Down East: An Illustrated History of Maritime Maine (2) Lincoln Paine, 2018-06-19 From the first explorers, to the century of ships, to our modern fisheries and diversification, Maine's maritime story is told in engaging detail. Lincoln Paine has laid down the framework for an understanding of Maine's maritime history by relating the population and landscape of today to their historic foundations. This engaging overview of Maine's maritime history ranges from early Native American travel and fishing to pre-Plymouth European settlements, wars, international trade, shipbuilding, boom-and-bust fisheries, immigrant quarrymen, quick-lime production, yachting, and modern port facilities, all unfolding against one of the most dramatic seascapes on the planet. Down East can be read in an evening but will be referred to again and again. When the first edition was published in 2000, Walter Cronkite—a veteran Maine coastal sailor as well as The Most Trusted Man in America—wrote that “Paine's economy of phrase and clarity of purpose make this book a delight.” Paine went on to write his monumental opus *The Sea and Civilization: A Maritime History of the World* (PW starred review), but now returns to his first and most abiding love, the coast of Maine, to revise and update this gem of a book. The new edition is printed in a large, full-color format with a stunning complement of historical photos, paintings, charts, and illustrations, making this a truly visual journey along a storied coast.

Stories from the Wreckage John Odin Jensen, 2019-04-19 Every shipwreck has a story that extends far beyond its tragic end. The dramatic tales of disaster, heroism, and folly become even more compelling when viewed as junction points in history—connecting to stories about the frontier, the environment, immigration, politics, technology, and industry. In *Stories from the Wreckage*, John Odin Jensen examines a selection of Great Lakes shipwrecks of the wooden age for a deeper dive into this transformative chapter of maritime history. He mines the archeological evidence and historic record to show how their tragic ends fit in with the larger narrative of Midwestern history. Featuring the underwater photography of maritime archeologist Tamara Thomsen, this vibrant volume is a must-have for shipping enthusiasts as well as anyone

interested in the power of water to shape history.

Long Island and the Sea Bill Bleyer, 2019-04-08 For more than five centuries, the waterways surrounding Long Island have profoundly shaped its history. Familiar subjects of lighthouses, shipwrecks and whaling are found alongside oft-forgotten oddities such as Pan-American flying boats landing in Manhasset Bay in the early days of transatlantic flight. From the British blockade and skirmishes during the American Revolution to the sinking of merchant vessels by Germany in World War II, the sea brought wars to these shores. By the later part of the 20th century, Gold Coast millionaires commuted in high-speed yachts to Manhattan offices as the island's wealth grew. Historian Bill Bleyer reveals Long Island's nautical bonds from the Native Americans to current efforts to preserve the region's maritime heritage.

The Sea and Civilization Lincoln Paine, 2015-10-27 A monumental retelling of world history through the lens of the sea—revealing in breathtaking depth how people first came into contact with one another by ocean and river, lake and stream, and how goods, languages, religions, and entire cultures spread across and along the world's waterways, bringing together civilizations and defining what makes us most human. *The Sea and Civilization* is a mesmerizing, rhapsodic narrative of maritime enterprise, from the origins of long-distance migration to the great seafaring cultures of antiquity; from Song Dynasty human-powered paddle-boats to aircraft carriers and container ships. Lincoln Paine takes the reader on an intellectual adventure casting the world in a new light, in which the sea reigns supreme. Above all, Paine makes clear how the rise and fall of civilizations can be linked to the sea. An accomplishment of both great sweep and illuminating detail, *The Sea and Civilization* is a stunning work of history.

United States* is the fascinating behind-the-scenes story of one of the fastest ships in the world and one of the most luxurious passenger liners to cross the Atlantic. With new introductory material by the SS United States Conservancy, this classic volume includes photographs of celebrity passengers and of the majestic liner from her golden years, when she spurred the rebirth of America's maritime glory, to her twilight years. Follow Frank Braynard, one of the great American maritime historians, as he chronicles the life of the S.S. United States, the incredible feat of engineering that still holds the westbound speed record on the North Atlantic. This book stands as a tribute of her maiden voyage, a celebration of her recent rescue efforts by the Conservancy, and an inspiration for future generations to restore the legacy of the greatest ocean liner this country has ever built.

