Clubs, Drugs & Canapes Nick Valentine,2013-10-17 Armed with a bottle of Milk Thistle and unshakeable optimism, Nick Valentine has spent most of his adult life in fifth gear, betting on a Royal Flush while covertly holding a pair of deuces. This is his story, the odyssey of a suburban bloke who has blagged, lucked and laughed his way into just about every party, club, stage and hot-tub imaginable. Following his first brush with celebrity at an impressionable age, and spending his teens and twenties as, amongst other things, a journalist, publicist, club promoter, musician and DJ, Nick eventually banked in the shallows of party central. He spent 15 years as a social editor on London's celebrity canapé circuit, while co-founding the Entertainment News press agency. An enterprising period acting as a social PR to the super-rich led to him co-founding three London nightclubs in quick succession, including the much lauded Cuckoo Club. With the West End as his nocturnal playground, he then bid sleep a final fond farewell. Nick professes to have attended well over 5,000 parties in his time, drunk enough champagne to test the Thames barrier and occasionally made it home in time for Countdown. 'I'm a night person,' he says. 'The trouble is I'm a morning and afternoon person as well.' This account is a surprisingly touching, light-hearted look at the daily mechanics of enjoying life to the max and then some.

The Storm Daniel Defoe,1704

Sudden Sea R. A. Scotti,2008-12-14 The massive destruction wreaked by the Hurricane of 1938 dwarfed that of the Chicago Fire, the San Francisco Earthquake, and the Mississippi floods of 1927, making the storm the worst natural disaster in U.S. history. Now, R.A. Scotti tells the story.

The Perfect Storm Sebastian Junger,1997 A true story of men against the sea.

A Collar Well Worn Rev. Paul F. McDonald, 2017-04-29 *A Collar Well Worn* is the work of a ninety-year-old Catholic priest who spent more than thirty years each in civilian ministry and another thirty years as an Air Force chaplain. Rev. Paul F. McDonald has knitted together sixty years of events from the 20th century, by describing stories about those periods, the geography and history of places where he lived and served, some of the notable people he had known during fifteen assignments and a few dozen temporary duty assignments in Western Europe, the Pacific region, and the United States. He served the Catholic Church and his Country, during and after the dynamic times of the Second Vatican Council, 1962-65, during this time he listened to his people in a collaborative ministry in bringing about the necessary pastoral and liturgical changes. Such reforms, and others, continue to shape a revitalized church, and a resilient people who feel empowered as the 'people of God' to work with all people of good will. Surely, such an abundance of experiences provide a panorama of a life's journey in the service of God, Church, and Country, during which time he was proud to wear *A Collar Well Worn*.

Medieval Maritime Warfare Charles D Stanton, 2015-06-30 Following the fall of Rome, the sea is increasingly the stage upon which the human struggle of western civilization is played out. In a world of few roads and great disorder, the sea is the medium on which power is projected and wealth sought. Yet this confused period in the history of maritime warfare has rarely been studied □ it is little known and even less understood. Charles Stanton uses an innovative and involving approach to describe this fascinating but neglected facet of European medieval history. He depicts the development of maritime warfare from the end of the Roman Empire to the dawn of the Renaissance, detailing the wars waged in the Mediterranean by the Byzantines, Muslims, Normans, Crusaders, the Italian maritime republics, Angevins and Aragonese as well as those fought in northern waters by the Vikings, English, French and the Hanseatic League. This pioneering study will be compelling reading for everyone interested in medieval warfare and maritime history.

