The Maggie Hope Series 5-Book Bundle Susan Elia MacNeal,2016-02-23 “Fans of Jacqueline Winspear and Charles Todd will feast on this riveting series chronicling Britain’s own ‘Greatest Generation,’” raves Julia Spencer-Fleming. “You’ll be [Maggie Hope’s] loyal subject, ready to follow her wherever she goes,” predicts O: The Oprah Magazine. With a seamless blend of mystery, real-life historical figures, and World War II drama, this award-winning, New York Times bestselling series features a whip-smart secretary who defies expectations to become England’s most daring spy. Now her first five adventures are collected in one thrilling ebook bundle: MR. CHURCHILL’S SECRETARY PRINCESS ELIZABETH’S SPY HIS MAJESTY’S HOPE THE PRIME MINISTER’S SECRET AGENT MRS. ROOSEVELT’S CONFIDANTE Also includes a preview of Susan Elia MacNeal’s next Maggie Hope novel, The Queen’s Accomplice! London, 1940. Winston Churchill has just been sworn in, war rages across the Channel, and the threat of a Blitz looms larger by the day. But none of this deters Maggie Hope. She graduated at the top of her college class and possesses all the skills of the finest minds in British intelligence, but her gender qualifies her only to be the newest typist at No. 10 Downing Street. Her indefatigable spirit and remarkable gifts for code breaking, though, rival those of even the highest men in government, and Maggie finds that working for the prime minister affords her a level of clearance she could never have imagined—and opportunities she will not let pass. In troubled, deadly times, with air-raid sirens sending multitudes underground, access to the War Rooms also exposes Maggie to the machinations of a menacing faction determined to do whatever it takes to change the course of history. Praise for the Maggie Hope series “Delightful may seem a strange word to describe a novel that takes place against the backdrop of the bombings of London during World War II, but it’s appropriate for this debut novel. . . . As sweet as it is intriguing.”—USA Today, on Mr. Churchill’s Secretary “A captivating, post-feminist picture of England during its finest hour.”—The Denver Post, on Mr. Churchill’s Secretary “With false starts, double agents, and red herrings . . . MacNeal provides a vivid view of life both above and below stairs at Windsor Castle.”—Publishers Weekly, on Princess Elizabeth’s Spy “A heart-pounding novel peopled with fully drawn real and fictional characters . . . provides the thrills that readers have come to expect from MacNeal.”—Richmond Times-Dispatch, on His Majesty’s Hope “A treat for WWII buffs and mystery lovers alike.”—Booklist, on The Prime Minister’s Secret Agent “MacNeal paints an engrossing portrait of a country on the verge of war, with many laws suspended and prejudice rife—a world not that much different from today.”—Kirkus Reviews, on Mrs. Roosevelt’s Confidante

Industries and Global Competition Bram Bouwens,Pierre-Yves Donzé,Takafumi Kurosawa,2017-09-18 Changes in the dynamics of economic activities since the last decades of the 20th century have yielded major changes in the composition of industries and the division of labor and production across different regions of the world. Despite these shifts in the global economy, some industries have remained competitive even without relocating their operations overseas. Industries and Global Competition examines how and why the specificities of certain industries and firms determined their choice of location and competitiveness. This volume identifies the major drivers of this process and explains why some firms and industries moved to other parts of world while others did not. Relocation was not the sole determinant of the success or failure of firms and industries. Indeed some were able to reinvent themselves at their original location and build new competitive advantages. The path that each industry or firm took varied. This book argues that the specific characteristics of each industry defined the conditions of competitiveness and provide a wide range of cases as illustrations. Aimed at scholars, researchers and acadmeics in the fields of business history, international business and related disciplines Industries and Global Competition exmaines the unique questions; How and why did the specificities of certain industries and firms determine their choice of location and competitiveness? Chapter 11 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

His Majesty's Hope Susan Elia MacNeal,2013-05-14 NEW YORK TIMES BESTSELLER • For fans of Jacqueline Winspear, Laurie R. King, and Anne Perry, whip-smart heroine Maggie Hope returns to embark on a clandestine mission behind enemy lines where no one can be trusted, and even the smallest indiscretion can be deadly. World War II has finally come home to Britain, but it takes more than nightly air raids to rattle intrepid spy and expert code breaker Maggie Hope. After serving as a secret agent to protect Princess Elizabeth at Windsor Castle, Maggie is now an elite member of the Special Operations Executive—a black ops organization designed to aid the British effort abroad—and her first assignment sends her straight into Nazi-controlled Berlin, the very heart of the German war machine. Relying on her quick wit and keen instincts, Maggie infiltrates the highest level of Berlin society, gathering information to pass on to London headquarters. But the secrets she unveils will expose a darker, more dangerous side of the war—and of her own past. “You’ll be [Maggie Hope’s] loyal subject, ready to follow her wherever she goes.”—O: The Oprah Magazine

Fumo Carl David Ipsen,2016-05-04 For over a century, Italy has had a love affair with the cigarette. Perhaps no consumer item better symbolizes the economic, political, social, and cultural dimensions of contemporary Italian history. Starting around 1900, the new and popular cigarette spread down the social hierarchy and eventually, during the 1960s, across the gender divide. For much of the century, cigarette consumption was an index of economic well-being and of modernism. Only at the end of the century did its meaning change as Italy achieved economic parity with other Western powers and entered into the antismoking era. Drawing on film, literature, and the popular press, Carl Ipsen offers a view of the cigarette century in Italy, from the 1870s to the ban on public smoking in 2005. He traces important links between smoking and imperialism, world wars, Fascism, and the protest movements of the 1970s. In considering this grand survey of the cigarette, Fumo tells a much larger story about the socio-economic history of a society known for its casual attitude toward risk and a penchant for la dolce vita.