A Maritime History of Long Island Ralph Brady, 2019-02-21 A trip into the Long Island history of ships, lighthouses, ports, shipbuilders, shipwrecks

and much more. Webster's Dictionary defines the word "maritime" as, "on, near or living near the sea", so you can see that the basic membership requirement to be a part of the story is easily satisfied. Just having an address in either Nassau or Suffolk County pretty much meets the criteria, and then the things that you do with your time can determine how big a role you play in this tale. Own a boat and fish from it? That gives you an even greater claim to being a "nautical" or "maritime" person. Go clamming in the bays, sail in regattas, help clean up a beach, be a member of a yacht club etc.? I think you get the point, and hopefully have by now come to realize that your very existence on Long Island is tied in with the pioneers who taught us how to prosper on this amazing island, and enjoy a lifestyle that is almost unique in the entire United States.

Beyond the Windswept Dunes Elizabeth B. Sherman, 2003-06-01 Beyond the Windswept Dunes takes the reader into a world of maritime adventure as it was experienced by the sailors, passengers, rescue workers, shipping magnates, industrialists, and many other people whose livelihoods revolved around Michigan's port city of Muskegon. At one time the leading edge of westward expansion, Muskegon was a place where lumbering and lakers merged and where rails met decks, a place situated midway along the coast of a great and sometimes stormy inland sea. Here Elizabeth Sherman offers both a shipping history and a portrait of the city. The events covered range from the visit by the British sloop H.M.S. *Felicity* in 1779 through Muskegon's boom years as Lumber Queen of the World, from the city's revitalization with the opening of the St. Lawrence Seaway to its recent establishment of a floating museum complex for historic naval vessels. The book's focus is on the ships themselves—such as the *Lyman M. Davis*, *Salvor*, *Highway 16*, and *Milwaukee Clipper*—vessels that were noteworthy for being the first of their kind or for their popularity, unusual and distinctive careers, or tragic losses. A number of ships were lost in Lake Michigan near Muskegon Harbor, and the stories of some of the most notable wrecks and rescue missions appear in this book, including the psychic intervention that led the *William Nelson* to the exciting rescue of the crew aboard the sinking *Our Son*. The book offers many first-hand statements of shipwreck survivors and other witnesses, lending an authentic voice to the accounts.

Great Ships on the Great Lakes Cathy Green, Jefferson J Gray, Bobbie Malone, 2013-09-23 In this highly accessible history of ships and shipping on the Great Lakes, upper elementary readers are taken on a rip-roaring journey through the waterways of the upper Midwest. *Great Ships on the Great Lakes* explores the history of the region's rivers, lakes, and inland seas—and the people and ships who navigated them. Read along as the first peoples paddle tributaries in birch bark canoes. Follow as European voyageurs pilot rivers and lakes to get beaver pelts back to the eastern market. Watch as settlers build towns and eventually cities on the shores of the Great Lakes. Listen to the stories of sailors, lighthouse keepers, and shipping agents whose livelihoods depended on the dangerous waters of Lake Michigan, Superior, Huron, Erie, and Ontario. Give an ear to their stories of unexpected tragedy and miraculous rescue, and heed their tales of risk and reward on the low seas. *Great Ships* also tells the story of sea battles and gunships, of the first vessels to travel beyond the Niagara, and of the treacherous storms and cold weather that caused thousands of ships to sink in the Great Lakes. Watch as underwater archaeologists solve the mysteries of Great Lakes shipwrecks

today. And learn how the shift from sail to steam forever changed the history of shipping, as schooners made way for steamships and bulk freighters, and sailing became a recreation, not a hazardous way of life. Designed for the upper elementary classroom with emphasis on Michigan and Wisconsin, *Great Ships on the Great Lakes* includes a timeline of events, on-page vocabulary, and a list of resources and places to visit. Over 20 maps highlight the region's maritime history. The accompanying Teacher's Guide includes 18 classroom activities, arranged by chapter, including lessons on exploring shipwrecks and learning how glaciers moved across the landscape.