The Law of Storms James Sedgwick, 1852

The Emperor's Revenge Clive Cussler, Boyd Morrison, 2016-05-31 The Oregon crew must work without their usual resources when a rogue hacker empties their bank account in this action-packed installment from the #1 New York Times–bestselling grand master of adventure. When a bank heist

during the Monaco Grand Prix decimates the Corporation's "offshore" account, Juan Cabrillo and the crew of the Oregon find themselves unexpectedly vulnerable. Without his usual financial assets, Juan must trust a woman from his past, an old friend from his days with the CIA, to help him keep his team safe. Together, they'll face a mysterious hacker with a brutal vendetta. It is only after the hunt begins that the enormity of the plan comes into focus: the bank theft is just the first step in a plot that will result in the deaths of millions and bring the world's economies to a standstill. The catalyst for the scheme? A stunning document stolen during Napoleon's disastrous invasion of Russia. But two hundred years later, it may be the thing that brings Europe to its knees.

Majorca, Paradise Not Lost Chuck Maisel, 2005 For two unforgettable years, writer Chuck Maisel and aspiring painter Carroll Graham lived the dream of a lifetime. Living in a timeless village on the Mediterranean island of Majorca, the two friends discover that fantasy can truly become reality. In this charming memoir, Chuck recalls the high humor and deep profundity of daily life on a foreign island, the heart-swelling beauty of place and people, and the wonderful events that brought him maturity, wisdom, joy, and eternal memories. Meet a captivating cast of characters that includes famous authors, painters, and a movie actress. But those most cherished are the island natives: Margarita, Toni, Pepe, Gaspar, Catalina, and others of the wise and delightful populace. Join the fun and fulfillment of an adventure crammed with the emotional warmth of *Under the Tuscan Sun*, the wit of *A Year in Provence*, and the joyous idiosyncrasies of living on an island. Enjoy a beautiful world where serendipity is the norm and still excites seekers of adventure today to Majorca island. This delightful memoir is Chuck Maisel's best argument for the thoughtful and well-planned bliss-following that is necessary at some point in each of our lives-not to escape reality but to rediscover it with enthusiasm.-Greg Sarris, Author of *Watermelon Nights* and both the novel and the screenplay of *Grand Avenue* produced by Robert Redford

The Great Hurricane of 1780 Wayne Neely, 2012-09-17 The Great Hurricane of 1780, also known as Hurricane San Calixto II, is one of the most powerful and deadliest North Atlantic hurricanes on record. Often regarded as a cataclysmic hurricane, the storm's worst effects were experienced on October 10, 1780. In *The Great Hurricane of 1780*, author Wayne Neely chronicles the chaos and destruction it brought to the Caribbean. This storm was likely generated in the mid Atlantic, not far from the equator; it was first felt in Barbados, where just about every tree and house on the island was blown down. The storm passed through the Lesser Antilles and a small portion of the Greater Antilles in the Caribbean between October 10 and October

16 of 1780. Because the storm hit several of the most populous islands in the Caribbean, the death toll was very high. The official death toll was approximately 22,000 people but some historians have put the death toll as high as 27,500. Specifics on the hurricane's track and strength are unclear since the official North Atlantic hurricane database only goes back as far as 1851. Even so, it is a fact that this hurricane had a tremendous impact on economies in the Caribbean and parts of North America, and perhaps also played a major role in the outcome of the American Revolution. This thoroughly researched history considers the intense storm and its aftermath, offering an exploration of an important historical weather event that has been neglected in previous study.

Wicked Weather Warren Faidley, 2018-07-15 For the past 30 years, Warren Faidley has forecast, intercepted, and photographed some of the planet's most extreme weather and natural disasters. As a photojournalist, natural disaster survival expert, and adventurer, his expeditions have covered countless miles. Along the way, he has witnessed both the dark side and breathtaking beauty of Mother Nature's mysterious ways. He has journeyed into the heart of darkness as hurricanes Andrew and Katrina brought rage and ruin to thousands. Tornadoes, firestorms, earthquakes, and lightning bolts are forever recorded by his cameras, but his memories are filled with the human elements of hope and survival. In this book, you'll discover over 150 photographs that chronicle Faidley's quest to find the perfect image in the midst of total chaos and will read about his adventures in the midst of the roar of an EF5 tornado, grapefruit-size hailstones, severe thunder and lightning storms, forest fires, and more.

