Stati Uniti on the road. 99 itinerari tematici attraverso gli USA ,2011-11-07

November's Fury Michael Schumacher,2013-11-01 On Thursday, November 6, the Detroit News forecasted "moderate to brisk" winds for the Great Lakes. On Friday, the Port Huron Times-Herald predicted a "moderately severe" storm. Hourly the warnings became more and more dire. Weather forecasting was in its infancy, however, and radio communication was not much better; by the time it became clear that a freshwater hurricane of epic proportions was developing, the storm was well on its way to becoming the deadliest in Great Lakes maritime history. The ultimate story of man versus nature, November's Fury recounts the dramatic events that unfolded over those four days in 1913, as captains eager—or at times forced—to finish the season tried to outrun the massive storm that sank, stranded, or demolished dozens of boats and claimed the lives of more than 250 sailors. This is an account of incredible seamanship under impossible conditions, of inexplicable blunders, heroic rescue efforts, and the sad aftermath of recovering bodies washed ashore and paying tribute to those lost at sea. It is a tragedy made all the more real by the voices of men—now long deceased—who sailed through and survived the storm, and by a remarkable array of photographs documenting the phenomenal damage this not-so-perfect storm wreaked. The consummate storyteller of Great Lakes lore, Michael Schumacher at long last brings this violent storm to terrifying life, from its first stirrings through its slow-mounting destructive fury to its profound aftereffects, many still felt to this day.

The Ship and the Storm Jim Carrier,2001-04 Details the last days of the majestic schooner Fantome which succumbed to the one of the worst hurricanes in recorded history--Hurricane Mitch in October, 1998.

The Perfect Storm Sebastian Junger,1999-10 A true story of men against the sea.

Blizzard!! the Great White Hurricane Timothy Minnich,2019-12-30 THE BLIZZARD OF 1888, legendary in the annals of American weather history, was among the most ferocious winter storms ever to pound the Northeast. Many hundreds of people perished on land and sea during its three-day reign of terror, including some 200 in New York City alone - ground-zero for this storm. In his debut novel, Tim Minnich paints a vibrant New York City landscape in the weeks leading up to what has been coined The Great White Hurricane. Bound to fascinate weather enthusiasts, history buffs, and general readers alike, Minnich captures the suspense which culminates in this awesome display of nature, all while vividly depicting life in late Nineteenth Century Manhattan. On Sunday evening March 11th, the denizens of this great metropolis go to sleep completely unaware they'd be awakening to a howling blizzard. All except for young William Roebling, a brilliant meteorologist recently transferred to the New York Office of the US Army's fledgling Signal Service Corps - the agency responsible for the nation's first weather forecasts. Will has painstakingly developed an ingenious system allowing him to predict this historic event days in advance, but his unconvinced Commanding Officer, for political reasons, orders his silence. A conflicted Will feels he must alert his loved ones, and does - only to find himself in a battle for his life at the height of the storm. Minnich deftly combines the drama and excitement of the blizzard with its profound impact on those unfortunate enough to have been caught in its path, simultaneously weaving an engaging tale of true love, faith, and the indomitable human spirit.

Category 5 Ernest Zebrowski, Judith A. Howard,2007-05-08 The epic story of the real victims of a perfect storm—overwhelmingly the poor—left behind in the aftermath of a deadly hurricane "A riveting new book." –Tallahassee Democrat "Not simply an historical account of a storm thirty-seven years ago but a living, breathing entity brimming with the modern-day reality that, yes, it can happen again." –American Meteorological Society Bulletin Fascinating, easy-to-read, yet informative." –Richmond Times-Dispatch "Almost like sitting in front of the television watching the events unfold. A page-turner from the very first page." –Ruston Morning Paper "There is much we can all learn from this relevant and highly engaging chronicle." – Biloxi Sun Herald "A must-read for anyone who wants to take an emotional stroll through the rubble of these Gulf Coast fishing communities and learn what happened." –Apalachicola Times "Should be required reading for anyone living in the path of these terrible storms." –Moondance.org As the unsettled social and political weather of summer 1969 played itself out amid the heat of antiwar marches and the battle for civil rights, three regions of the rural South were devastated by the horrifying force of Category 5 Hurricane Camille. Camille's nearly 200 mile per hour winds and 28-foot storm surge swept away thousands of homes and businesses along the Gulf Coast of Louisiana and Mississippi. Twenty-four oceangoing ships sank or were beached; six offshore drilling platforms collapsed; 198 people drowned. Two days later, Camille dropped 108 billion tons of moisture drawn from the Gulf onto the rural communities of Nelson County, Virginia—nearly three feet of rain in 24 hours. Mountainsides were washed away; quiet brooks became raging torrents; homes and whole communities were simply washed off the face of the earth. In this gripping account, Ernest Zebrowski and Judith Howard tell the heroic story of America's forgotten rural underclass coping with immense adversity and inconceivable tragedy. Category 5 shows, through the riveting stories of Camille's victims and survivors, the disproportionate impact of natural disasters on the nation's poorest communities. It is, ultimately, a story of the lessons learned—and, in some cases, tragically unlearned—from that storm: hard lessons that were driven home once again in the awful wake of Hurricane Katrina. Ernest Zebrowski is founder of the doctoral program in science and math education at Southern University, a historically black university in Baton Rouge, Louisiana, and Professor of Physics at Pennsylvania State University's Pennsylvania College of Technology. His previous books include *Perils of a Restless Planet: Scientific Perspectives on Natural Disasters*. Judith Howard earned her Ph.D. in clinical social work from UCLA, and writes a regular political column for the Ruston, Louisiana, Morning Paper.

