1991. Gradually my thoughts acquired a certain comprehensiveness and systematicity, till in 1993 I was able to take a semester's sabbatical to write up a draft of this book.