The Story of the Savannah David Kuechle, 1971 Account of labour disputes arising from unsatisfactory labour relations on the n.s. Savannah, the first nuclear powered merchant ship in the USA - covers government policy, attitudes of the shipbuilding industry and the seafarers' trade union organisations to grievances in respect of working conditions and manning scales on the ship, arbitration procedures, relevant maritime questions, legal aspects of collective bargaining negotiations and of the collective agreement, etc. References.

Four Years Before the Mast Joseph A. Williams, 2013-11-01 Under New York City's Throgs Neck Bridge lies a spit of land dominated by a pentagonal, 19th-century fortress that today houses a school that has trained mariners since the age of sail. Within Fort Schuyler's walls are stories of heroism and mutinies, shipwrecks and desertions. In *Four Years Before the Mast*, author Joseph A. Williams uses his access to archival materials to tell the tale of that institution known today as SUNY Maritime College.

Women Sailors and Sailors' Women David Cordingly, 2001 The fall of 1856 was one of the worst seasons that sailors off the coast of Cape Horn had ever seen. The clipper ship *Neptune's Car*, a trading vessel from New York, had battled huge waves and gale-force winds for weeks. Desperate to save his men and cargo from the violent storm, Captain Joshua Patten spent eight sleepless days and nights on deck. On the ninth day at the helm, he collapsed with a raging fever, and his crew panicked. As freezing rain and wind howled through the rigging and death seemed imminent, just one person on board stepped forward to take control of the ship: Captain Patten's nineteen-year-old wife, Mary, then five months' pregnant with their first child. When the ship safely reached its destination of San Francisco that November, Mary Patten was hailed as a national heroine. What was a young woman doing on board a clipper ship in 1856? And how could she have been skilled enough to navigate a 216-foot vessel through a storm? Maritime history is rich with tales of male adventurers, sailors, captains, and pirates. In fact, we think of the high seas as an all-male world. But what about women? Were wives and daughters left ashore, relegated to a landlubber's existence? To answer these questions, maritime scholar David Cordingly has written an inspired, illuminating, and highly readable book that reveals the vibrant history of women and the sea. Drawing on years of research into the journals, ship's logs, and diaries of extraordinary women like Mary Patten, Cordingly has resurrected the incredible stories of a forgotten population. He re-creates a time when captain's wives shared Christmas dinners in Tahitian harbors, and when one Hannah Snell served aboard a British naval ship for four years without revealing her identity as a woman.--BOOK JACKET. The Big Ship Frank Osborn Braynard, 1981

The Maritime History of Massachusetts Samuel Eliot Morison, 2014-03-30 Here is no catalogue of ships, reader, nor naval chronicle, but a story of maritime enterprise; of the shipping, seaborne commerce, whaling, and fishing belonging to one American commonwealth, writes S.E. Morison. I have chosen to catch the story at half flood, when Massachusetts vessels first sought Far-Eastern waters, and to stay with it only so long as wind and sail would serve. For to one who has sailed a clipper ship, even in fancy, all later modes of ocean carriage must seem decadent. This classic work includes the following chapters: I. Coast and Sea II. The Colonial Background (1602-1760) III. Revolution and Reconstruction (1760-1788) IV. Pioneers of the Pacific (1784-1792) V. The Northwest Fur Trade (1788-1812) VI. The Canton Market (1784-1812) VII. The Salem East Indies (1790-1812) VIII. Ships and Seamen (1790-1812) IX. Merchants and Mansions (1782-1812) X. The Sacred Codfish (1784-1812) XI. Newburyport and Nantucket (1790-1812) XII. Federalism and Neutral Trade (1789-1807) XIII. Embargo and War (1807-1815) XIV. The Passing of Salem (1815-1845) XV. The Hub of the Universe (1830-1845) XVI. Ships and Seamen in Southern Seas (1820-1848) XVII. China and the East Indies (1820-1850) XVIII. Mediterranean and Baltic (1820-1850) XIX. Cape Cod and Cape Ann (1820-1860) XX. The Whalers (1815-1860) XXI. Oh! California (1844-1850) XXII. The Clipper Ship (1850-1854) XXIII. Conclusion (1857-1860)
