**Metal Gear Solid** Raymond Benson,2008 This explosive Metal Gear Solid novel ventures beyond the thrilling videogame and delves into the dark heart of Solid Snake's world! Highly skilled former FOXHOUND agent Solid Snake is called out of retirement to do what he does best—neutralize a crisis of epic proportions. A deadly team of renegade FOXHOUND operatives has taken over the nuclear disposal facility on Shadow Moses Island in the icy Aleutians. If their demands aren't met, a powerful, top-secret weapon will be unleashed upon the world. Solid Snake's mission is to breach the heavily fortified base to rescue hostages and to destroy the superweapon. His only obstacles are brainwashed commandos, DNA-enhanced troops, and six first-rate killers with extraordinary abilities. All alone in hostile territory, armed with nothing but his wits, Snake has only a snowball's chance in hell of taking out his target and keeping nuclear nightfall from descending on the earth. But nothing is as it seems. Somebody is hiding something. Somebody has a hidden agenda. And somebody wants Snake to learn secrets about his dark past—secrets that would shake any man to his core.

*Posttraumatic Stress Disorder, Trauma, and History in Metal Gear Solid V* Amy M. Green,2017-08-22 This book explores the video game Metal Gear Solid V's exploration of trauma and posttraumatic stress disorder (PTSD) through a careful analysis of its thematic elements and characters. It also considers the game's complex take on post-9/11 history. Metal Gear Solid V consists of two interrelated titles, Ground Zeroes and The Phantom Pain. Ground Zeroes is examined as a post-9/11 narrative exploring America's use of Guantanamo Bay and the extraordinary rendition program as tools in the War on Terror. The Phantom Pain is examined as a work exploring post-9/11 in trauma, especially in returning soldiers. The characters appearing in both games are given substantial consideration and analysis as embodiments of different forms of PTSD and trauma. This book appeals especially to those interested in video game study, to those who are enthusiasts of video games, and those interested in post-9/11 narratives.

**Metal Gear Solid 2** Raymond Benson,2009 Solid Snake and his partner Otacon are lost at sea in the wake of a terrorist attack while rookie FOXHOUND operative Raiden is working to rescue the president from terrorist captors.

*99 Nights in Logar* Jamil Jan Kochai,2019-01-22 "Funny, razor-sharp, and full of juicy tales that feel urgent and illicit . . . the author has created a singular, resonant voice, an American teenager raised by Old World Afghan storytellers." —New York Times Book Review "More than well crafted; it's phenomenal. . . . Kochai's book has a big heart." —The Guardian A dog on the loose. A boy yearning to connect to his family's roots. A country in the midst of great change. And a vibrant exploration of the power of stories--the ones we tell each other and the ones we find ourselves in. Twelve-year-old Marwand's memories from his previous visit to Afghanistan six years ago center on his contentious relationship with Budabash, the terrifying but beloved dog who guards his extended family's compound in the rural village of Logar. But eager for an ally in this place that is meant to be home, Marwand misreads his reunion with the dog and approaches Budabash the way he would any pet on his American suburban block--and the results are disastrous: Marwand loses a finger, and Budabash escapes into the night. Marwand is not chastened and doubles down on his desire to fit in here. He must get the dog back, and the resulting search is a gripping and vivid adventure story, a lyrical, funny, and surprisingly tender coming-of-age journey across contemporary Afghanistan that blends the bravado and vulnerability of a boy's teenage years with an homage to familial oral tradition and calls to mind *One Thousand and One Nights* yet speaks with a voice all its own.

**Super Power, Spooky Bards, and Silverware** Dominic Arsenault,2017-09-01 How the Super Nintendo Entertainment System embodied Nintendo's resistance to innovation and took the company from industry leadership to the margins of videogaming. This is a book about the Super Nintendo Entertainment System that is not celebratory or self-congratulatory. Most other accounts declare the Super NES the undisputed victor of the "16-bit console wars" of 1989–1995. In this book, Dominic Arsenault reminds us that although the SNES was a strong platform filled with high-quality games, it was also the product of a short-sighted corporate vision focused on maintaining Nintendo's market share and business model. This led the firm to fall from a dominant position during its golden age (dubbed by Arsenault the "ReNESSance") with the NES to the margins of the industry with the Nintendo 64 and GameCube consoles. Arsenault argues that Nintendo's conservative business strategies and resistance to innovation during the SNES years explain its market defeat by Sony's PlayStation. Extending the notion of "platform" to include the marketing forces that shape and constrain creative work, Arsenault draws not only on game studies and histories but on game magazines, boxes, manuals, and advertisements to identify the technological discourses and business models that formed Nintendo's Super Power. He also describes the cultural changes in video games during the 1990s that slowly eroded the love of gamer enthusiasts for the SNES as the Nintendo generation matured. Finally, he chronicles the many technological changes that occurred through the SNES's lifetime, including full-motion video, CD-ROM storage, and the shift to 3D graphics. Because of the SNES platform's architecture, Arsenault explains, Nintendo resisted these changes and continued to focus on traditional gameplay genres.

**The Kojima Code** Terry Wolfe, 2018-01-08 How far would you go to break the chains of destiny? In the case of HIDEO KOJIMA, way past the point of madness! What else would you call gambling your own multi-million dollar franchise on an elaborate secret scheme to prove you're smarter than your adoring fans? Or creating the biggest media sensation in modern history just so you could spike your own product into the ground and use it as proof that you shouldn't trust advertising? (Or promising to make up for that betrayal of consumer trust only to do it again with an even more venomous bite?) There's nothing else to call it but madness -- unless you understand THE KOJIMA CODE. A mind-blowing, huge budget, multi-layered plot to create a jaw-dropping masterpiece secretly engineered to upset the world. Hey, maybe that's what it takes to make people question the lies we're told in the 21st Century's age of confirmation bias. This book tracks the lonely personal life, daring career, and radical game design philosophy of one of the most enigmatic, polarizing, and devious minds in entertainment. Only by understanding the man and the corporate world he struggled with can we illuminate the unbelievable story behind one of the greatest works of postmodern art ever made. It's a story that has never been detailed, despite an entire generation of gamers begging for answers! A must-read for anyone who has played the series or just wondered why so many people still love and hate HIDEO KOJIMA to this day! The answers await.