A Minority of One Wally Payne, 2005-05 Notwithstanding his swift progression through the ranks, the author's contempt for those he considers unworthy of positions of authority remains undiminished. An inability to bear fools gladly, his outspoken manner and a reputation as a fighter of lost causes does little to endear him to his commanders. His primary concerns are to enjoy life to the full and the well-being of the men in his charge. He claims a modicum of success on both fronts. To the bewilderment of many and the utter disgust of others, the Army sees fit to commission the man so adept at swimming against the tide. It's said that, on moonless nights at the Royal Military Police Training Centre in Chichester, the ghostly sound of resentful retching into galvanized buckets may be heard to this day.

Gadget Nicolas Freeling, 2023-12-05 From an Edgar award winner, this thriller about a physicist forced to make an A-bomb is “a splendid account of the excesses of science and bureaucracy” (The New York Times). An American physicist working in Hamburg, Jim Hawkins is on his way home from his job at a German nuclear institute when he is rammed off the road and abducted by terrorists. Drugged and taken to a secret location, he wakes to find himself being held hostage alongside his terrified wife and daughters. With nothing else to do but comply with the terrorists’ demands, Jim begins to build a weapon powerful enough to destroy the world. The target: a conference in Lake Geneva, where heads of state are meeting, even as news of his abduction has reached the ears of the American president, only to be dismissed as rumor. Will anyone be able to convince the world leaders of the threat in time? “Freeling moves from straight suspense to a science thriller and keeps his kinkiness intact. . . . Brilliant.” —Kirkus Reviews, starred review

The Perfect Nazi Martin Davidson, 2011-03-31 What if you found out that your grandfather had been a Nazi SS officer? This is the confession that Martin Davidson received from his mother upon the death of demanding, magnetic grandfather Bruno Langbehn. The Perfect Nazi is Davidson's exploration of his family's darkest secret. As Davidson dove into his research, drawing on an astonishing cache of personal documents as well as eyewitness accounts of this historical period, he learned that Bruno's story moved lock-step in time with the rise and fall of the Nazi party: from his upbringing in a fiercely military environment amid the aftermath of World War I, to his joining the Nazi party in 1926 at the age of nineteen, more than six years before Hitler came to power, to his postwar involvement with the Werewolves, the gang of SS stalwarts who vowed to keep on after the defeat of Nazism. Davidson realized that his grandfather was in many ways the perfect Nazi, his individual experiences emblematic of the generation of Germans who would plunge the world into such darkness. But he also realized that every fact he uncovered was a terrible truth he himself would have to come to terms with...

Van Gogh TV's »Piazza Virtuale« Tilman Baumgärtel, 2021-11-30 Piazza virtuale by the group of artists known as Van Gogh TV was not only the biggest art project ever to appear on television, but from a contemporary point of view the project was also a forerunner of today's social media. The ground-breaking event that took place during the 100 days of documenta IX in 1992 was an early experiment with entirely user-created content. This is the first book-length study of this largely forgotten experiment: It documents the radicality of Piazza virtuale's approach, the novel programme ideas and the technical innovations. It also allows, via QR codes, direct access to videos from the show, which until now have been inaccessible.

1941 The Shortest Night Mariusz Tkaczyk, 2020-03-07 This novel is first part of the epic alternative history of the Second World War. Stunning in its richness of military, political and lifetime details, the novel takes us to a world where the known history has changed. From Tokyo Bay to London shelters, through the streets of Warsaw, Parisian brothels and the Reich Office. It is a story about those who fight, to the death and life in trenches, tanks and planes. They kill and are killed. And about those who sent them there with a smile on their faces, or false compassion. The whole world is plunged into chaos. 1940 ends, 1941 comes. Will the British Empire sign peace with the Germans? Will Hitler hit the Soviet Union or, on the contrary? Will the United States actively join the war? Who fights whom and for what cause?

Green Budget Reform in Europe Kai Schlegelmilch, 2012-12-06 Budgets have a big influence on the economy and society. With many countries, about 50 percent of total expenditures and income pass through the budget via taxes, charges and expenditures. In recent years many countries, e. g. in the OECD and the EU, have tended to use this influence in an environmentally rational way. Traditional environmental policy has relied on command-and-control and end-of-pipe technologies that have proven to be insufficient in coping with the challenge of global change. Hence, many countries have started to investigate the environmental impacts of their budgets by looking at existing taxes and charges, as well as tax allowances and exemptions and other relevant regulations and expenditures -even to have a special impact on the environment. The implementation of those not meant such findings is now broadly discussed in these countries. This publication will contribute to the debate. It is a result of a wider project called Green Budget Reform -Prospects in Central and Eastern Europe. initiated by Vida Ogorelec Wagner, managing Director of Umanotera, The Slovenian Foundation for Sustainable Development, and then jointly developed. proposed to the EC and carried out in partnership with Kai Schlegelmilch of the Wuppertal Institute in Germany. The project comprised an international seminar on Green Budget Reform in April 1997 at Lake Bled, Slovenia, and the Case Study of Sloveilla.
