Winners Philip Croucher,2018-05 Maritimers take great pride in watching other Maritimers do well on the national and global stage. This book tells the inspiring stories of 12 athletes drawn from a variety of backgrounds and sports. Men and women, black and white, Acadian and Mi'kmaq, able-bodied and non able-bodied. The common thread: young people who grow up in the Maritimes, with backgrounds that every reader will recognize, can and do chalk up impressive achievements. And they stay true to their roots in doing so. As CBC broadcaster Bruce Rainnie writes in the book's preface, In every character-defining way, [the featured athletes are exactly the same today as before any money or acclaim entered their lives. No wonder we punch so far above our weight. No wonder so many of our stories are 'unlikely but possible.' And no wonder we relish in hearing these stories told, as Philip Croucher does so tastefully in this book. Quiet confidence, humility, and a rock-solid base. What a mix. What an unbeatable mix. What a Maritime mix.

Zionism's Maritime Revolution Kobi Cohen-Hattab,2019-07-08 Research on Jewish settlement of the Land of Israel in the modern era has long neglected the sea and its shores. This book explores the Yishuv's hold on the Mediterranean and other bodies of water during the British Mandate in Palestine and the Zionist "maritime revolution," a shift from a focus on land-based development to an embrace of the sea as a source of security, economic growth, clandestine immigration (haapala), and national pride. The transformation is tracked in four spheres – ports, seamanship, fishery, and education – and viewed within the context of the Jewish/Arab conflict, internal Yishuv politics, and the Second World War. Archives, memoirs, press, and secondary sources all help illuminate the Zionist Movement's road to maritime sovereignty. By the State of Israel's founding in 1948, the Yishuv had a flourishing nautical presence: a national shipping company, control over the country's three active ports, maritime athletics, fish farming, and a nautical training school.

Sport in the City Chris Gratton,Ian Henry,2002-09-09 Cities now seek to attract major sporting events and activities to re-image themselves, and frequently invest in community sports development to fund economic growth and regeneration. Including a range of case-studies from global (the Sydney Olympics) to local (urban school sports), this book looks closely at how sport has been used in contemporary cities across the world, and evaluates policies, strategies and management. Five key areas are examined: * sport and urban economic regeneration * sports events: bidding * planning and organization * Urban Sports tourism * Sport and urban community development * Urban politics and sports policy. Sport in the City therefore represents an essential resource for urban policy makers and the sports policy community. It will be invaluable reading for sports studies students and urban geographers.

"They Took to the Sea" Björn Siegel,Joachim Schlör,Kobi Cohen-Hattab,Franziska Weinmann,Dalia Wassner,Michael Studemund-Halévy,Frank Jacob,,Allison Schachter,Sebastian Schirrmüller,Caroline Jessen,Elias S. Jungheim,Saskia Fischer,Jessica Cooperman,Caroline Emig,Shai Ginsburg,2023-03-22 The sea and maritime spaces have long been neglected in the field of Jewish studies despite their relevance in the context of Jewish religious texts and historical narratives. The images of Noah's arche, king Solomon's maritime activities or the miracle of the parting of the Red Sea immediately come into mind, however, only illustrate a few aspects of Jewish maritime activities. Consequently, the relations of Jews and the sea has to be seen in a much broader spatial and temporal framework in order to understand the overall importance of maritime spaces in Jewish history and culture. Almost sixty years after Samuel Tolkowsky's pivotal study on maritime Jewish history and culture and the publication of his book "They

Took to the Sea" in 1964, this volume of PaRDeS seeks to follow these ideas, revisit Jewish history and culture from different maritime perspectives and shed new light on current research in the field, which brings together Jewish and maritime studies. The articles in this volume therefore reflect a wide range of topics and illustrate how maritime perspectives can enrich our understanding of Jewish history and culture and its entanglement with the sea – especially in modern times. They study different spaces and examine their embedded narratives and functions. They follow in one way or another the discussions which evolved in the last decades, focused on the importance of spatial dimensions and opened up possibilities for studying the production and construction of spaces, their influences on cultural practices and ideas, as well as structures and changes of social processes. By taking these debates into account, the articles offer new insights into Jewish history and culture by taking us out to "sea" and inviting us to revisit Jewish history and culture from different maritime perspectives.

Coast to Coast John Chi-Kit Wong,2009-07-25 As an institution that helps bind Canadians to an imagined community, hockey has long been associated with an essential Canadian identity. However, this reductionism ignores the ways Canadians consume hockey differently based on their socio-economic background, gender, ethnicity, and location. Moreover, Canadian culture is not static, and hockey's place in it has evolved and changed. In *Coast to Coast*, a wide range of contributors examine the historical development of hockey across Canada, in both rural and urban settings, to ask how ideas about hockey have changed. Conceptually broad, the essays explore identity formation by investigating what hockey meant to Canadians from the nineteenth century to the Second World War, as well as the role of government, entrepreneurs, and voluntary associations in supporting and promoting the game. *Coast to Coast* is an intriguing look at the development of a national sport, a must-read for hockey fans and historians alike.

Reclaiming and Rewilding River Cities for Outdoor Recreation Charly Machemehl,Olivier Sirost,Jean-Paul Ducrototy,2020-08-31 The introduction of sports and recreational facilities into natural environments calls for reflection on their impact on fragile ecosystems. This book is unique in providing an interdisciplinary approach to the ecological restoration of urban and industrial degraded habitats and their use by nearby city-dwellers. For the first time ecologists, sociologists and anthropologists have worked together on particularly sensitive ecosystems such as rivers and estuaries to propose recovery strategies that allow their basic ecological functions to be restored, and which can benefit local populations through nature activities. Nonetheless, the use of natural spaces calls for the building of sustainable towns. This is why this book is distinctive in considering quality of life and well-being as stated objectives of modern river towns. Recently, leisure time has become a part of urban rhythms. In order to favour personal development, an extensive palette of leisure activities is considered by the authors: bird watching entertainment sports culture Many aspects including physical and psychological attributes in relation to the contemporary socio-political fabric are dealt with. While creating areas of freedom, landscaping also induces certain forms of practice and encourages certain social skills. Conversely, the book questions certain types of management based on mass consumption. Don't they, in the end, aim to satisfy needs that are impermanent and shallow? The image of the contemporary town relies on urban planning projects which, in a global economy, seek to capture the interest of tourists and local populations. How can suitable, diligent planning be successfully combined with both creative design and ecological care? This book demonstrates how biology and sociology can (and should) work in harmony in order to promote an ecosystem approach to environmental management.
