The Legend of Zelda: Majora's Mask Gabe Durham,2020-10-26 You've met with a terrible fate, haven't you? Those grim words hang over the entirety of Majora Mask, the sixth entry in the Legend of Zelda series. In his darkest adventure, Link must relive the same three days over and over again to prevent the moon from colliding into the kingdom of Termina and ending the world. Made with a small team in a single year for the Nintendo 64 from the assets of its predecessor, Majora's Mask could have been a shameless cash-in—but instead has gained wide recognition as the most mysterious, mature, and touching game in the series. It's also the Zelda game that has inspired more inventive fan theories and bone-chilling internet horror stories than might be expected from a high-fantasy adventure. Through rigorous research and a new in-depth interview with Majora's North American localizer, Jason Leung, writer and editor Gabe Durham investigates the relationship between Majora's fast-paced, adaptive development and the meaning projected onto its story by players—and shines a light on the strange and tumultuous romance between art and fandom.

European Competition Law Annual 2005 Claus-Dieter Ehlermann,Isabela Atanasiu,2007-03-12 This is the tenth in a series of volumes based on the annual workshops on EU Competition Law and Policy held at the Robert Schuman Centre of the European University Institute in Florence. The volume reproduces the materials of the roundtable debate which examined the interaction between competition law and intellectual property law. The workshop participants - a group of senior representatives of the Commission and the national competition authorities of some EC Member States, reknowned international academics and legal practitioners - discussed the economic and legal issues that arise in this particular area of application of the EC competition rules, under the following headings: 1) whether the characteristics of intellectual property products/markets justify special treatment under the competition rules; 2) a critical assessment of the Block Exemption Regulation and corresponding Guidelines recently adopted in this area of EC competition law enforcement; 3) the specific enforcement issues that arise in relation to patent pools and collecting societies; and 4) specific problems related to IP in the domains of merger control and application of Article 82 EC.
