RAJA LAHIANI

- 🔍 CHILDREN OF THE LUMINARIES Julia Cole,2014-07-22 Book I: The Coming Storm launches the saga of The Oracle and her mentor Demetrius as they set out on an adventure of a life time. Their mission... to stop the Dark Lord Dagon from finding the Ultimate Power and becoming supreme ruler of all worlds.
- 🔍 THE LUMINARIES Eleanor Catton,2013-10-15 The winner of the Man Booker Prize, this expertly written, perfectly constructed bestseller (The Guardian) is now a Starz miniseries. It is 1866, and Walter Moody has come to stake his claim in New Zealand’s booming gold rush. On the stormy night of his arrival, he stumbles across a tense gathering of 12 local men who have met in secret to discuss a series of unexplained events: a wealthy man has vanished, a prostitute has tried to end her life, and an enormous cache of gold has been discovered in the home of a luckless drunk. Moody is soon drawn into a network of fates and fortunes that is as complex and exquisitely ornate as the night sky. Richly evoking a mid-nineteenth-century world of shipping, banking, and gold rush boom and bust, The Luminaries is at once a fiendishly clever ghost story, a gripping page-turner, and a thrilling novelistic achievement. It richly confirms that Eleanor Catton is one of the brightest stars in the international literary firmament.
- 🔍 THE STORM BEFORE THE CALM George Friedman,2020-02-25 *One of Bloomberg’s Best Books of the Year* The master geopolitical forecaster and New York Times bestselling author of The Next 100 Years focuses on the United States, predicting how the 2020s will bring dramatic upheaval and reshaping of American government, foreign policy, economics, and culture. In his riveting new book, noted forecaster and bestselling author George Friedman turns to the future of the United States. Examining the clear cycles through which the United States has developed, upheaved, matured, and solidified, Friedman breaks down the coming years and decades in thrilling detail. American history must be viewed in cycles—particularly, an eighty-year institutional cycle that has defined us (there are three such examples—the Revolutionary War/founding, the Civil War, and World War II), and a fifty-year socio-economic cycle that has seen the formation of the industrial classes, baby boomers, and the middle classes. These two major cycles are both converging on the late 2020s—a time in which many of these foundations will change. The United States will have to endure upheaval and possible conflict, but also, ultimately, increased strength, stability, and power in the world. Friedman’s analysis is detailed and fascinating, and covers issues such as the size and scope of the federal government, the future of marriage and the social contract, shifts in corporate structures, and new cultural trends that will react to longer life expectancies. This new book is both provocative and entertaining.
- 🔍 THE TYRANT OF HADES Colin Kapp,2012-12-21 Smoothly, remorselessly, inhumanly, the controlled flow of people continued. As each of the great planetary shells approached population maximum, the surplus of mass of humanity was transported out: Mars shell, Asteroid, Jupiter. Inexorably they filled the space made ready for them by Zeus, the master-minding intelligence. Jupiter shell, Saturn, Uranus... But at Uranus shell the ordered, ever-outward flow stopped and the pressure of the countless billions had pushed the shell to the very edge of catastrophic breakdown. Beyond Uranus lay ready Neptune shell. Zeus-designed, Zeus-built but no longer Zeus-controlled. Another giant intelligence had usurped all power, was refusing to operate the system that alone gave any future to Solaria. And so it was that Maq Ancor, Master Assassin, Magician Cherry and Sine Anura became the eyes of Zeus as they journeyed to the place where all systems failed, where chaos and the Tyrant of Hades ruled.

- 🔍 EASTERN LUMINARIES DISCLOSED TO WESTERN EYES Raja Lahiani,2008 This book studies and evaluates the different translations of the Mu’allaqat, seven canonical pre-Islamic odes, from Arabic into English and French. First, it introduces the Mu’allaqat and the chief controversies related to their study in both Eastern and Western scholarship. It then presents the translators of the Mu’allaqat and their translations and closes with two typologies of the translations and translators presented. A number of criteria for the evaluation of translations of poetry are developed. The book provides a comparative study of the English and French translations of the Mu’allaqat with a focus on a number of communicative priorities in the source text, based on stylistic devices that require a sound awareness of the culture of pre-Islamic Arabia, the main setting of the Mu’allaqat. The author assesses the reliability of the criteria of evaluation and the translatability of the Mu’allaqat as a text that is remote from its translators in time, in place, and with respect to literary tradition.
