Curious and unable to resist, Nathan accepts her offer, keeping his true identity a secret, never dreaming of what the future held for him. She was desperate... Moira is set on finding Charles now that she has come into her inheritance. With her new-found wealth and independence, she is determined to locate her betrothed so they may finally marry. With Nathan as her guide, she feels confident in the path before her. But when their arrangement forces them closer together, she finds her chosen path may not be as clear as she thought.

*Bethel: or, a forme for families: in which all sorts, of both sexes are so squared, and framed by the word of God, as they may best serve in their severall places, for usefull pieces in God's building* Matthew GRIFFITH (D.D.),1633

Take a Girl Like You Kingsley Amis,2015-04-28 Take a Girl Like You may well be Kingsley Amis's most ambitious reckoning with the serious subject at the heart of his work: the sheer squalor—emotional, material, sexual, you name it—of modern life. It also introduces one of the rare unqualified good guys in Amis's rogue-ridden world: Jenny Bunn, a girl from the (English) north country come south to teach school in a small smug town where she hopes to find love and fortune. Jenny is a beauty and men and women are crazy about her, most of all handsome Patrick Standish, who Jenny also likes. But Jenny and Patrick live in a world where it's becoming ridiculously difficult—disastrously difficult—to sort out the claims of sex and the claims of love.

*Out of Sorts* Sarah Bessey,2015-11-03 From the popular blogger and provocative author of *Jesus Feminist* comes a riveting new study of Christianity that helps you wrestle with—and sort out—your faith. In *Out of Sorts*, Sarah Bessey—award-winning blogger and author of *Jesus Feminist*, which was hailed as “lucid, compelling, and beautifully written” (Frank Viola, author of *God's Favorite Place on Earth*)—helps us grapple with core Christian issues using a mixture of beautiful storytelling and biblical teaching, a style well described as “narrative theology.” As she candidly shares her wrestlings with core issues—such as who Jesus is, what place the Church has in our lives, how to disagree yet remain within a community, and how to love the Bible for what it is rather than what we want it to be—she teaches us how to walk courageously through our own tough questions. In the process of gently helping us sort things out, Bessey teaches us how to be as comfortable with uncertainty as we are with solid answers. And as we learn to hold questions in one hand and answers in the other, we discover new depths of faith that will remain secure even through the storms of life.

*I Am You* Daniel Kolak,2007-11-03 Borders enclose and separate us. We assign to them tremendous significance. Along them we draw supposedly uncrossable boundaries within which we believe our individual identities begin and end, erecting the metaphysical dividing walls that enclose each one of us into numerically identical, numerically distinct, entities: persons. Do the borders between us - physical, psychological, neurological, causal, spatial, temporal, etc. - merit the metaphysical significance ordinarily accorded them? The central thesis of *I Am You* is that our borders do not signify boundaries between persons. We are all the same person. Variations on this heretical theme have been voiced periodically throughout the ages (the Upanishads, Averroës, Giordano Bruno, Josiah Royce, Schrödinger, Fred Hoyle, Freeman Dyson). In presenting his arguments, the author relies on detailed analyses of recent formal work on personal identity, especially that of Derek Parfit, Sydney Shoemaker, Robert Nozick, David Wiggins, Daniel C. Dennett and Thomas Nagel, while incorporating the views of Descartes, Leibniz, Wittgenstein, Schopenhauer, Kant, Husserl and Brouwer. His development of the implied moral theory is inspired by, and draws on, Rawls, Sidgwick, Kant and again Parfit. The traditional, commonsense view that we are each a separate person numerically identical to ourselves over time, i.e., that personal identity is closed under known individuating and identifying borders - what the author calls Closed Individualism - is shown to be incoherent. The demonstration that personal identity is not closed but open points collectively in one of two new directions: either there are no continuously existing, self-identical persons over time in the sense ordinarily understood - the sort of view developed by philosophers as diverse as Buddha, Hume and most recently Derek Parfit, what the author calls Empty Individualism - or else you are everyone, i.e., personal identity is not closed under known individuating and identifying borders, what the author calls Open Individualism. In making his case, the author: - offers a new explanation both of consciousness and of self-consciousness - constructs a new theory of Self - explains psychopathologies (e.g. multiple personality disorder, schizophrenia) - shows Open Individualism to be the best competing explanation of who we are - provides the metaphysical foundations for global ethics. The book is intended for philosophers and the philosophically inclined - physicists, mathematicians, psychiatrists, psychologists, linguists, computer scientists, economists, and communication theorists. It is accessible to graduate students and advanced undergraduates.

*New Philosophical Essays on Love and Loving* Simon Cushing,2021-09-20 New philosophical essays on love by a diverse group of international scholars. Topics include contributions to the ongoing debate on whether love is arational or if there are reasons for love, and if so what kind; the kinds of love there may be (between humans and artificial intelligences, between non-human animals and humans); whether love can explain the difference between nationalism and patriotism; whether love is an necessary component of truly seeing others and the world; whether love, like free will, is “fragile,” and may not survive in a deterministic world; and whether or not love is actually a good thing or may instead be a force opposed to morality. Key philosophers discussed include Immanuel Kant, Iris Murdoch, Bernard Williams, Harry Frankfurt, J. David Velleman, Niko Kolodny, Thomas Hurka, Bennett Helm, Alfred Mele and Derk Pereboom. Essays also touch on the treatment of love in literature and popular culture, from Graham Greene's *The End of the Affair* to Spike Jonze's movie *Her*.
