

**Mille**

**L Towner**

*Agnes de Mille* Judy L. Hasday, 2004 Despite her family's Hollywood connections, de Mille struggled for years to become a dancer. She found strength in collaboration, and her lifelike, expressive choreography set a new standard for Broadway and American ballet.

Agnes de Mille Kara Anne Gardner, 2016-07-13 This book explores the Broadway legacy of choreographer Agnes de Mille, from the 1940s through the 1960s. Six musicals are discussed in depth - Oklahoma!, One Touch of Venus, Bloomer Girl, Carousel, Brigadoon, and Allegro. Oklahoma!, Carousel, and Brigadoon were de Mille's most influential and lucrative Broadway works. The other three shows exemplify aspects of her legacy that have not been fully examined, including the impact of her ideas on some of the composers with whom she worked; her ability to incorporate a previously conceived work into the context of a Broadway show; and her trailblazing foray into the role of choreographer/director. Each chapter emphasizes de Mille's unique contributions to the original productions. Several themes emerge in looking closely at de Mille's Broadway repertoire. Character development remained at the heart of her theatrical work. She often took minor characters, represented with minimal or no dialogue, and fleshed out their stories. These stories added a layer of meaning that resulted in more complex productions. Sometimes, de Mille's stories were different from the stories her collaborators wanted to tell, which caused many conflicts. Because her unique ideas often got woven into the fabric of her musicals, de Mille saw her choreography as an authorship. She felt she should be given the same rights as the librettist and the composer. De Mille's work as an activist is an aspect of her legacy that has largely been overlooked. She contributed to revisions in dance copyright law and was a founding member of the Stage Directors and Choreographers Society, a theatrical union that protects the rights of directors and choreographers. Her contention that choreographers are authors who have their own stories to tell offers a new way of understanding the Broadway musical.

**Richard Mille** Alain Borer, Guy Lucas de Peslouan, 2010-02 A stunning photographic survey of the beautiful wristwatches created by Richard Mille, whose timepieces are instantly recognisable by the use of high-tech materials and incredible design Richard Mille, 54, has devoted his career to haute horology. His love for high-precision mechanism and his passion for technological perfection have inspired his creations. Thousands of hours devoted to engineering research in a state-of-the-art workshop in the Swiss Jura resulted in the realisation and marketing in 2001 of a wristwatch which was the most ergonomic and the most technically sophisticated watch of its time. Since then, about ten new models have been created and launched successfully. In a Richard Mille watch, the concept dictates the components, and not the other way round. Therefore there is no standard part. Carbon fibre, silicon, metallic and non-metallic alloys and ceramics are no longer exclusive to the car, aeronautics or aerospace industries. These materials offer haute horology fabulous possibilities and new technical solutions, provided it accepts the challenge of their adaptation to watchmaking. These costly materials must be tried and tested many times before their full potential to watchmaking is appreciated and understood by the tool-makers and watch-mechanics. It can be considered therefore that Richard Mille watches are futuristic high-tech works of art.

Text in English & French. AUTHOR: Alain Borer is a French poet and writer and teaches at the University of Southern California, Los Angeles. In 2003 he received the Joseph Kessel prize for his novel Koba. He is also the author of Icare & I don't which won him the Apollinaire prize in 2008. ILLUSTRATIONS 200 colour illustrations
