Bond of Brotherhood Michael Walzak,2005-11 Blake Brown eased his car out of the parking lot and onto the highway. Unseen, the idling evil slowly left its resting place to follow discreetly behind him. Blake rounded corners and went through lights and the black, metallic beast stayed on his tail. As Blake finally turned into his apartment complex, his shadow turned with him. He never noticed the sleek beast behind him as he pulled into his parking spot and turned off the ignition. The evil trailing him inched to a stop on the other side of the parking lot. Blake turned to walk across to his building. Just as he started across the lot, the black car started again. It honed in on him. It moved gracefully through the lot, smelling blood in the water. As it got close to Blake, it slowed, menacingly creeping toward him. The window lowered silently. Blake, sensing its presence, turned and his eyes lit with a hint of recognition. 'Squ? was all he got out. Before he could finish the sentence, three shots quietly erupted from the silenced- equipped gun inside the black car. Blake Brown staggered backward. He was hit three times in the chest. The deal was off.

Burning Benjamin Michael Davis,Michael Van Davis II,2015-03-29 Burning Benjamin is the first book of The Counterfeiter Series. Michael Van Davis II wrote the fiction novel to account his days as a counterfeiter in today's age, where most of the tracking techniques

used by Secret Service are digital. The story is told from the voice of a man simply known as Captain, a conspiracy theorist living off-the-grid. Captain wishes to remove his girlfriend, Payton, from a life of dancing in strip clubs, choosing to make his own cash instead. What unveils is a unique story where Captain has a difficult time reigning in the women who spend the counterfeit money by shopping for everything they've ever desired. When Captain adds a mob member for a partner, he learns it's impossible to make good friends in the subculture of carding, counterfeiting, and selling fake merchandise. The novel is a wonderful tale of the world we all live in today, but rarely have the chance to see.

American Surrender Michael Brady,1980-09

Time Bomb Michael Mathiesen,2024-02-19 There is a huge bomb that is ticking down to the moment when it must go off and it's right underneath your feet. This almost unseen Time Bomb is so massive that it will kill every man woman, child, dog, cat, birds, insects, donkeys, horses, all the fish in the sea, the whales, the dolphins, plankton, trees, plants, flowers and every other thing that lives here on this planet. Time is ticking away and so I thought I'd better warn everyone. But there's nowhere to run. We have to all take a stand by

joining what I call the final SWAT Team. (Save our World Again Today) If you choose not to saddle up and fight the good fight - it's curtains for the human race. In this book, you at least get some basic training in SWAT. You will get the weapons and the sufficient quantity of guts and gumption to get the job done in helping to disarm the Time Bomb. But, most importantly of all, you will get the knowledge of how to use our only effective weapon - Time. Time is not on our side, but when you understand how it flies around the universe in waves, you will be able to control it and use it to disarm the bomb. It's ironic also that Einstein's famous equation of $E=mc^2$ was the key to the production of the most destructive forces humans have ever unleashed, the nuclear weapons that today threaten the greatest mass extinction in history, made more urgently notable since these weapons are now controlled by psychopathic mass murderers. (Not an exaggeration) Just as I was finishing this book, news hit the world that Russia is planning to put a nuclear device like the Death Star in Star Wars, in orbit over our heads that could destroy our entire way of life in seconds. THUS the need for this new formula because TIME IS TICKING to the final seconds. I introduce here a new equation that I invented that hopefully will have the effect of countering all of the destructive power of Einstein's equation. $T=emc(8)$ Or Time is equal to any amount of energy times any amount of mass times the speed of light raised to the power of infinity. This formula goes beyond and is an addendum to Einstein's famous Equation that converts all mass into energy. The very essence of Time is unveiled and simplified so that more and more of us can quickly learn how to use it more effectively in our daily lives. Time is something we all think we know everything we need to know about and we take Time for granted because until we expire - We say that Time flies - It is the thesis of this book that Time moves through the universe in waves AND you will learn about an Experiment, already underway that can prove all of these assertions.. In reality, Time is rationed out to each and every one of us as is needed in pursuit of larger goals. The movement of Time around the universe in this manner is broadcast in High and Low Pressure Time Zones. High Pressure Time zones are sunny and warm and Low Pressure Time zones are cold and wintry. Time is ticking towards a terrible conclusion of the end of the Human Race.
