Thai Massage Dissected Natasha de Grunwald,2021-05-27 Written by the UK's leading teacher and practitioner Natasha de Grunwald, a pioneer of Thai massage and bodywork for 30 years. Thai Massage Dissected is a book aimed at massage therapists, yoga teachers, physiotherapists, osteopaths and all manual therapists who want to expand their therapeutic approach and are curious to learn about the body from a Thai anatomy and dissection perspective. Therapeutic Thai massage and bodywork is a rich and diverse modality, so much more than the stretching and deep tissue work for which it is known. The book provides a richly curated combination of tools, techniques and protocols that will enhance all practitioners' skill sets. Natasha discusses the roots of this modality as Buddhist medicine, the five element system, the use of therapeutic herbs and Thai anatomy, whilst also writing about concepts such as proprioception and interoception. There is an additional chapter looking at traditional healthcare practices for women, informed by her time spent with village midwives on the Thai/Burmese border. Natasha de Grunwald uses imagery from many hours spent in a cadaver lab to describe anatomical, textural layers and structures, bringing human form to life. She consolidates this with a therapeutic perspective on Thai medical theory and how Thai massage and bodywork can be carried out in a clinical setting. This comes from her extensive research, studies and knowledge spanning over three decades.
