We Visit Kenya John Bankston, 2012-09-30 For many, Kenya is a place of wild animals and safaris. It is also the place where the first people on the planet stood upright. From those early humans, tribes developed based on what the land provided. There were cattle herders and farmers, merchants and fishermen. From Portuguese invasions to British colonialism, Kenya was a challenged place. Today it still is. But it is also a country of modern cities and villagers who live as they did hundreds of years ago. It is a place of coastal resorts and the second-largest mountain in Africa. And it is a place where visitors can experience adventures unavailable anywhere else.

We Visit Ethiopia John Bankston, 2012-10-30 The Ethiopian landscape features high mountains and the Central Highlands region with some of the best weather in the world. Coffee was first discovered in Ethiopia; its native grain teff is a nutritious meal all by itself. One of the oldest countries on Earth, Ethiopia has made its way into the Koran, and both Testaments of the Bible. While most of Africa was being colonized by Europeans, Ethiopia was the rare exception. Although modern Ethiopia faces many challenges, its history and resources offer hope for a bright future.

Redo Cardiac Surgery in Adults V.R. Machiraju, Hartzell V. Schaff, Lars G. Svensson, 2011-12-02 Redo cardiac surgeries are challenging cases with a myriad of influential factors, ranging from the patient's pathology to the whimsy of the previous surgeon. *Redo Cardiac Surgery in Adults*, 2nd Edition clearly outlines practical approaches, surgical techniques, and management of associated conditions such as

perioperative stroke and acute kidney function. It covers the spectrum of redo cardiac operations, including coronary artery bypass, mitral valve repair, reoperation for prosthetic mitral valve endocarditis, aortic arch reoperation, descending and thoracoabdominal aortic reoperation, and reoperations following endovascular aortic repair. All redo cardiac surgeries present a complex array of challenges beyond what the original procedure demands. This book, written by an outstanding group of prominent physicians, will give the reader the knowledge and tools to approach these cases with confidence.

Dr. Nicholas Romanov's Pose Method of Running Nicholas S. Romanov,2002 Running barefoot isn't as natural as we're led to believe. Recent studies have shown that up to 85% of runners get injured every year, how natural is that? The most important question that running barefoot or naturally doesn't address is how we should run. Repetitive ground impact forces are at the root of most running injuries. A 30 minute jog can log more than 5,000 foot strikes; its because of this volume of movement that efficient