When Nuvolari Raced... Valerio Moretti,2017-11-10 This book was chosen by the Mantuan committee to be the official publication to celebrate Tazio Nuvolari's centenary and carries a foreword by the Mayor of Mantua, Sergio Genovesi. Translation and editing are by noted vintage Alfa Romeo authority, Angela Cherrett. Tazio Nuvolari hardly needs an introduction; his exploits and racing prowess have become legend throughout the world. In his homeland of Italy, his name is a national icon: his fame reflected in everything from songs to the use of his name to symbolise every kind of daring and recklessness at the wheel. We've all heard the wonderful, exciting stories about the Flying Mantuan's exploits at the wheel and now, over forty years since his death, no doubt many believe

these tales to be fantasies – ordinary events embellished and exaggerated by the passage of time, constant retelling and hero worship. This book re-examines the legend and, in separating fact from fiction, reveals that Tazio’s best known feats are based on fact and have not been exaggerated at all! Indeed, this book will make the Italian racing red flame of the Nuvolari legend burn even brighter. Amazingly, author Valerio Moretti’s research has been so deep that he has been able to find and include in this book contemporary race reports of almost every race – no matter how small – in which Tazio took part from his first motorcycle race in June 1920 to his last race, driving a Cisitalia Abarth, in April 1950. The Tazio Nuvolari legend grew gradually through over three hundred races from almost grudging acknowledgement of a newcomer’s bravery, through awe of his apparent recklessness to the peak of his popularity when he was regarded as superhuman. Included in the book is a summary of every machine – two and four-wheeled – raced by Tazio.

So Terrible a Storm Curt Brown, 2011-05-04 “Not since Sebastian Junger in *The Perfect Storm* has a writer captured so well the fury of the seas as Curt Brown.” –The Maritime Executive Through masterful research and elegant prose, Curt Brown traces the devastating intersection of nature’s fury and corporate greed. It was Thanksgiving week 1905, and the industry bosses wanted one last run before the shipping season ended; the bottom line depended on it. The tragedy that followed led to the building of Split Rock Lighthouse—and went down in history as one of the nation’s worst shipping disasters. The explosive squall caught nearly 30 vessels on Lake Superior. In the wake of the storm, weather forecasting and shipbuilding were forever changed. Drawn from the accounts of witnesses and survivors, *So Terrible a Storm* is a must-read.

Freshwater Fury Frank Barcus, 1986 Up and down the Great Lakes, wherever captains and seamen met, one of the chief topics of conversation is still the Great Storm—the worst disaster in Great Lakes history. By men of the Lakes, November 9, 1913 will always be remembered as Black Sunday, for it brought death to hundreds of their companions and destruction to scores of ships of the Lakes fleet. Each man who survived the Storm has a fascinating story to tell. *Freshwater Fury* is the first comprehensive history of the Great Storm. Author Frank Barcus, who has met and talked with many survivors during his trips on Lakes freighters over the past twenty years, presents here their vivid eye-witness accounts. The many drawings, maps, and diagrams executed by the author add pictorial interest to the story of this dramatic struggle between men and the elements.

Summer Snow Storm Stephen Marlowe, 2014-02-01 It's no surprise that meteorologists sometimes make less-than-accurate predictions about the day's weather. But when a cadre of top-ranking weather experts fail to catch wind of a freak summer snow storm, all hell breaks loose. Amidst this turmoil, an unusual folk hero emerges who seems to have a preternatural knack for dead-on weather predictions. What's the source of this strange superpower?