Hurricane Audrey Post, Cathy Cagle, 2007-04-30 This narrative re-creates Hurricane Audrey through the eyes of the survivors in a combination of suspense, family drama, and the struggle for life over death. In the midnight hours of June 27, 1957, the hurricane exploded in intensity and speed, slamming into the sleeping coast at dawn 12 hours ahead of its predicted landfall. Many unsuspecting residents woke that morning to find water already inside their homes. Their ordeal transports the reader back to 1957 with a new appreciation and understanding of how Cameron Parish residents clung to life during the category-four storm.

The Great Hurricane, 1938 Cherie Burns, 2007-12-01 "Before there was the Perfect Storm, there was the Great Hurricane of 1938. A riveting and wonderfully written account." —Nathaniel Philbrick On the night of September 21, 1938, news on the radio was full of the invasion of Czechoslovakia. There was no mention of any severe weather. By the time oceanfront residents noticed an ominous color in the sky, it was too late to escape. In an age

before warning systems and the ubiquity of television, this unprecedented storm caught the Northeast off guard, obliterated coastal communities on Long Island and in New England, and killed nearly seven hundred people. *The Great Hurricane, 1938* is a spellbinding hour-by-hour reconstruction of one of the most destructive and powerful storms ever to hit the United States. With riveting detail, Burns weaves together countless personal stories of loved ones lost and lives changed forever—from those of the Moore family, washed to sea on a raft formerly their attic floor, to Katharine Hepburn, holed up in her Connecticut mansion, watching her car take to the air like a bit of paper. “A very good book.” —The Washington Post

Storm John Withington, 2016-09-15 Gales, cyclones, blizzards, tornados, and hurricanes—few things demonstrate the awesome power of nature like a good storm. Devastating, diverse, and sometimes appearing completely out of nowhere, storms are also a source of both scientific and aesthetic wonder. In this book, John Withington takes an in-depth and unique look at the nature of storms and the impact that they have—both physical and cultural—on our lives. Withington shows how storms have changed the course of human history. From Roman times to the modern day, he shows how their devastating effects have wiped out entire communities, changed the fates of battle, and even reset the entire planet. He also shows how beneficial they have been to us: as an important feature of our atmosphere and climate, but also as a source of inspiration for nearly every artist who has ever lived, from Homer to Rembrandt, in works from the Old Testament to Robinson Crusoe. Beautifully illustrated, this book offers a fascinating look at Earth’s most fearsome events.

The Book of Deeds of James I of Aragon Damian J. Smith, Helena Buffery, 2020-04-13 The 'Book of Deeds' is the first known autobiography by a Christian king. Its author was James I of Aragon (1213-76), known as 'The Conqueror', one of the great political figures of 13th-century Europe and a successful crusader. In his 'Deeds', James describes the turbulent years of his minority, the thrilling capture of Majorca, the methodical conquest of the kingdom of Valencia, the reconquest of the kingdom of Murcia after Castile had failed to hold it, and many of the important events of his reign. While crusade and conquest of Spanish territory from the Muslims and Christian-Muslim relations on the frontier are central features of the account, the 'Deeds' are also a treasure trove of information on the image, power and purpose of monarchy, loyalty and bad faith in the feudal order, the growth of national sentiment, and medieval military tactics. At the same time, the book presents a unique insight into the mind of a medieval ruler, the supreme example we possess of the fears and ambitions of a man at the very centre of events.

Sketches of Foreign Travel and Life at Sea Charles Rockwell, 1842

The New International Encyclopaedia Daniel Coit Gilman, Harry Thurston Peck, Frank Moore Colby, 1902

The Storm Defoe D., On the evening of 26th November 1703, a cyclone from the north Atlantic hammered into southern Britain at over seventy miles an hour, claiming the lives of over 8,000 people. For Defoe, bankrupt and just released from prison for seditious writings, the storm struck during one of his bleakest moments. But it also furnished him with the material for his first book, and in his powerful depiction of private suffering and individual survival played out against a backdrop of public calamity.
